## American Railroad Journal.

New York, Saturday, January 6, 1877.

### Erie Railway.

From the report of H. J. Jewett, Esq., Receiver, filed in the County Clerk's office, it appears that the receipts for the month of September (including $563,143 22 at its commencement,) were $2,475,192 08; and the expenditures $2,066,248 99—leaving a balance at the close of September of $408,943 09. His receipts were nominally $1,912,048 86, and his expenditures nominally $2,066,248 99; but in his receipts were included certain borrowings, and in his expenditures payments not directly concerned with the running of the road, and some small matters coming over from two years ago. Among the receipts are loans on call $50,000, and moneys realized from receiver's certificates $132,976 48; but on the side of payments are $860,000 of receiver's certificates and $100,000 of temporary loan taken up, reducing the receiver's indebtedness $50,000 on his temporary loans, and $227,023 52 on his certificates. The account of receiver's certificates is thus reduced to $952,976 48, a lower amount than has appeared for several months. Besides this, Mr. Jewett credits himself with $26,604 17 for the purchase of cars, and $10,073 68 paid on the coal lands which have been half paid for by the Erie Railway Company. The main receipts are, from freight, $1,098,784 45, and from passengers $531,851 11; and the main expenses are traffic balances, $308,595 29, line labor rolls $613,415 50, and supplies $175,578 96.

### Railroads of the United States, January 1, 1877.

At the close of a year it has been usual with ourselves to sum up and review the facts that have marked the pathway of time in its flight, and to note the advance made in that department of human industry of which the RAILROAD JOURNAL has for nearly half a century been the constant and persistent advocate. This is a custom too valuable to be abandoned, and hence we again place before our readers the sum and substance, so far as figures are concerned, of the advance made in railroad construction in the United States during the year 1876, with the close of which year our "Journal" completed full forty-six years of beneficial existence. Through all these years we have watched and noted the progress of all questions and accomplishments connected with this all-important and all-powerful instrument, which, in the hands of the scientific and mechanical ingenuity of modern mankind, has developed a country and created a great nation, spreading over a vast territory, which without the railroad would undoubtedly have still remained in the condition of primitive wilderness and useless grandeur. In 1831, when we commenced our editorial labors, there were not in the whole country 80 miles of railroad. The population was then sparse and scattered even in the oldest settled sections. The canal was our quickest means of travel and transportation; and, in illustration of those times, we may state that in 1831 it took as long a time to journey from New York to Albany as it now does to travel from New York to Chicago or St. Louis. There was no inducement for immigration in those days. The New York Central, the Erie, the Pennsylvania and Baltimore and Ohio Railroads, and their multitude of Western connections, were not in existence; and as to any portion of the country beyond the Alleghenies everything was in a state of nature. True there were settlements in the West, but they were of slow-growth compared with the progress we have witnessed since the railroad gave us the means of locomotion. We all know, however, that all this has been changed. The railroad is everywhere and penetrates even the wildernesses in anticipation of the wants of the coming immigrant from our own settled States and from all countries of the world. The progress of the railroad year by year is shown in our tabulations; the isolated 80 miles in existence at the birth of the "Journal" has grown to be a vast system embracing 80,000 miles of completed and operating line of iron roadway.

With the extension of the railroad as exhibited in our tables the whole commercial system of the country has been revolutionized. The cost of transportation is now but a small fraction of what it was in the early years of the "Journal's" existence. The produce of the far west is now brought to the seaboard at rates that would not then pay expenses between Albany and New York—a hundred miles are now what ten miles then were, and a thousand miles what a hundred miles; in this proportion time and money have been economized to the advantage of both shipper and merchant. The life of man, indeed, is not, in the present age, simply a term of years—he can make it, by utilizing modern appliances, ten times the length of a life by years, and a hundred times more valuable to himself and mankind, than our forefathers ever dreamed of. In connection with the telegraph, quick mails, the steamship, etc., the world moves on apace and the destiny of humanity becomes one of supreme and ever-increasing importance.

Our usual tabulations follow on the succeeding page:

RAILROADS IN THE UNITED STATES, JANUARY 1, 1877.

| STATES, ETC. | Track in Miles. Main and Branch. | 2d &c., and Side Track. | Total Track. | Cost of Road, Equipment, &c., &c. |
|---|---|---|---|---|
| Maine | 1,011.31 | 119.13 | 1,130.44 | $43,328,993 |

| Increase during the year 1876 | 3,124.16 | 992 77 | 4,116.93 | $78,965,326 |

The progress of railroad construction in the United States is exhibited by annual gradation in the following table:

| Year. | Miles. | Increase. | Year. | Miles. | Increase. |
|---|---|---|---|---|---|
| 1827 | 3 | | 1852 | 11,027 | 2,438 |
| 1828 | 3 | | 1853 | 13,497 | 2,470 |
| 1829 | 28 | 25 | 1854 | 15,672 | 2,175 |
| 1830 | 41 | 13 | 1855 | 17,398 | 1,726 |
| 1831 | 54 | 13 | 1856 | 19,251 | 1,853 |
| 1832 | 151 | 77 | 1857 | 22,625 | 3,374 |
| 1833 | 576 | 445 | 1858 | 25,090 | 2,465 |
| 1834 | 762 | 186 | 1859 | 26,756 | 1,666 |
| 1835 | 918 | 156 | 1860 | 28,771 | 2,015 |
| 1836 | 1,102 | 184 | 1861 | 30,593 | 1,822 |
| 1837 | 1,431 | 329 | 1862 | 31,769 | 1,176 |
| 1838 | 1,843 | 412 | 1863 | 32,471 | 702 |
| 1839 | 2,220 | 377 | 1864 | 33,860 | 1,389 |
| 1840 | 2,797 | 577 | 1865 | 34,442 | 582 |
| 1841 | 3,319 | 522 | 1866 | 35,351 | 909 |
| 1842 | 3,877 | 558 | 1867 | 36,896 | 1,545 |
| 1843 | 4,174 | 297 | 1868 | 38,822 | 1,926 |
| 1844 | 4,311 | 137 | 1869 | 42,272 | 3,450 |
| 1845 | 4,522 | 211 | 1870 | 48,860 | 6 588 |
| 1846 | 4,870 | 348 | 1871 | 55,535 | 6,675 |
| 1847 | 5,336 | 466 | 1872 | 61,647 | 6,112 |
| 1848 | 5,682 | 346 | 1873 | 68,458 | 6,811 |
| 1849 | 6,350 | 668 | 1874 | 73,603 | 5,145 |
| 1850 | 7,475 | 1,125 | 1875 | 75,406 | 1,803 |
| 1851 | 8,589 | 1,114 | 1876 | 77,311 | 1,905 |

1877.... Total, 80,435; increase, 3,124 miles.

In reading these tables it must be understood that they do not include the industrial railroads, which in some parts of the territory occupied are numerous and in the aggregate of considerable length. Nor are the city and neighborhood railroads, which have become not only a necessity of our civilization, but one of the prime movers of business and well-being. In many instances the latter description of road extends into villages from manufacturing and mining centres affording an easy conveyance to and fro for the employed. We have no means of measuring their length, but we are certain to be within bounds in stating the first at 1,000, and the latter at 2,000 miles.

In the statement which follows is shown the length of railroad opened in 1876 so far as reports have reached this office:

| | Miles. |
|---|---|
| Maine | 39.25 |
| New Hampshire | 26.00 |
| Vermont | 18.75 |
| Massachusetts | 66.31 |
| Rhode Island | 23 00 |

| Pacific States, etc | 372 60 |
| Grand Total | 3,124.16 |

This showing nearly equals the openings in 1869, the year which preceded our five years of the greatest railroad construction period known to history.

As shown in the above tabulation, railroad building has been very active in Texas and California; in the first-named to the extent of nearly 400, and in the latter of more than 300 miles. Colorado has also continued to extend its lines towards New Mexico. New York, New Jersey and Pennsylvania have built lines aggregating 456½ miles. Kentucky has constructed a large length of the Cincinnati Southern, which, when fully completed, will give to Cincinnati equal advantages with Louisville in the race for Southern commerce. New England contributes upwards of 200 miles. The States of the Interior on either side of the Mississippi have also done well. On the whole, indeed, the construction year has largely improved over the two preceding years; and let us hope that these new movements indicate an early and complete recovery from the financial prostration that so suddenly overspread the whole business world of the United States in the fall of 1873, and which has continued to oppress and discourage us through more than three years. The present, however, is encouraging to the capitalist. Labor and material are very cheap, and it appears to our comprehension that investments under existing circumstances cannot fail to become very valuable in the more prosperous near future of the nation's life, when labor shall earn larger wages and iron regain a paying price. Probably the greater activity in railroad building during the year 1876 has depended largely on these considerations.

Among the occurrences of the year, the most important has been the war of rates between competing lines. In its effect on freights it has eclipsed the utmost requirements of the most astute granger. Several of the great lines have become bankrupt on this account; notably the Ohio and Mississippi, which occupies so good a route and territory, that it, if any, should have borne the burden imposed upon it without permanent damage. Other considerations have brought grief to other lines. The coal roads have suffered from the impossibility of earning living wages, and have fallen from their former proud estate as good investments. Some of these might have escaped had they not been overloaded with presently unproductive properties or expensive lease-holds. The Central of New Jersey and the Delaware, Lackawanna and Western are apt illustration of the impolicy of burdening financial trusts with contracts that would take years to bring to fruition. It is possible that the Delaware, Lackawanna and Western Company's line into Canada has been opened before circumstances warranted it, and it is also possible that their investment in the Morris and Essex line has been unadvisedly large. It will at all events use up large amounts of cash to carry these works to the paying point of their existence, which is apparently not in the near future. The lesson these facts teach us, however, will be a valuable one to the financiers of the future, and stand as a warning against a too expansive ambition.

The year 1876, if it has not been a pleasant one to existing railroad companies, has been a very prosperous one to the narrow gauge railroad builder. In whatever direction we look we witness the construction of this recent invention in progress. It has become domiciled throughout nearly all the newer States, and is being well-received in the older States. It is making rapid progress in Ohio and Indiana; and in California and Nevada a large majority of all their newer railroads are of the narrow gauge type. Utah has also adopted this gauge very extensively. In the more easterly States it is only now becoming acclimatized. It has a footing in Massachusetts; Maine is building the Aroostook Railroad on this gauge, and the Bangor and Calais Company have recently adopted it. In Pennsylvania it has already several representatives, and it appears to answer all necessary purposes in the more hilly parts of that State. We have also to note the building of a wooden road in Wisconsin, which is "ironed" with maple. There is a road of this description in the Black River district of New York; and we opine that in the future such roads may be utilized in all outlying country parts as yet too poor to afford a fully equipped institution. A well-known statist has written a history of the narrow gauges, and estimates that some 7,000 miles have already been plotted and about 2,700 miles constructed, and we believe the statement approximates the fact.

The railroad was well-represented at the Centennial Exhibition at Philadelphia. Its progress and the progress of its steam motor, was illustrated historically by the exhibition of plans and models of the first, as well as the intermediate and most advanced machinery that has been used from stage to stage of its career. Its companion the steamboat was also well illustrated, and the wonders of telegraphy unfolded to the eye and mind. But perhaps the most important of the railroad appliances exhibited were those designed to ensure the safety of trains in motion. The automatic brake is a wonderful but withal a very simple and controllable force. The signal instruments exhibited were scarcely less important in their relations and ingenuity of adaptation to the purposes they are intended to accomplish. But there were so many other inventions that stirred our curiosity and excited our wonder as to make it impossible to further individualize. The master minds that devised them are deserving of our highest regard as the friends of humanity.

A noted subject discussed more than ever during 1876 was the employment of a steam-motor for city passenger railroads. The successful introduction of such a power is very desirable, and we hope that before another annual period has passed that the discussion alluded to will have been succeeded by a practical use of the best machine for such purpose our inventors may project. In Scotland a machine has already been found that accomplishes its purpose.

Perhaps the most promising indication of returning prosperity to railroad corporations is the fact that the earnings of the Chicago, Milwaukee and St. Paul Company have been sufficient to warrant a dividend of 3½ per cent on their preferred stock (made payable October 5, 1876), and those of the Chicago and Northwestern a dividend on their preferred stock of 2½ per cent (made payable December 22, 1876.) These companies have been the largest sufferers from the Granger movement, and hence it is with the greater rejoicing that we welcome them back to the select fraternity of dividend-paying society.

The policy of continental Europe has been to abstract the largest dividends from customers. In France railroading is a monopoly, each great company being granted a business district. The consequence is that dividends of 10 and 12 per cent are certain, and at the same time the State is sure of an enormous tax contribution. Indeed, throughout Europe the government and railroad companies go hand in hand to fleece the public. It is, however, very different in Great Britain and Ireland, where every company has to bear its own burden and be responsible to government only when its actions are not accordant with its chartered rights, and they are certainly well protected in all the rights they possess. The difficulty in this country is the multiplicity of authorities having cognizance of railroad affairs. Ought not our railroads to be controlled by the federal government?

## Finances of New York.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The accounts of the financial affairs of the State are kept with thirteen different funds, counting the several canal funds as one. The details of the accounts will be found in the Controller's report. The following statement exhibits the financial condition of the State at the close of the fiscal year, as it would be if all the funds were condensed into one:

| | |
|---|---|
| Aggregate balance in the treasury of all the funds, Oct. 1, 1875 | $8,126,778 98 |
| Aggregate receipts during the fiscal year ending Sept. 30, 1876 | 18,623,986 29 |
| Total | $26,750,765 27 |
| Deduct payments during the year | 17,827,711 49 |
| Balance in the treasury Sept. 30, 1876 | $8,923,053 78 |

A large proportion of the above balance in the treasury consists of money in the various sinking funds.

| | |
|---|---|
| The amount of receipts into the treasury on account of the General Fund revenue during the year ending Sept. 30, 1876, was | $11,646,517 63 |
| The payments, including the deficiency of $733,863 77 on the 1st of October, 1875, and also $4,640,849, transferred to the Bounty Debt Sinking Fund, were | 11,644,982 98 |
| Balance Sept. 30, 1876 | $1,534 65 |

The balance, although small, is more satisfactory than the large deficits which have almost uniformly appeared for many years past.

On the 30th of September, 1875, the total funded debt was $28,328,686 40, classified as follows:

| | |
|---|---|
| General fund | $3,119,526 40 |
| Contingent | 68,000 00 |
| Canal | 10,086 660 00 |
| Bounty | 15,054,500 00 |
| Total | $28,328,686 40 |

On the 30th of September, 1876, the total funded debt was $23,315,898 58, classified as follows:

| | |
|---|---|
| General fund | $3,092,238 58 |
| Contingent | 5,000 00 |
| Canal | 10,081,660 00 |
| Bounty | 10,187,000 00 |
| Total | $23,315,898 58 |
| Actual reduction of the debt during the year by cancellation | $5,012,787 82 |
| Aggregate amount of debt | $23,315,898 58 |
| Deduct money and securities in the sinking funds | 14,191,889 50 |
| Total amount of debt after applying sinking funds | $9,124,009 08 |

The bounty debt will mature on the 7th day of April next. The sinking fund, together with the one-third mill tax, now in course of collection, will be sufficient for its full payment.

The balances in the sinking funds on the 30th of September, 1876, including moneys and securities, were as follows:

| | |
|---|---|
| General fund | $2,910,529 86 |
| Canal | 2,121,050 24 |
| Bounty | 2,160 309 90 |
| Total | $14,191,889 50 |

It must be observed, however, that the amount in the General Fund Debt Sinking Fund cannot all be applied to the payment of that debt, without leaving a large deficiency of means for paying the current expenses of the Government. The full amount required for the payment of the debt was contributed from the surplus revenues of the canals, as directed by the Constitution, the last contribution having been received in 1878. But instead of being applied to that object it was used to pay other appropriations made by the Legislature, and not otherwise provided for, and has never been fully restored. The debt therefore remains uncancelled, and, if ever paid it must, to a large extent, be paid by taxation. The whole of it—except $800,000 due in 1878, and $30,443 76 due on demand—is payable at pleasure, and is held by the State as an investment for the various trust funds. In this condition it will of course remain, the interest upon it being paid to the respective funds for which it is held, so long as the Legislature may choose to leave it in that shape. It would be more satisfactory, and in better accord with the Constitution, to have the whole debt extinguished, and the money belonging to the trust funds invested in other securities. It is believed that the $800,000 due in 1878 may be paid from the Sinking Fund without taxation.

## Erie Railway.

OFFICE OF THE ERIE RAILWAY COMPANY,
NEW YORK, DECEMBER 12, 1876.

*To the Board of Directors of the Erie Railway Company.*

The accompanying reports of the General Superintendent, and the Auditor, give in detail the condition and operations of the road for the fiscal year ending September 30, 1876.

| | |
|---|---|
| The gross earnings amounted to | $15,852,461 14 |
| The operating expenses, including $580,671 54 for new equipment, amounted to | 12,231,201 78 |
| Leaving applicable to the payment of interest, and for other purposes | $3,621,259 36 |
| The net receipts from other sources amounted to | 319,181 16 |
| Total amount available for disbursement | $3,940,440 52 |

The gross earnings, as compared with the preceding year, show a decrease of $1,024,397 46.

The amount derived from the transportation of General Freight was $230,125 37 in excess of the preceding year.

The decrease in the coal traffic is more than equal to the entire decrease in the gross earnings; which decrease, however, added to the decrease in the other branches of the service, overcomes the increase from General Freight, and leaves a total deficiency of the amount above stated.

The causes which have seriously affected the coal earnings of this company have operated with like serious effect upon all the coal roads with which it has connection. It is not believed, however, that these causes are of a permanent character. When business, and the manufacturing interests which obtain their supplies from the coal fields tributary to our road, revive, there is no doubt but that the coal traffic of the road will resume its former standard, and be as productive in the future as it has been in the past.

The average rate during the fiscal year of 1875 was extremely low. The general depression of business, with the then prevailing competition, resulted in a reduction of rates to an extent not before anticipated, and below the point which it was supposed would be reached during any future year. But had the rates of that year, as low as they were, prevailed during the fiscal year just closed, the earnings of the company from its freight traffic would have been $1,144,475 11 more than was realized; and, notwithstanding the falling off in the coal and other branches of traffic, would have been in excess of the earnings of the preceding year.

Instead of the rates being advanced early in the winter of 1875 6, as was anticipated, the competition between the Grand Trunk and the New York Central Railroad Companies, with their connections, for the New England traffic, became so active as to involve, more or less, all the roads leading to New York and the other Atlantic cities. This competition continued, and gave rise to other questions, which should, and under ordinary circumstances, would have been adjusted, without seriously complicating or disorganizing the relations or business arrangements then existing.

As negotiations are now pending for the settlement of the points in controversy, and with every prospect of success, I will not further discuss the question, or attempt to show upon whom or upon which company or companies the responsibility rests, for a competition which has proved so disastrous to all interested. I can, however, safely say, that the responsibility does not rest with this company or its managers.

By a reduction in the expenses and other previously fixed charges, notwithstanding the decrease in earnings, the actual deficit in the amount required to meet the obligations of the company is less than that of the preceding year, the deficit for the year 1875 being $1,858,164 77, and for the year just closed $1,229,630 19.

The Auditor's report shows in detail the application made of the balance remaining after the payment of current expenses.

### COAL PROPERTY.

The amounts advanced to the Coal Companies were necessary to protect large investments in the property thereof, made by this company previous to the date of the appointment of the Receiver.

### NATIONAL STOCK YARD COMPANY.

The amounts shown in the Auditor's Report as paid Charles Robinson, and paid on account of the stock, bonds and coupons, of the above-named company, were deemed necessary to protect this company in the use of the Stock Yards. The Stock Yard property was represented by an independent company, having no interest in the Railway; and instead of the Yards being an aid to the Railway, in securing and protecting its live stock business, they were regarded as being an obstruction by those more directly connected with that branch of the traffic. They were a necessity to the Railway; and it was, therefore, considered wise and proper that the Railway Company should secure, at least, a sufficient amount of the stock of the Stock Yard Company to control its organization and management. In doing this, the course of conduct pursued was to purchase the stock, paying to the holders the actual cost thereof to them, as paid by them to the company at its organization, and in consideration for which the stock was issued. The property was a valuable one, independent of the purposes for which it was held. It was encumbered by several mortgages, one of which was to secure bonds issued, and to be issued, amounting to $1,000,000, and was represented by a stock interest of 10,000 shares, of the par value of $1,000,000. This company owned $655,000 of the bonds, and $232,200 of the stock. By the payment of the amounts named, it acquired $549,500 of the stock, and $10,000 of the bonds, thus giving it the absolute control of the property; which, instead of remaining an obstruction to the business of this company, now contributes to that business; and has been leased for $65,000 per annum, the lessees guaranteeing to this company its proportion of the live stock delivered at the New York market.

### PURCHASE OF UNION STEAMBOAT COMPANY STOCK.

The Union Steamboat Company is an organization created and empowered to own and operate a line of steamers on the Lakes. It owns a fleet of seventeen steamers. The amount of its capital stock is 10,000 shares, of the par value of $1,000,000, of which this company owned $869,000.

The policy of that company had been to appropriate its net earnings from year to year to the increase of its equipment of steamers. The out-

standing stockholders not being content with this mode of disposing of the surplus revenues—they having no interest in the Railway Company—demanded that such net profits should either be divided in the shape of dividends, or that the Railway Company should relieve them of the stock which they owned.

The latter course was thought to be the wiser one to pursue; to accomplish which, the amount named in the Auditor's Statement was used. The number of shares purchased was 1250, leaving 60 shares of unissued stock in possession of the Union Steamboat Company.

BUFFALO, NEW YORK AND ERIE BONDS.

The Buffalo, New York and Erie road extends from Corning to Buffalo, connecting the main line of this road with the latter point, and with the roads diverging therefrom.

It had been leased by this company subject to the then existing mortgages, the preservation of which lease was a necessity to the future business and prosperity of this company. One of the mortgages had matured, and the holders of the bonds secured thereby, demanded immediate payment, to compel which proceedings for foreclosure had been instituted.

To protect the lease it became necessary to take up the bonds secured by the mortgage upon which said proceedings were based, to do which the amount named by the Auditor was required, and was so appropriated; the bonds, under the order of the Court, being held for the benefit of this company.

SUSPENSION BRIDGE AND ERIE JUNCTION R.R. STOCK.

The Erie Company is the lessee of the Suspension Bridge and Erie Junction Railroad, extending from East Buffalo to Suspension Bridge. By the terms of the lease it guaranteed the interest upon the bonds of that road and a dividend of seven per cent. per annum upon its stock.

This branch is, in many respects, a necessity to the Erie Railway, being its only direct connection with the Great Western Railway of Canada, and without which it could only reach that road over the International Bridge at Buffalo, a property owned and controlled by the Grand Trunk Company. The rental provided for in the lease was largely in excess of the actual earnings of the road. In the event of the continuance of the lease, the stockholders of that company had a claim upon this for their dividends. It was not thought best to at once exercise the power which, perhaps, the law vested in the Receiver, with the permission of the Court, to abandon that lease, but rather, if it could be done at a reasonable expense, to reduce largely the rental; leaving to those who might hereafter become the proper owners of the Erie Railway a majority of its stock, and at liberty to dispose of the lease as in their judgment might be deemed best.

The capital stock of that company amounted to 5,000 shares, of the par value of $500,000, of which the Erie Company held 1753 shares. By the investment of the amount named in the report of the Auditor, this company acquired the additional number of 537 shares, which, with the number previously owned, and since acquired in the adjustment of other accounts, gave it the control of that company.

JEFFERSON CAR CONTRACT.

The amount paid to the Jefferson Car Company was in settlement of the relations between that company and this. A contract was made some years since with that company, by which it undertook to place upon the road fifteen hundred four wheeled coal cars, upon condition that such cars be kept in repair, their number maintained, and there be paid for their use one cent per mile for each car. This company assumed such obligations, and guaranteed that the earnings of such cars on mileage account should be equal to $10,500 per month, or $126,000 per annum.

Default having been made in some of these payments, a suit had been instituted by the Car Company upon its contract, and a judgment for $179,879 45 obtained. This company held 2,784 shares of stock in the Car Company, which stock, however, was of no value independent of the cars owned.

In view of all the facts, it was thought advisable to become the owners of the cars, cancel the car contract, and thus be relieved of the payments involved in its continuance; to accomplish which purposes, an agreement was entered into with the Car Company, by which this company surrendered all its stock and agreed to pay in instalments, with interest from the date of such settlement, the sum of $300,000, in consideration of which the Car Company satisfied its judgment, cancelled its contract, and delivered to the Erie Company its cars.

---

The foregoing comprise the principal payments made on accounts other than those involved in the immediate management of the property of the company, its improvement, and the payment of its fixed liabilities. They were all made by the express authority of the Court, after a consideration of all the facts, and after such facts, and the proposed action, had been submitted to, and approved by your Board.

FLOATING DEBT.

The floating debt of the company has been reduced in the sum of $974,621 44, since the date of appointment of Receiver.

CONDITION OF THE PROPERTY.

The report of the General Superintendent explains in detail, the condition of the road and its equipment. However anxious its managers may be to economize, and however diligent they may be in avoiding all extravagant and unnecessary expenditures, the road can never be worked with the same degree of economy as it might be, were the difficulties pointed out remedied. Additions have been made to the equipment, in making which, a uniformity of pattern and plans has been observed. Improvements have also been made to the track, as will appear in detail in the report of the General Superintendent. These expenditures although not chargeable to revenue, were, as will appear from the report of the Auditor, paid therefrom.

In estimating for the amount of steel required to lay the third rail between Waverly and Buffalo the side tracks were included, and the requisitions for the rail were made accordingly.

In laying the sidings, however, iron was substituted for steel, by which means two thousand tons of the steel were rendered available, and were used in repairs of road, as mentioned by the General Superintendent.

The accompanying statement of Chief Engineer Chanute contains an estimate of the work needed to be done to place the road in a condition for earning to its utmost capacity, and upon the same advantageous terms as are enjoyed by its competitors. These estimates are, no doubt, based upon the supposition that the work is be done independently of the daily operations of the road. Doubtless, in the course of doing the work—if its prosecution should be determined upon—the amounts named could, in many respects, be reduced, by the service being rendered in connection with the daily working of the road, without seriously increasing the operative expenses of the company.

As the work progresses, also, changes in its character, in the amount required, and in the cost thereof, could, no doubt, be wisely made, increasing in some particulars, and decreasing in others. As a whole, however, I think the estimates are substantially correct. Even if the full amount of work proposed could not be done, if sufficient means could be provided for completing the double track, laying the third rail, increasing the equipment, and remedying the difficulties which exist in that at present in use, together with some of the proposed terminal facilities, the capacity of the road to earn at a largely reduced expense, would be greatly increased, and it would probably be able out of its earnings, in addition to discharging its fixed obligations, to make the balance of the improvements required.

REORGANIZATION.

An effort is being made by a committee of the bond and shareholders in Europe to provide the amount required for these improvements, by a funding of a portion of the mortgage coupons, and by contributions from the shareholders.

I cannot too strongly commend to the members of the Board that they give their hearty co-operation to this, or some other mode for providing the means needed for these improvements. Their necessity, their importance, and the ability of the company to much more than provide for the interest upon the increased debt which such provision will involve, cannot be doubted by any one, especially if it be borne in mind that the actual cost of transferring the traffic now moving over the road from and to its connections, rendered necessary because of its exceptional gauge, would, of itself, be more than equal to the interest upon whatever debt it might be necessary to incur in the completion of the third rail.

I beg to repeat that my faith in the value of the Erie road and property has not changed; but, on the contrary, my every day experience strengthens the conviction that it needs only the succor and support of its owners to make it, in point of importance, of value, and of productiveness, equal to any of the trunk lines; and that if thus supported and completed, it will not only be able to promptly meet its fixed obligations, but would be equal to the payment of regular dividends upon a properly adjusted stock basis.

All of which is respectfully submitted.

H. J. JEWETT, Receiver.

---

**Lake Shore & Michigan Southern Railway.**

At a meeting of the Executive Committee of the Lake Shore and Michigan Southern Railway Company, held on the 29th of December, 1876, the following report as to the business of the road for the year 1876 was submitted by the Auditor, and a dividend of 1¼ per cent declared upon the common stock:

| | |
|---|---|
| Gross earnings (December partly estimated) | $13,963,177 |
| Operating expenses and taxes (December partly estimated) | 9,602,000 |
| Net earnings | $4,361,177 |
| Interest, rents and dividends on guaranteed stock | 2,750,000 |
| Leaves | $1,611,177 |
| Dividend paid 1st of August, 1876, two per cent | 989,330 |
| Balance | $621,847 |

During the year about 10,500 tons of steel rails have been substituted for iron. The cost of the substitution was paid out of current revenue, and is included in the amount of expenses above stated. The company has no floating debt, nor outstanding obligations of that nature. During the year the bonded debt has been reduced $250,000 by the fulfillment of the requirement of the sinking fund, and now stands at an aggregate of $36,000. The road, machinery, and property have been in all respects fully maintained at their high standard condition, and in many respects materially improved. Whereupon it was

Resolved, That a dividend of 1¼ per cent upon the capital stock out of the earnings of the six months ending with the month of December, 1876, be paid on the 1st day of February next, at the office of Messrs. Chase & Atkins, No. 18 Broad st., New York.

---

☞ A survey has been commenced of a proposed new railway from Cumberland to the coal regions. The survey is in charge of O. D. Robbins, assisted by Messrs. Patterson and Sheridan.

# American Railroad Journal.

**Saturday, January 6, 1877.**

### Financial and Commercial Affairs.

Without much activity and, on the whole, a tame speculation the course of prices on our Stock Exchange has been generally upward during the past week. There has been some further advance in railroad freights between the seaboard and the West; but this advance is only five cents per hundred pounds. There is, instead of any important burdens of this sort being laid upon the commerce of the country, an advance of about 40 per cent in passenger fares. This action of the railroads is in exact accordance with the views on the subject which have been expressed in the JOURNAL on different occasions during the past autumn. The drawbacks to the favorable position have been such as have arisen from a frightful accident on the Lake Shore Railroad near Ashtabula, Ohio, and the occurrence of a severe and wide-spread snow storm, which will greatly delay transportation, reduce earnings, and increase operating expenses. But, notwithstanding all these, there is a disposition to take a favorable view of railroad property. New York Central has been unfavorably affected by the declining health of Mr. Vanderbilt, and reports that large expenditures for rolling stock are necessary to be made at once. The coal stocks have been conspicuous for their buoyancy. On Wednesday there was some excitement, and a pretty uniform advance in prices, in which Delaware, Lackawanna and Western took the lead.

Railroad bonds have been active at full prices. The only important default is in Ohio and Mississippi Consols, etc.

Gold has ruled very steady under the circumstances. It has cost full legal interest to carry it, and often more; the importation from Europe has continued, and the payments from the Federal treasury on interest account have been large. The close on Wednesday was at 107. A further advance in Exchange has proved a support to the gold premium, and many parties are confident that exports will soon be required. The banks were carrying 33 millions in specie on the 30th ult. The advanced rates of exchange are $4 88½ @$4 84½ for prime 60 day bills. This advance took place in the face of large exports of merchandize, which for the week aggregated $6,958,-910, against $4,612,318 for the corresponding week in 1876.

The bank statement was nominally a favorable one, because it showed an increase of 1⅜ per cent. in the lawful money reserve; but the fact was: an increase of $5,390,000 in specie, and a decrease of more than half a million in legal tenders, still further weakened the lending resources of the banks, whose legal tender reserve has fallen off nearly one tenth in the past month. Money has consequently been dear all the week, call loans being generally made at 6@7 per cent., with discounts of first class paper at about the same rates.

Government bonds have been without much change, but on the whole are rather easier, closing on Wednesday, as follows:

United States currency sixes, 121⅞@122; do. 6s, 1881, registered, 113⅝@113⅞; do. coupon, 113⅞@114; do. 1865, registered, 109⅜@109⅝; do. coupon, 109½@109⅝; do. new, registered, 110¼@110½; do. coupon, 110¼@110⅜; do. 1867, registered, 113¼@113½; do. coupon, 113¼@113⅜; do. 1868, registered, 114@115; do. coupon, 115@115¼; do. ten-forties, registered, 113⅜@113½; do. coupon, 113½@113¾; do. fives, 1881, registered, 111⅞@112⅛; do. coupon 111⅞@112; do. four and one-halfs, 108⅜@108½.

Trade is nearly at a standstill, except where acilities for speculation exist, as in cotton, pork, ard, &c. These staples have been advancing, so have some descriptions of breadstuffs. Our harbor is much obstructed with ice, and many of our business streets nearly impassable from accumulations of snow; and these are great obstacles to the delivery of merchandize.

The following quotations of sales of Railway and other securities are in addition to those giver elsewhere in our columns:—

### Southern California Health Resorts.

The belt of country extending from Santa Barbara to San Diego, in Southern California, has been described as possessing unusual attractions as a sanitarium for invalids at all seasons, and particularly in winter, by reason of its equable, genial climate, dry air, exuberant vegetable and fruit products, and charming scenery. South of the bold promontory of the Sierra Nevada, which abuts upon the ocean, the California coast is semi-tropical, and exempt from the raw winds and fogs which, at times, trouble San Francisco, and frost and snow are almost unknown. Although hitherto accessible only by a sea voyage, the principal cities, Los Angeles, San Bernardino, Anaheim, San Diego, and Santa Barbara have been extensively visited, and have given rise to a number of superior hotels at each place. The extension of the Southern Pacific Railroad, some 600 miles southeast of San Francisco, has recently annexed this whole fertile and attractive region to the connected railroad system of the country, and now the most delicate invalid can ride in parlor and sleeping cars, by a few steps from one car to

another, continuously to the three former points Roads are in progress to the two latter, which are now reached by short stage or steamer rides. The expense and time consumed in the trip are but little more than that to Florida; and, of course, very much less than the trip to Cuba, or the Mediterranean, while it embraces many advantages, which none of them afford. The time from New York to Los Angeles is about 7½ days.

This is the centre of the great vineyards and orange plantations of California; both fruits being raised in wonderful variety and excellence. Oranges, lemons, figs, bananas, pomegranates, olives, and other fresh fruits, can be had in perfection, and strawberries and the like all the year round. Daily newspapers, telegraphs, modern conveniences in house structures, and all the accompaniments of American civilization, so necessary to convalescence, are also to be had almost the same as at the east. It is the prediction of many who have visited Southern California, Mr. Nordhoff among others, that Southern California will become the great natural health resort of this continent. The track of the Southern Pacific is already extended 150 miles eastward of Los Angeles, and is progressing toward Fort Yuma and the silver mines of Arizona and Sonora.

## The Coal Trade.

The total tonnage for the week ending on the 23d ultimo, as reported by all the companies, amounted to 173,890 tons, against 141,348 tons in corresponding week last year, an increase of 32,542 tons. The total amount of anthracite mined for the year is 18,265,631 tons, against 19,802,089 for same period last year, a decrease of 1,536,458 tons. The quantity of bituminous coal sent to market for the week was 50,721 tons, against 38,242 tons for corresponding week last year, an increase of 12,484 tons. The whole bituminous tonnage from the beginning of the coal year is 3,622,644 tons, against 3,872 126 tons in corresponding time last year, a decrease of 219,482 tons. The total tonnage of all kinds of coal for the week is 224,611 tons, against 179,590 to corresponding date last year, an increase of 45,021 tons, and the total tonnage for the coal year is 21,888,275 tons, against 23,574,215 tons to same date last year, a decrease of 1,785,940 tons Shipments from Port Richmond are virtually at an end. The receipts at Perth Amboy for the week ending on the 23d ultimo were 26,068 tons, the shipments 10,160 tons, leaving a stock on hand of 96,475 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week did not come to hand. The coal trade of the regions drained by this outlet is, however, swelling to very large proportions. The West Pennsylvania aggregates for the year a tonnage of 185,763, against 199,221 in 1875, and the South west Pennsylvania a tonnage of 152,758, against 32,717 in 1875. The coke business of the Pennsylvania Railroad shows an increase of 57,829 tons, which in the face of the depressed condition of the iron trade, is surprisingly large. The Pennsylvania Railroad has carried from the Pittsburg region 1,280,554 tons of bituminous, as against 398,339 last season in corresponding time, namely, to December 1.—*Phila. Ledger, Jan.* 1.

☞ An Agreement of Consolidation of the Baltimore, Pittsburg and Chicago Railway Company, Ohio Division, and of the Baltimore, Pittsburg and Chicago Railway Company, Indiana Division, under the name of the Baltimore and Ohio and Chicago Railway Company, was filed with the Secretary of State of Ohio on the 26th of December, 1876.

## Finances of Ohio.

According to the Message of the Governor of Ohio the local indebtedness of the State is now $36,059,987 56; the reimbursable debt, $6,484,503 30, and the irreducible debt, $4,207,716 90. The estimated receipts for the current year from all sources, including balance on hand, is $5,388,650, and disbursements, $5,416,720. The taxes levied in 1876 and collectable in 1877, aggregate $29,965,185. The taxable valuations in Ohio, as shown by the grand duplicate of 1876, is $1,597,469,966, which is a decrease from the grand duplicate of last year of $1,105,896.

The State debt has been reduced during the past year nearly $1,500,000, and the indebtedness of the counties, townships and school districts has been reduced over $300,000; but cities of the first and second class have increased their indebtedness more than $10,000,000.

## Statement of the Public Debt of the United States, January 1, 1877.

DEBT BEARING COIN INTEREST.

| | Amount Outstanding. | Accrued Interest. |
|---|---|---|
| 5 per cent. bonds, 1858 | $260,000 00 | $6,500 00 |
| 6 per cent. 1881 bonds, 1861 | 18,415,000 00 | 552,450 00 |
| 6 per cent. 1881 bonds, (Oregon,) 1861 | 945,000 00 | 28,350 00 |
| 6 per cent. 1881 bonds, 1861 | 189,321,350 00 | 5,679,640 50 |
| 6 per cent. 1881 bonds, 1863 | 75,000,000 00 | 2,250,000 00 |
| 5 per cent. 10-40 bonds, 1864 | 194,566,300 00 | 3,242,771 66 |
| 6 per cent. 5-20 bonds, 1865 | 110,459,800 00 | 1,104,598 00 |
| 6 per cent. consols, 1865 | 202,663,100 00 | 6,079,893 00 |
| 6 per cent. consols, 1867 | 310,622,750 00 | 9,318,682 50 |
| 6 per cent. consols, 1868 | 37,473,800 00 | 1,124,214 00 |
| 5 per cent. funded loan of 1881 | 517,494,150 00 | 4,312,451 25 |
| 4½ per ct. funded loan of 1891 | 33,600,000 00 | 126,000 00 |
| Aggregate of debt bearing coin interest | $1,690,821,250 00 | $33,825,550 91 |
| Interest due and unpaid | | 8,301,760 70 |

DEBT BEARING INTEREST IN LAWFUL MONEY.

| | | |
|---|---|---|
| 3 per cent. navy pension fund, 1868 | $14,000,000 00 | $210,000 00 |

DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

| | Amount Outstanding. | Interest due and unpaid. |
|---|---|---|
| 4 to 6 per cent. old debt, 1837 | $57,665 00 | $64,174 81 |
| 5 per cent. Mexican indemnity stock, 1846 | 1,104 91 | 85 74 |
| 6 per cent. bonds, 1847 | 1,250 00 | 22 00 |
| 6 per cent. bounty land scrip, 1847 | 3,400 00 | 216 55 |
| 5 per cent. Texas indemnity bonds, 1850 | 21,000 00 | 3,045 00 |
| 5 per cent bonds, of 1858 | 8,000 00 | ..... |
| 5 per cent. bonds, 1860 | 10,000 00 | 600 00 |
| 6 per cent. 5-20 bonds, called 1862 | 743,350 00 | 1,120 33 |
| 6 per cent. 5-20 bonds, called June, 1864 | 524,000 00 | 4,676 36 |
| 6 per cent. 5-20 bonds, called 1865 | 9,763,950 00 | 4,379 15 |
| 1-10 to 6 per cent. treasury notes, prior to 1846 | 82,575 35 | 2,670 76 |
| 1-10 to 6 per cent. treasury notes, 1846 | 6,000 00 | 206 00 |
| 6 per ct. treasury notes, 1847. | 950 00 | 57 00 |
| 3 to 6 per cent. treasury notes, 1857 | 1,900 00 | 105 00 |
| 6 per ct. treasury notes, 1861. | 3,050 00 | 366 00 |
| 7 3-10 per cent. 3 years' treasury notes, 1861 | 17,050 00 | 1,198 43 |
| 5 per cent. 1 year notes, 1863. | 58,585 00 | 2,943 35 |
| 5 per cent. 2 year notes, 1863. | 42,150 00 | 2,510 50 |
| 6 per cent. compound interest notes, 1863-64 | 311,920 00 | 62,714 27 |
| 7 3-10 per cent. 3 years' treasury notes, 1864-65 | 172,800 00 | 10,860 40 |
| 6 per cent. certificates of indebtedness, 1862-63 | 5,000 00 | 313 48 |
| 4 to 6 per cent. temporary loan, 1864 | 3,060 00 | 256 08 |
| 3 per cent. certificates called. | 5,000 00 | 394 31 |
| Aggregate of debt on which interest has ceased since maturity | $11,834,360 26 | $163,318 50 |

DEBT BEARING NO INTEREST.

| | | |
|---|---|---|
| Demand notes, 1861-62 | $65,662 50 | |
| Legal tender notes, 1862-63 | 366,955,084 00 | |
| Certificates of deposit | 31,000,000 00 | |
| Fractional currency, 1862-3-4 | 26,348,206 45 | |
| Coin certificates, 1863 | 47,280,000 00 | |
| Unclaimed interest | | 17,827 03 |
| Aggregate of debt bearing no interest | $470,748,752 95 | $17,827 03 |

RECAPITULATION.

| | Amount Outstanding. | Interest. |
|---|---|---|
| Debt bearing interest in coin, viz: | | |
| Bonds at 6 per cent | $944,900,800 00 | |
| Bonds at 5 per cent | 712,320,450 00 | |
| Bonds at 4½ per cent | 33,600,000 00 | |
| | $1,690,821,250 00 | $42,227,011 61 |
| Debt bearing interest in lawful money, viz: | | |
| Navy pension fund, 3 per cent. | 14,000,000 00 | 210,000 00 |
| Debt on which interest has ceased since maturity | 11,834,360 26 | 163,318 50 |
| Debt bearing no interest, viz: | | |
| Old Demand and legal-tender notes | $366,120,546 50 | |
| Certificates of deposit | 31,000,000 00 | |
| Fractional currency | 26,348,206 45 | |

| | $470,748,752 95 | |
| Unclaimed interest | | 17,827 03 |
| | $2,187,404,363 21 | $42,618,157 14 |
| Total debt, principal and interest, to date, including interest due and unpaid | | $2,229,922,520 35 |

AMOUNT IN TREASURY.

| | |
|---|---|
| Coin | $96,517,418 36 |
| Currency | 9,483,860 18 |
| Special deposit held for redemption of certificates of deposit as provided by law | 31,000,000 00 |
| | $137,001,278 54 |
| Debt, less amount in Treasury, Jan. 1, 1877 | $2,092,921,241 81 |
| Debt, less amount in Treasury, on the 1st ult. | 2,089,336,099 42 |
| Increase of debt during the past month | $3,585,142 39 |
| Decrease of debt since June 30, 1876 | 6,518,103 18 |

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

| | Amount Outstanding. | Accrued Interest not paid. |
|---|---|---|
| Central Pacific bonds, 1862-64 | $25,885,120 00 | $776,553 60 |
| Kansas Pacific bonds, 1862-64 | 6,303,000 00 | 189,090 00 |
| Union Pacific bonds, 1862-64 | 27,236,512 00 | 817,095 36 |
| Central Branch Union Pacific bonds, 1862-64 | 1,600,000 00 | 48,000 00 |
| Western Pacific bonds, 1862-4 | 1,970,560 00 | 59,116 80 |
| Sioux City and Pacific bonds, 1862-64 | 1,628,320 00 | 48,849 60 |
| Totals | $64,623,512 00 | $1,938,705 36 |

Interest paid by United States, $32,080,218 42; interest repaid by transportation of mails, &c., $7,004,507 46; balance of interest paid by United States, $25,075,710 96.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 30, 1876.

LOT M. MORRILL,
Secretary of the Treasury.

# FISK & HATCH,

## Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, on COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

☞ In order to secure funds to complete the railroad to its coal mines in the Shenandoah Valley, the Royal Land Co. of Virginia has mortgaged its property to the Fidelity Insurance, Trust, and Safe Deposit Co. of Philadelphia for $3,500,000.

### Cream City Railway.

This road is nearly complete to Bay View, making a total length of five miles. It will require about fifty more horses to run its cars. We would suggest that some of the other various methods be tried to propel the cars beside animal power. There is the compressed air method, and the super-heated steam, both of which have proven a successful motive power, and even dummy engines have been made, that run almost noiseless, and at a minimum expense as compared to horse or mule power. The Baldwin Locomotive Works have built several street car motive powers, and now have a number of orders for Philadelphia, Baltimore, and Richmond, Va., for just such cars as we ought to have running here. The cost at first is about one-third more, but the expense of keeping and running is only about one-half that of animal power, and the repairs are about two-thirds as much as renewing horses, etc.; on the whole a saving of about 30 per cent. Let this enterprising company be the first to dispense with animal power, and thus revolutionize the Street Railways of Milwaukee.—*Real Estate Jour.*

### Railroads of Texas.

Messrs. Forster, Ludlow & Co., Bankers, 7 Wall St., in their circular for January, say that the line of the Galveston, Harrisburg and San Antonio Railroad extends from Harrisburg to San Antonio, the principal city of West Texas, 220 miles, and from Marion to New Braunfels, 15 miles; that San Antonio will be reached by February; that the branch from Marion to New Braunfels is now under contract; and that the cash cost of the road so far is $8,168,000, against which the company will issue, when the road is completed, $4,200,000 in 6 per cent gold bonds, of which $1,743,000 have been sold in England and in this country, and then add:

Railroad building continues unabated in Texas. The capital of Texas is now reached by the International Railroad and a good business will be done direct with New York from there, as Austin is the supply point for many of the north and southwestern counties. Cotton, wool, hides, pecans, etc., etc., which seek tide-water at Galveston for shipment to New York, will go by the all rail route at lower freight and saving of expense in handling, besides arriving in better condition at destination.

The Harrisburg and San Antonio Railroad is supplying a long needed want, is doing a very brisk business, which will continue to increase.

The Tyler Tap, a narrow gauge, is now an assured fact, the iron and rolling stock having been bought for 25 miles of road. Under a liberal charter and efficient management, the road will soon be in a prosperous condition.

The Dallas and Wichita Railroad is again under contract; this road has had a very eventful career so far.

A new corporation for the purpose of constructing a road from Denison to Mineola, through Fannin, Hunt, Hopkins, Wood and Rains Counties has been chartered under the name of the Denison and Mineola Railroad Company, with $2,000,000 capital. Work will commence as soon as charter is recorded in the different counties.

The East Line and Red River Narrow Gauge Railroad runs from Jefferson, Texas, northwest to Greenville, thence west to Jacksboro, Jack County. Twenty miles are completed, equipped and operated, and the company has ample means to insure completion.

The Gulf, Colorado and Santa Fe Railroad has over 45 miles of road completed and in running order. The company is pushing the road towards Brenham, Washington County.

New roads are projected and old ones are extended, re-ironed and improved generally.

A vast amount of valuable information respecting Texas State, City, County, and Railroad securities is given in the circulars of this house, which investors would do well to consult. They may be obtained on application, as above.

### New York Canals.

From the Report of the Auditor of the Canal Department for the fiscal year ending September 30, 1876, we learn that the receipts from tolls during that time were $1,477,331 55; from rent of surplus water, $945; and from miscellaneous, $9,056 34 — making a total of $1,487,332 89. The cost of collection, ordinary repairs and other charges on revenues, amounted to $1,149,194 61 —leaving a surplus of $338,138 28. This surplus revenue has been appropriated and set apart, in accordance with the provisions of Article VII. of the Constitution, to the sinking fund under Section 3.

The financial condition of the canals for the fiscal year is as follows:

| | |
|---|---|
| Balance in the treasury, and invested October 1, 1875 | $3,887,906 03 |
| Received from all sources during the fiscal year ending Sept. 30, 1876. | 2,842,771 16 |
| Total | $6,730,667 19 |
| Paid during the same period | 2,896,584 06 |
| Leaving a balance Sept. 30, 1876, of | $3,834,093 18 |

Said balance is invested and deposited as follows:

| | |
|---|---|
| Amount deposited in banks | $3,780,294 18 |
| Amount invested in United States 10-40 bonds | 50,000 00 |
| Real estate, etc., Bank of Corning | 3,799 00 |
| Total | $3 834,093 18 |

CANAL DEBT PAYING INTEREST SEPT. 30, 1876.

| | Principal. | Annual interest. |
|---|---|---|
| Under Article 7, Section 3 of the Constitution | $3,186,000 00 | $551,160 00 |
| Under Article 7, Section 12 of the Constitution | 880,000 00 | 52,800 00 |
| Total | $10,066,000 00 | $603,960 00 |

DEBT AFTER BALANCES OF SINKING FUNDS HAVE BEEN APPLIED.

| | Total canal debt Sept. 30, 1876. | Balance of sinking fund Sept. 30, 1876, including temporary investment. | Balance of debt after applying sinking funds. |
|---|---|---|---|
| Under Article 7, Sec. 1, of the Constitution. | $6,160 | $58,347 76 | .... .... |
| Under Article 7, Sec. 3. | 9,195,500 | 941,591 73 | $8,253,908 27 |
| Under Article 7, Sec. 12. | 880,000 | 1,121,110 75 | .... .... |
| Total. | $10,081,660 | $2,121,050 24 | $8,253,908 27 |
| Deduct surplus in sinking funds for debts under Article 7, Sections 1 and 12 | | | 293,298 51 |
| Debt after applying all the sinking funds | | | $7,960,609 76 |

The unpaid and outstanding canal debt on Sept. 30, 1876, and for which certificates of stock have been issued, is $10,081,660. The rate of interest on this debt is 6 per cent.

The following statement shows the aggregate receipts and payments on account of the ordinary expenses of the canals for the last two years:

| | | |
|---|---|---|
| Receipts from tolls, etc. | $1,925,995 63 | $1,487,332 89 |
| Balance of appropriation for concreting the sixteen locks and retrunking upper and lower Mohawk aqueducts, reserved from revenues of 1875 | .... .... | 52,859 01 |
| Total | $1,925,995 63 | $1,540,191 90 |
| Total expenses for the year | $1,467,315 95 | $1,202,053 62 |
| Net receipts | 458,679 68 | 338,138 28 |

This statement shows a falling off in the toll receipts of the last fiscal year, as compared with those of 1875, of $438,662 74; a decrease in payments of $265,262 33, and a loss in net receipts of $120,541 40.

In order to have met all the constitutional obligations resting on the canals, the surplus revenues, for the year ending 30th Sept., 1876, should have been sufficient to have made the following contributions or payments, to wit:

| | |
|---|---|
| To pay the interest in coin on the canal debt under article 7, sec. 3. | $617,088 20 |
| To pay the sinking fund for the redemption of the principal of the debt under article 7, section 8 | 450,000 00 |
| To pay the General Fund for the support of Government, in pursuance of article 7, section 3 | 200,000 00 |
| Net revenue required | $1,267,088 20 |
| Net revenue earned | 338,138 28 |
| Actual deficiency for year ending 30th Sept., 1876 | $928,949 92 |

A table is given in which the profit and loss in operating the several canals are shown separately and in the aggregate.

| | |
|---|---|
| The profitable canals earned | $509,478 06 |
| The non-paying canals lost | 171,339 78 |
| The amount paid on account of each and all the canals from proceeds of taxes, for extraordinary repairs and improvements, for awards made by the Canal Appraisers and Canal Board, and the interest thereon, was | 510,650 18 |
| The total payments on account of all the canals from their revenues and proceeds of taxes, was | $1,712,703 80 |
| The total income from tolls and other sources other than taxes, was | 1,540,191 90 |
| Total payments in excess of income. | $172,511 90 |

The income of each canal in excess of total disbursements, or the disbursements in excess of income, as the case may be, is also shown.

Separating the constitutional canals from those which may be sold, leased, or otherwise disposed of as provided in Section 6 of the Constitution as amended, we glean the following results in operating them for the last fiscal year:

| | Receipts. | Cost of collection and ord'ry repairs. |
|---|---|---|
| Erie | $1,372,563 94 | $863,610 80 |
| Champlain | 94,944 55 | 178,612 06 |
| Oswego | 29,048 85 | 56,223 52 |
| Cayuga and Seneca | 11,083 99 | 25,396 33 |
| Total | $1,507,640 88 | $1,123,842 71 |

The Erie Canal produced a surplus of revenue over expenses amounting to $508,955 14. The other canals show deficiencies amounting in the aggregate to $125,155 02. Deducting the deficiency from the surplus, leaves the net profit of operating $383,798 12.

### The Urbana Hoist.

The building of a house with the necessary machinery for transferring cars from the Atlantic and Great Western to the Pan-Handle railroad track, or vice versa, was completed last week, a short distance northeast of the railroad crossing of North Main street.

A twelve horse steam engine is used, operating (through a belt pulley, and a system of main shaft, tranverse shafts, and counter shafts,) six immense screws, about nine inches in diameter. The power is transmitted from shaft to shaft, and from shaft to screw, by bevel cog pinions. The six screws stand upright and turn in sockets and bearings, lifting or lowering by counter threads, the two great frames which sustain the weight of the cars. These frames stand on opposite sides of the tracks, and each is supplied with four movable iron bars, worked to and from the track rail. These bars are large and capable of sustaining great weight, for on them the car weight falls. The frames are strongly braced by iron loops with rollers, strung over foot-square uprights, so that they rise and fall with scarcely a tremble. They are of sufficient length to cover the sides of two broad gauge cars.

The cars (say two) to be transferred are run in between the frames, on the railroad track, which is supplied with two sets of rails; one 4:10½ and one of 6 feet gauge. A chuck stops them at the proper place, and the movable bars, or arms, are pushed out from the frames until they reach under the bodies of the cars. The engine starts and the heavy screws revolve carrying the frames upward and with them the cars, until they have cleared the trucks. The trucks are then run out on a switch and the trucks of proper gauge are run in; the engine reverses and the frames with the cars gradually settle down, the king bolt drives the centre of the new set of trucks, and the transfer is made. There is a turn table at either end of the building, to be used in case the brake trucks have to be reversed, and to facilitate switching of the trucks.

The Urbana Hoist was designed and built by Mr. ALEX. MILLER, Civil Engineer, of Meadville, Pa., who has been two months steadily employed in superintending the work. His drafts have been used in all the Hoists erected, and the machinery is manufactured from his patterns and under his directions.

Mr. G. T. NUTTER, of Jersey City, is the patentee of this system of transferring cars without breakage, his office being at 347 Broadway, N. Y. He has been in Urbana for some weeks, and will retain a one-third interest in the Urbana Hoist, the balance being owned by the Erie and Pacific Dispatch Company.

This new enterprise gives Urbana an additional advertisement. In a few months we will see freight cars in every part of the United States with "URBANA HOIST" painted on them in prominent letters. It is also an additional evidence of the increased bulk of railroad business transacted here, and of the expectation of the men engaged in railroad business.

The machinery in operation here can be adapted to transferring passenger coaches as well as freight cars, and it may some day be put to that use.—*Urbana Gazette, Dec.* 21.

---

ILLINOIS CENTRAL RAILROAD COMPANY,
NEW YORK, Dec. 20, 1876.

A DIVIDEND OF TWO (2) PER CENT HAS been declared by this Company, payable on the first day of February next to the holders of the capital stock of this Company as registered at the close of the 13th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

# THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

## ELECTRIC BATTERY.

**Price Only $6.**

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

## ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

### The Settlement with the Pacific Railroads.

The accounts of the Treasury with the Pacific Railroad Companies in the matter of reimbursing to the Government the sums it has paid out as interest on the subsidy bonds issued to aid the construction of the first highway to the Pacific, and of a Sinking Fund wherewith to meet the principal when it becomes due between the years 1895 and 1900, were made the subject of some discussion during last winter's session of Congress; but nothing conclusive was done, and the subject comes up again this session. Judging from the reports of the several committees which have touched the subject, the members had not the time to give the matter an exhaustive examination—even if the party excitement at the time had left any disposition to do so—and one of them, apparently in order to be rid of its further consideration and at the same time make a show of concern for the Treasury, adopted a report simply requiring the several companies to pay into the Treasury whatever sums the Secretary of the Treasury might see fit to fix, semi-annually, and authorizing the officers to be fined or imprisoned in case of failure or refusal. Of course, there is no law for such an arbitrary proceeding, and the committee probably knew it; but it was a hasty attempt to make law, which the companies would have to ask the Supreme Court to undo, as plainly hostile to the Constitution.

It is well known that, with the exception of one-half the current earnings from government transportation, and five per cent of the net earnings of the roads after completion, the law under which the companies built the road in order to give the nation its use, allowed them thirty years in which to meet any balance which might have accrued against them. This has been judicially determined as the true intent and meaning of the contract. The attempt to compel the companies to pay this balance, or any part of it, with the exceptions from the earnings above noted, is, therefore, an attempt to override the decisions of the highest courts—courts selected by the government for the determination of the rights of the parties—and to repudiate obligations assumed under peculiarly impressive circumstances.

It is true this is done under a pretense of authority, by setting up the claim that Congress has reserved the right to change the terms of the contract in this case, and make it more onerous upon the companies. The original act provided for its own amendment, alteration or repeal (and it would have been all the same if the words had been absent) in certain contingencies, among which were: the failure to complete the road through, neglect to keep it in running order and proper repair, or refusal to carry the mails, troops, etc., when duly required to do so—none of which contingencies have come to pass, or are expected; and beside the clause contains the words (which equally might have been omitted): "with due regard to the rights of said companies."

The railroad companies contend that this whole section relating to amendment or alteration was inserted in view of a possible break down of the enterprise, and was thus necessary in order to deliver over the task to other parties free from incumbering claims; and that it has no reference to the repayment of moneys to be paid out of the Treasury. This explanation seems reasonable enough, when it is remembered that a failure to complete was at the time deemed by most persons as likely to ensue, rather than not, and the fact that referring to the matter of repayments elsewhere the Act does not provide for any penalty or recourse to its mortgage security, in case the roads are completed, until after the bonds have become due and have been paid out of the Treasury. In fact, it seems to have been the expectation of the framers of the Act that the interest of the Subsidy bonds would be met by the amounts earned by the carriage of mails, etc., as the annual disbursement, for government for military and postal transportation prior to 1862 had been more than double the contemplated interest outlay on the Pacific Railroad bonds. The contribution of five per cent from the net earnings of the companies would seem also to have been intended to form a series of repayments toward a Sinking Fund which should bear interest and be allowed to accumulate against the principal of the bonds, though this is not expressly stated but is left in doubt. Some of the Members of Congress now seek to establish a Sinking Fund, and to require not five per cent, but nearer fifty per cent of the net earnings of the solvent companies—the Union and Central Pacific—and vastly more than the entire net earnings of some of the minor branch companies.

It may be noted in this connection that it would be manifestly impossible for some of the companies to comply with any fresh demands, as they are already insolvent and unable to

meet the interest on their First Mortgage bonds. The withholding of $500,000 now due the Kansas Pacific Company, together with the demand for a percentage of its earnings after deducting the operating expenses, but without deducting interest on bonded debt and sinking fund requirements, are given as causes which have precipitated the insolvency. It needs no labored argument to show that any policy designed to pay off the Second Mortgage of the Government before it is due, and which leads to a default on the prior mortgages, thus jeopardizing the whole of the Government claim, and exposing it to loss, must be wrong in principle, besides being contrary to the tenor of the act which expressly waived the lien of the Government in favor of that held by private investors. It is conceivable even that the attempt to exact these additional sums might leave the companies with no alternative but to allow their roads to drift into bad repair, or to throw the burden of their operation on the Government, which certainly was not the intention of the charters.

The two principal companies do not oppose the creation of a Sinking Fund; though of course they deny any obligation in the matter beyond the annual contribution of 5 per centum of the net profits. They profess their willingness to pay into such a Fund, semi-annually, such a sum as will with its accumulations liquidate the entire debt principal and interest within reasonable time—say an extension of ten years from the date of the last maturing bonds, which in consideration of being called upon to pay a portion of it twenty years before maturity does not appear to be an unreasonable offer. Or, if the Government is not satisfied that its claim is properly secured by its present lien on the property, they will transfer back the lands granted on each side of their roads, from sales of which the Government can indemnify itself. But in either case, they want it understood that this is a mutual compact and a final and conclusive settlement of the points now in dispute. Their right to the use of these loaned bonds for thirty years, under the present contract is undeniable. This right is valuable; it is property, and cannot be taken from them "for public use, without just compensation;" nor can they be deprived of their earnings "without due process of law." If, therefore, they consent to surrender this right it is but fair to exempt them from their present complicated and annoying exactions. Manifestly the companies cannot be expected to maintain a continual struggle against a powerful Government in the courts, which exhausts their revenues in defending their rights, and then be called on to give up both the money they have so spent and the rights besides. It is quite certain the money to build the roads could never have been obtained if any such pretensions as are now put forward by the Government had been made during the period of construction. They do not stand merely on the technicalities of their contract; and they put forth the following equitable considerations in arriving at a new covenant: Their bargain, they contend, is onerous enough at best. The bonds they contracted in 1862 to receive from the Government were worth their face in gold; the bonds they actually received between 1864 and 1870 were worth less than 70 cents, in gold. They are now liable to have to pay them in money worth nearly or quite gold value. The Government was an immense gainer by having the use of the road seven years before the allotted time; while the companies were burdened with huge debts incurred to finish it as speedily as possible.

The understanding was, at the start, that the roads were to have all the Government transportation to the Pacific coast; a large part of it is withheld and sent by the Isthmus at a cash outlay to the Treasury, instead of being sent by rail when the freight would run against the Government loans. It was specified in the Act that carriage should be "at reasonable rates, not to exceed the compensation paid by private parties for the same kind of service," whereas, in fact, the mails are transported at such rates as the Government chooses to allow—rates very much less than the service is honestly worth, or than the Express Companies pay for similar service. The bulk of the freights is taken at rates reduced so low, by the stress of competition with water routes, as to be unremunerative. In these and other ways the national Treasury is in reality getting an immense benefit every year from the use and presence of the railroad, which it could not have derived without the road, but which nevertheless do not appear as credits on the Treasury books. In short, the companies are prepared to show that the Government has made a gainful bargain with them from which it is deriving the greatest benefits; that, on the other hand, it was the expectation that the stock and bondholders should have at least fair returns for the roads from the risks they undertook, for the years of patient toil, and for their continued management of these vast enterprises. The people so understood the contract, and are content to abide by it, as part of the collective good faith of the nation; but these later attempts in Congress deny them all recompense and break the faith of the country to no good purpose.

### National Railroad Legislation.

A member of the House of Representatives has made the recent Ashtabula disaster the occasion for introducing into the House an order directing the Railroad Committee to report the expediency of creating a National Board of Engineers for the purpose of supervising inter-State railroads. The theory conflicts somewhat with the idea of the exclusive right of States to manage local corporations; but it has been demonstrated that it is very difficult, if not quite impossible, for the authorities of States through which a railroad extends to enforce their demands promptly. Besides, these through lines are, in effect, the highways of the nation and the people of nearly all the States are interested in them, as the list of casualties of the Lake Shore catastrophe indicates. The investigation into the cause of such accidents is one of national importance. The present one involves the important question of the capacity of iron bridges to meet all the requirements of time and climate; and this is not a matter which should be intrusted to the jury of a local coroner.—*Boston Journal.*

### Naugatuck Railroad.

The receipts from operations of this road for the years ending September 30, 1875 and 1876, were:

| | 1875. | 1876. |
|---|---|---|

The balance of outstanding mortgage bonds amounting to $99,000, have been paid and canceled during the fiscal year, and the company is free of all incumbrance.

The construction and equipment account has not been increased, and the only additional charge to permanent expenditure account has been the sum of $200 for real estate purchased; all other outlays being charged into current expenses.

The lease of the Watertown and Waterbury Railroad by this company, has expired by its own limitation, and that road is now operated for its own account, this company furnishing equipment,

materials and labor therefor, on ordinary and reasonable terms.

The train service has been, by

| | |
|---|---|
| Passenger trains | 85,046 miles. |
| Freight trains | 134,410 " |
| Road service | 28,976 " |
| Total mileage | 248,432 " |

Of the above mileage of trains, 10,529 miles were performed on the Watertown and Waterbury Railroad, for account of that company.

CONDENSED BALANCE SHEET, Sept. 30, 1876.

| | | |
|---|---|---|
| Construction and equipment | | $2,056,851 77 |
| Due from stations | $35,815 15 | |
| Due from General Post Office Department | 1,938 38 | |

The office of the company is at Bridgeport, Conn. The officers are:

*President.*—E. F. BISHOP.

*Directors.*—W. D. Bishop, R. Tomlinson, E. F. Bishop, J. G. Wetmore, A. L. Dennis, H. Bronson, J. B. Robertson, R. M. Bassett, F. J. Kingsbury.

*Secretary & Treasurer.*—HORACE NICHOLS.

*Superintendent.*—GEO. W. BEACH.

*Auditor.*—SAMUEL WILMOT.

### Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of the Cleveland and Pittsburg Railroad Company, held in Cleveland on the 3d inst., the following directors were elected: J. N. McCullough and B. F. Jones, of Pittsburg; Thomas A. Scott, of Philadelphia; August Belmont, S. J. Tilden, Charles Lanier, George W. Cass and Francis T. Walker, of New York; R. R. Springer, of Cincinnati; J. V. Painter, James F. Clark, and R. P. Ranney, of Cleveland. President McCullough submitted the following report:

During the year ending November 30, 1876, the receipts, aside from the guaranteed income, were $13,098 12, and the amount expended from the same, $902 54.

| | |
|---|---|
| The receipts for account rental interest, sinking fund, etc., were | $1,198,509 46 |
| Expenditures: | |
| Dividends | $786,833 25 |
| Interest on funded debt | 343,135 00 |
| Sinking funds | 58,454 68 |
| Maintaining of organization | 9,431 00 |
| | 1,197,853 93 |
| Balance | $655 53 |

No bonds were issued during the year, but a consolidated mortgage bond for $1,000 and construction and equipment bonds to the amount of $6,000 were retired to the sinking fund. Of this description of bonds $14,000 were allotted and called in last January, interest on which ceased on July 1. Of these only the $6,000 have been presented for payment.

The business of the lessee upon the property for the year 1875-'6 was as follows:

RECEIPTS.

| | |
|---|---|
| Gross earnings | $2,629,037 15 |
| P., Ft. W. & C. Ry. consolidated earnings | 75,764 37 |
| Other sources | 11,200 00 |
| Total | $2,716,001 52 |

EXPENDITURES.

| | |
|---|---|
| Operating expenses | $1,385,410 50 |
| Improvements to the property | 16,728 12 |
| Rental, interest, etc. | 1,302,111 81 |
| Total | $2,704,215 43 |

Leaving a surplus of $11,756 09.

About 5,000 tons of steel rail have been laid in the past two years.

### Philadelphia, Wilmington and Baltimore Railroad.

The annual meeting of the Philadelphia, Wilmington and Baltimore Railroad Company, was held in Wilmington, Del., on the 8th inst., at which the thirty-ninth annual report was presented and read. It shows the total earnings of the company, including those of the Philadelphia, Wilmington and Baltimore, Newcastle and Wilmington, and Newcastle and Frenchtown Railroads, to have been $3,458,186 19, an increase over the earning of 1875 of $409,965 11, or about 13⅛ per cent. The operating expenses, including State and local taxes, were $1,834,882 22, an increase over those of 1875 of $29,014 73, or about 1.6 per cent.

The net earnings, after deducting operating expenses, interest, ground rents, etc., are $1,606,019 97. After paying two dividends of 4 per cent each, subscription of $30,000 to the Centennial stock, cost of additional equipment, buildings, fences, etc., and other expenses, there was left a surplus of $256,774 27, of which $250,000 was placed to credit of renewal fund and $6,774 27 to credit of revenue account, making the amount to credit of that account Oct. 31st, 1876, $545,382 50.

The passenger receipts of the Philadelphia, Wilmington and Baltimore Railroad alone were in excess of those of 1875 by $608,900 07, or about 35,7 per cent, while the passenger receipts of the Newcastle and Wilmington and the Newcastle and Frenchtown Railroads exceeded those of 1875 by only $4,364 96, or about 7¼ per cent. The receipts from freight traffic, as compared with those of 1875, in both cases including the receipts from same traffic upon the New Castle and Wilmington and New Castle and Frenchtown Railroads show a decrease of $186,261 77, or about 15¾ per cent, and those of the Philadelphia, Wilmington and Baltimore Railroad alone show a decrease of $136,194 47, or about 13 per cent.

The increase in passenger receipts is attributable to the Centennial Exhibition, without which there would probably have been a decrease in passenger traffic as compared with 1875. For the half-year ending 30th April the passenger receipts of 1876 were less than those of 1875 by $53,721 75, or about 6¼ per cent.

The decrease in freight receipts was due partly to a reduction of rates, and partly to a large diminution of the fruit traffic of the peninsula as compared with that of 1875.

The report closes by stating that the directors think that the year past has, on the whole, been a successful one. In consequence of the assiduous labors and skillful management of Superintendent Kenney and his subordinates, the unusually large business thrown upon the road, as a consequence of the Centennial Exhibition, was safely and most successfully handled. The company is left at the close of the year with its property generally in good condition, with an equipment considerably in excess of its probable wants for a year or more to come, with but a small portion of the road still laid with iron rails, and the large expenditure necessary for the completion of the Susquehanna Bridge, and similar work, provided for in advance.

An election of officers was then held, resulting as follows:

President—Isaac Hinckley, Philadelphia.

Vice President—Enoch Pratt, Baltimore.

Directors—Samuel M. Felton, Thurlow, Pa.; Wm. Sellers, Isaac Hinckley, Philadelphia; Joseph Bringhurst, Samuel Harlan, Jr., Charles Warner, Wilmington, Del.; Thomas Kelso, Enoch Pratt, Thos. Donoldson, Samuel M. Shoemaker, Baltimore, Md.; Jacob Tome, Port Deposit, Md; Nathaniel Thayer, Wm. Minot, Charles P. Bowditch, Robt. H. Stevenson, Boston, Mass.

Secretary and Treasurer—Alfred Horner, Philadelphia.

Assistant Treasurer—Robert Craven, Philadelphia.

### Michigan Central Railroad.

The statement of the Michigan Central Railroad Company, for six months ending November 30, 1876, is as follows:

| | | |
|---|---|---|
| Gross earnings | | $3,324,285 78 |
| Expenses and taxes | $2,335,705 51 | |
| Interest | 817,915 00 | |
| | | 3,153,620 51 |
| Net earnings | | $170,665 27 |
| Income from other sources | | 137,276 03 |
| Total | | $307,941 30 |
| Floating debt: | | |
| June 1, 1876 | | $728,510 25 |
| December 1, 1876 | | 342,150 88 |
| Reduction | | $386,359 37 |

The floating debt January 8, 1877, including all liabilities, was $342,150 88, of which sum $226,000 was for steel rails.

| Bonded debt: | June 1. | Dec. 1. |
|---|---|---|
| Main and Air line | $12,518,000 | $12,518,000 |
| Leased lines | 7,087,000 | 7,005,000 |
| Total's | $19,605,000 | $19,523,000 |

—showing a reduction in bonded debt of $82,000 during the half-year, and a corresponding decrease of interest payments from this date. The reduction is in bonds of the Jackson, Lansing and Saginaw Company, which are canceled as they are purchased with proceeds of land sales, in pursuance of the modified agreement with that company.

### Testing Railroad Bridges.

The engineers of the Erie Railway are out on the road making a thorough examination of all the bridges, of which there is a large number, in order to discover if there are any defects that might cause an accident. The authorities of the New York Central and Hudson River Railroad have also issued orders for testing and examining every bridge on the line between New York and Buffalo. Nearly all the bridges are made of iron the wooden ones having been generally abandoned after the New Hamburg disaster five years ago. The principal wooden bridge is about a mile above Peekskill.

### Montpelier and Wells River Railroad.

At a meeting of the old board of directors of the Montpelier and Wells River Railroad Company, held at Montpelier, Vt., on the 2d inst., a by-law was passed reducing the number of directors from nine to five, and the following gentlemen were elected: I. N. Hall of Groton, S. C. Shurtleff, Joel Foster, Jr., of Montpelier, G. P. Fessenden of Wells River and D. R. Sortwell of East Cambridge, Mass. Organization was perfected by electing I. N. Hall President, D. R. Sortwell Vice President, Joel Foster, Jr., Clerk and Treasurer. The road was formally passed over to the bondholders, who organized under the name of the Montpelier and Wells River Railroad Company. The road is reported to have earned seventy-five thousand dollars in the past eight months.

### Erie Railway.

REPORT OF CHIEF ENGINEER.

OFFICE OF CHIEF ENGINEER,
NEW YORK, DECEMBER 11, 1876.

H. J. JEWETT, ESQ.,
*President and Receiver Erie Railway.*

SIR:—I have at your request, prepared the following statement and estimate of cost of the improvements which seem most desirable for the Erie Railway:

NARROWING GAUGE.

The third rail is now complete from Waverly to Buffalo. The estimated cost was $1,042,662, and the actual cost has been $1,060,032 18.

By extending this third rail from Waverly to Jersey City, a distance of 255 miles, a continuous connection of standard gauge will be established with Buffalo, and with all the railroads (except the Atlantic and Great Western R. R.) on which the foreign business of the Erie Railway originates; so that the cars of four feet eight and a half inches gauge can come through to New York without transferring of loads or car bodies.

As the road is double tracked part of the way, this third rail would be required on 467 miles of main track, and 113 miles of side track, and if laid with steel, is estimated to cost $2,100 096.

This done, the existing broad gauge rolling stock can be gradually changed by rebuilding the locomotives and cars for standard gauge, as they require renewal.

STEEL RAILS.

The road and branches worked by the Erie comprise 956 miles of railway.

On these the aggregate of main tracks and sidings amounts to 1,616 miles, of which 341 miles are laid in steel, and 1,275 miles in iron. On a portion of the latter, being upon branches and upon sidings where the traffic is not very heavy, steel may be deferred.

It is estimated that steel should be substituted for iron on 660 miles of main track, and that the cost of doing so, allowing for the value of the old rails taken up, will be $1,320,000.

DOUBLE TRACK.

Three hundred and five miles of the line consist of double track, and 651 miles are single. Of these, the portions where the existing traffic is most cramped for want of additional tracks, are the remainder of the main line between Jersey City and Buffalo, 182¼ miles; from Hornellsville to Tiptop summit, 12¼ miles, and from Olean to Salamanca, 18 miles, on the Western Division; from Hawley to Lackawaxen, on the Hawley branch, 16 miles, and from Greycourt to Newburgh, on the Newburgh branch, 18 miles (to accommodate the coal business); as well as between Hampton and Jersey City on the Eastern Division, where the pressure of the traffic is now too great to be economically accommodated by the existing two tracks. It is proposed to relieve this portion of the line by a series of loop lines, which will avoid, without material increase of distance, some very objectionable gradients upon the existing line. The whole of these additional tracks, together with passing tracks upon which freight trains may be overtaken and passed by passenger trains proceeding in the same direction, are estimated to cost $4,235,060, as shown in detail on the estimate herewith.

ENGINE HOUSE AND SHOPS.

From fifty to ninety locomotives stand out in the weather every night, for want of adequate engine-house room, and the cost of repairs of locomotives and cars is materially enhanced by the lack of efficient shops and tools. It is estimated that it will cost $295,000 for engine houses, and $1,350,000 for shops and tools, in order to secure these requirements for the protection and proper preservation of the Engines and Equipment of the Company.

STATIONS AND SIDINGS.

Many of the sidings, and stations where trains are sorted and made up, are not only inadequate in extent, but having grown up piecemeal, they are ill-arranged for economical working. They should be remodeled and extended.

A number of the passenger stations are also in need of renewal, to replace those which have been either burned or worn out, or which no longer afford the necessary accommodation to the public. The most expensive of these will be at the principal terminal points, Jersey City and Buffalo. It is estimated that a total of $1,277,000 should be expended in this class of improvements.

BRIDGES.

There are 178 wooden bridges on the line, and only 58 of iron. A number of the former are nearly worn out, and all considerations of economical future maintenance, and of avoidance of interruptions to the traffic, point to iron as the suitable material for their renewal. The cost is estimated at $850,000.

I have also estimated that $65,000 would be required to line a portion of, and ventilate Bergen tunnel, and $50,000 for additional transfer floats at New York.

TERMINAL FACILITIES AT NEW YORK.

In consequence of the rivalry between the railroads, the practice has grown up to deliver goods without extra charge all over New York harbor. Much of this could be avoided, and the expense of extra handling and carting saved to the consignees, by providing storage warehouses at the Jersey City terminus, where the goods could remain until resold to the consumers or exporters. An elevator and store to hold 1,000,000 bushels of grain is estimated to cost $550,000, and a set of warehouses for merchandise are estimated at $950,000. It is believed they would prove profitable in themselves, in addition to the saving in expense they would produce for the railway.

ROLLING STOCK.

If the above improvements be carried out, additional engines and cars will be required to accommodate the increased traffic consequent upon the change of gauge, as well as to furnish equipment of standard gauge. I estimate that 2 000 new freight cars and 100 locomotives would be required, and I recommend that a portion of the latter should be of the "consolidation" type, for freight. These engines are nearly twice as powerful as the ordinary standard locomotives, while the weight per wheel is about the same, and the destructive effect on the track not much greater. They have proved satisfactory on roads on which they have been introduced, and their use would bring about a notable economy in the cost per freight car mile.

The following estimate shows the cost of the various improvements above mentioned. It is a compendium of those furnished to you last summer, and agrees with them in total amount, except that the cost of the third rail from West Junction to Buffalo, estimated at $1,042 662 (but now completed at the actual cost of $1,060,032 18), has been left out, and that I have added $2 200,000 for cost of additional rolling stock, which was omitted from the former estimates furnished by the Engineer department, although they were, I believe, included in those from the operating department.

ESTIMATED COST IMPROVING ERIE RAILWAY.

| | | |
|---|---|---|
| Extending third rail, Waverly to Jersey City | | $2,100,096 |
| Substituting steel for iron, 660 miles | | 1,320,000 |
| Completing second track, Delaware Division, 43 miles | $470,000 | |
| Completing second track, Susquehanna Division, 21¼ miles | 233,000 | |
| Completing second track, Buffalo Division, 52 miles. | 885,000 | |
| Completing second track, Part Hawley Branch, 16 miles | 400,000 | |
| Passing tracks for freight trains | 175,000 | |
| Third and fourth tracks Jersey City to Rutherford | 180 000 | |
| Loop line, Rutherford to Ridgewood | 256,000 | |
| Loop line, Monroe to Hampton | 1,001,000 | |
| Second track, Greycourt to Newburgh | 360,000 | |
| Second track, Hornellsville to Tiptop | 275,000 | |
| Second track, Olean to Salamanca | 300,000 | |
| | | 4,535,000 |
| Engine houses at sundry points | $295,000 | |
| New machine shops and tools at sundry points | 1,350,000 | |
| | | 1,645,000 |
| | | $9,600,096 |
| Remodeling station and sidings, Jersey City | $32,600 | |
| Remodeling stations and sidings, Buffalo | 60,000 | |
| Remodeling stations on line of road | 400,000 | |
| New passenger station, Jersey City | 254,000 | |
| New passenger station, Buffalo | 51,000 | |
| New passenger stations on line of road | 480,000 | |
| | | 1,277,000 |
| Rebuilding wooden bridges with iron. | | 850,000 |
| Lining and ventilating Bergen tunnel. | | 65,000 |
| Additional transfer floats, New York | | 50,000 |
| Elevator for Grain (1,000,000 bushels), Jersey City | | 550,000 |
| Warehouses for merchandise, Jersey City | | 950,000 |
| | | $13,342,096 |
| 100 new locomotives at $11,000 | $1,100,000 | |
| 2000 new freight cars at 550 | 1,100,000 | |
| | | 2,200,000 |
| Total | | $15,542,096 |

Respectfully submitted,
O. CHANUTE,
Chief Engineer.

### West Chester and Philadelphia Railroad.

The gross earnings of this road for the fiscal year ending October 31, 1876, as stated in the report of the Superintendent which was presented at the annual meeting of the stockholders held in Philadelphia on the 8th inst., were $369,544 90, of which $246,088 92 was from passenger fares, $111,642 88 from freight receipts, and $11,813 10 from other sources. The expenses were $201,575 67, and the net earnings $167,969 23. This shows an increase in earnings, compared with the previous year, of $22,085 65, in expenses of $18,110 15, and in net earnings of $3,975 50. The

total outlay, including construction and equipment, was $225,892 72; an increase of $6,724 37 over the previous year. The total number of passengers carried between Philadelphia and the various stations was 712,190, an increase of 24,813 over 1875. The increase in passenger fares amounted to $19,864 73.

The following officers were elected for the ensuing year: President, Edward Hoopes; Managers, M. Baird, J. Edward Farnum, William H Miller, Albert C. Roberts, Samuel Riddle, George Callaghan, Charles Fairlamb, Lorenzo Beck, Samuel J. Sharpless; Treasurer, Thomas H. Hall; Secretary, A. Lewis Smith; Superintendent, Henry K. Smith; Auditor, A. D. Sharples.

## Finances of Pennsylvania.

EXTRACTS FROM THE MESSAGE OF THE GOVERNOR.

Receipts during fiscal year ending November 29, 1876:

| | | |
|---|---|---|
| Balance in Treasury Nov. 30, 1875. | | $993,207 27 |
| Receipts | | 6,078,890 37 |
| | | $7,072,097 64 |
| Disbursements: | | |
| Ordinary expenses | $4,505,513 82 | |
| Loans redeemed | 254,187 05 | |
| Interest on loans | 1,327,399 15 | |
| | | 6,087,100 02 |
| Balance in Treasury Nov. 29, 1876. | | $984,997 62 |

PUBLIC DEBT.

Funded debt:

| | |
|---|---|
| Overdue not presented for payment, and upon which interest is stopped | $85,921 58 |
| 5 per ct. gold loan, payable Aug., 1877 | 3,245,500 00 |
| 5 per ct. gold loan, payable Aug., 1878 | 273,000 00 |
| 6 per ct. gold loan, payable Aug., 1879 | 400,000 00 |
| 5 per ct. gold loan, payable Aug., 1882 | 395,000 00 |
| 4½ per ct. gold loan, payable Aug., 1882 | 87,000 00 |
| 6 per ct. currency redeemable Feb., 1877, and payable within five years | 7,882,800 00 |
| 6 per ct. currency, redeemable Feb., 1882, and payable within ten years | 9,995,800 00 |
| 6 per ct. currency, Agricultural College loan, payable 1922 | 500,000 00 |
| | $22,865,021 58 |

Unfunded debt:

| Allegheny Valley R. R. bonds | 3,300,000 00 | |
| Cash balance in Sinking Fund | 839,992 22 | |
| | | 9,054,910 92 |
| Indebtedness unprovided for | | $13,924,039 77 |

SINKING FUND.

Receipts for fiscal year ending Nov. 30, 1876:

| | | |
|---|---|---|
| Balance in Fund Nov. 30, 1875. | | $934,028 49 |
| One third tax on corporation stock. | | 716,070 79 |
| Allegheny Valley R. R. Co., interest on bonds | | 252,500 00 |
| Allegheny Valley R. R. bonds redeemed | | 100,000 00 |
| Pennsylvania R. R., commutation tax | | 460,000 00 |
| | | $2,462,599 28 |
| Payments: | | |
| 5 per cent redeemed | $58,100 00 | |
| 6 per cent redeemed | 196,685 60 | |
| Relief notes | 2 00 | |
| Total amount of loans redeemed | 254,187 05 | |
| Premium of gold for payment of interest | 28,432 96 | |
| Premium paid in purchase of loan | 12,331 24 | |
| Brokerage | 256 63 | |
| Interest paid | 1,327,399 15 | |
| | | 1,622,607 03 |
| Balance in Fund Nov. 29, 1876. | | $839,992 25 |
| Coupon account | | 4,754 09 |

Estimated Sinking Fund receipts and payments for fiscal year ending November, 30, 1877:

| | | |
|---|---|---|
| Two-thirds tax on corporation stock | | $1,300,000 00 |
| Commutation of tonnage tax | | 460,000 00 |
| Allegheny Valley R. R. bond | | 100,000 00 |
| Interest on Allegheny Valley R. R. bonds | | 162,500 00 |
| Estimated total receipts | | $2,867,246 25 |
| Estimated interest on public debt | $1,350,000 00 | |
| Coupon account 1876. | 4,754 00 | |
| | | 1,354,754 00 |
| Applicable for redemption of public debt | | $1,512,492 25 |

Notice has been given by the Sinking Fund Commissioners from time to time, as the loans of the Commonwealth became payable, that if not presented within ninety days the interest thereon would cease. Of these over-due loans there are still outstanding $85,921 58, which will be paid at the Treasury, without interest, whenever presented. No loans being payable in 1876, it became the duty of the Sinking Fund Commissioners, in order to comply with the constitutional provision providing for the annual reduction of the public debt "by a sum not less than two hundred and fifty thousand dollars," to purchase them in open market at a premium. But during the next fifteen years no such contingency can arise. A six per centum currency loan of $7,882,800 is redeemable in February, 1877, and payable in 1882. In August, 1877, a five per centum gold loan of $3,245,500 is payable, and in 1878, 1879, and 1882, loans amounting to about $1,000,000 are payable. A six per centum currency loan of $9,995,800 is redeemable in February, 1882, and payable in 1892.

In the next five years about twelve millions of the State loans become payable. To pay the same would take an annual payment of nearly two and a half millions of dollars. This is not practicable nor desirable. I, therefore, recommend that a new loan be authorized, at a rate of interest not exceeding five per centum, redeemable in fifteen years and payable in thirty years, for such amount as may be deemed in excess of a reasonable reduction of the public debt for the next five years. A new five per centum loan would be taken promptly at a premium and a large amount of interest saved. The desirability of such investment may enable the loan to be placed at even a lower rate of interest. The loans of the State would then successively become payable during the next thirty years, and the Sinking Fund Commissioners could always redeem, annually, the amount required by the Constitution, or more, if necessary, at par, and would not be forced to go into the market and purchase at a premium.

GENERAL FUND.

Receipts during the fiscal year ending November 30, 1876:

| | | |
|---|---|---|
| Balance in fund November 30, 1875. | | $120,523 14 |
| Revenue from two-thirds tax on corporation stock | | 1,432,141 58 |
| Revenue from all other sources | | 3,118,178 00 |
| Total receipts | | $4,670,842 72 |
| Estimated receipts for fiscal year ending November 30, 1877: | | |
| Balance in fund November 29, 1876 | $140,251 37 | |
| Revenue from one third tax on corporation stock | 650,000 00 | |
| Revenue from other sources | 3,100,000 00 | |
| | | 3,890,251 37 |
| Loss to fund for 1877 | | $780,591 35 |
| Estimated amount of reduction in expenses in 1877 over 1876 | | 500,000 00 |
| Amount to be provided for | | $280,591 35 |

All the expenditures of the government are payable out of the general fund, except public debt and interest thereon, which are payable out of the Sinking Fund. By act of February 12, 1876, two-thirds of all the tax on capital stock of all corporations of this Commonwealth were diverted to the Sinking Fund, but the act further provided that for the year 1876 two-thirds of the corporate tax shall be paid to the general fund, and the remaining one-third into the Sinking Fund. In 1877 the general fund will, therefore, receive only one-third of this tax, instead of two-thirds as in 1876. This loss of one third of the corporation tax to this fund, with the natural reduction in this and other sources of revenue by reason of depression of business, will make the receipts of this fund about $800,000 less than last year.

The corporation stock tax is measured by the dividend declared, and if no dividend is declared the stock is appraised and assessed at fixed rates. When a small dividend is declared during the year, the tax may be very much out of proportion to the value of the stock. To avoid this the stock of all corporations paying less than a six per centum dividend should be appraised. It is also a question to be gravely considered, whether the tax on railroad corporations, now paying only the tax on capital stock, should not be reduced from "nine-tenth of one mill upon its capital stock for each one per centum of dividend made or declared by such company," to five tenths of one mill and a gross receipt tax imposed sufficient to produce a revenue equal to such reduction. Some of the wealthier railroad enterprises of the State are now paying little or no dividends, and therefore very little tax for the large amount of property represented. The non-productive, as well as the productive, property of individuals is equally assessed in proportion to its value. While it is not pretended to apply the same rule strictly to railroad property on account of its great advantages and benefits to the public, yet I believe the mode of assessments should be so changed as not to give unprofitable railroad property almost total exemption from taxation.

☞ The application of the President and directors of the Ogdensburg and Lake Champlain Railroad Company for a Receiver, which was granted by Judge Lanken of the Supreme Court of New York on an ex parte hearing, has, after a full hearing of the case on both sides, been maintained, and the present Receiver, William I. Averell, Esq., of Ogdensburg, the nominee of the Ogdensburg and Lake Champlain Board, will continue in office, and the road will be operated by the President, John C. Pratt, as General Manager.

# American Railroad Journal.

**Saturday, January 13, 1877.**

### Financial and Commercial Affairs.

Important events have occurred in the past week, which have exerted more or less influence upon values of railroad and other securities. The decline in the shares of the roads, known as the "Vanderbilt Railroads," which followed the decease of Mr. Vanderbilt, was but slight, and was soon recovered. Some further advance in passenger fares has been made by the Lake Shore. The continued stringency in the money market, and the decline of gold to 105¾, were adverse influences which, however, seemed to have but little effect. The excitement in political circles, growing out of the contests over the result of the late elections, has been renewed by a variety of events, but with only a momentary effect upon financial and commercial affairs. Negotiations have begun for a new combination to support the price of coal, but if any satisfactory result has been reached it has not been made public. In the meantime, the shares of the coal roads fluctuate wildly, but rather more confidence is shown in their bonds. The Philadelphia and Reading Railroad Company has made provision for the funding of its floating debt by the creation of a new mortgage loan of $10,000,000, the proceeds of which are pledged exclusively to its payment, it being provided that no dividends shall be made so long as any of the new bonds are outstanding and unprovided for. On Wednesday there was a feverish and unsettled market for securities; but the close was active and buoyant, especially for the Western and coal roads. The broken bridge at Ashtabula is already repaired. A thorough

examination of bridges on several railroads has been made since the accident.

The bank statement was in many respects a notable one. There was an increase of over five millions in specie, and a small increase of legal tenders. Deposits increased more than eight millions. But such is the position of affairs, caused by the fact that the gold is merchandise and not money, that the actual legal tender reserve shows a further falling off, and is now nearly two per cent less than last January. The net reserve is larger, but more than half is specie. Money has consequently been quite active and firm at 5@7 per cent on call loans, the inside rates when government securities are the collaterals. First class paper has been disconnted at 6@7 per cent.

Gold declined on Tuesday to 105¾, whence it recovered, on advices of political disturbances at New Orleans, to 106¼, closing on Wednesday at 105⅞. The banks now carry 14 millions more gold than one year ago, and the U. S. Treasury at this point 20 millions more. These large accumulations, and the high cost of carrying, discouraged many holders; and the probabilities of a decline to a nominal premium has been discussed. Exchange has lost the buoyancy of last week, and prime sixty day bills are quoted at $4 83¼@4 84. The exports of merchandize for the week ending Jan. 10th were valued at $3,981,539 agains $5,169,396 for the corresponding week last year; and $10,940,449 since Jan. 1st, against $9,181,724 for the corresponding week last year.

Government bonds have declined in sympathy with the course of gold, not, however without some irregularity, closing on Wednesday, as follows:

United States currency sixes, 121¾@122; do. 6s, 1881, registered, 113⅛@113½; do. coupon, 113⅜@113½; do. 1865, registered, 108⅝@108¾; do. coupon, 108⅝@108¾; do. new, registered, 109⅜@109⅝; do. coupon, 109⅜@109½; do. 1867, registered, 112⅜@112½; do. coupon, 112¼@112½; do. 1868, registered, 114⅜@115; do. coupon, 114⅛@115; do. ten-forties, registered, 112⅜@112½; do. coupon, 112⅜@112⅝; do. fives, 1881, registered, 111⅛@111¼; do. coupon 111@111½; do. four and one-halfs, 107¼@107¾.

General trade is quiet, but speculation in staples or domestic produce, continues active.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

### Street Railways of Boston.

The following is a comparative statement of the several Street Railways of Boston, taken from the reports to the Legislature of 1877 :

The average receipts per mile run have been as follows :

| | |
|---|---|
| Middlesex Railroad | 40 13-100 cents. |
| Union Railroad | 36 34-100 " |
| Lynn and Boston Railroad | 33 56-100 " |
| South Boston Railroad | 32 45-100 " |
| Metropolitan Railroad | 31 83-100 " |
| Highland Railroad | 27 72-100 " |

The average expenses per mile run have been as follows :

| | |
|---|---|
| Middlesex Railroad | 29 32-100 cents. |
| Union Railroad | 32 28-100 " |
| Lynn and Boston Railroad | 29 90-100 " |
| South Boston Railroad | 28 " |
| Metropolitan Railroad | 24 17-100 " |
| Highland Railroad | 22 90-100 " |

The net profits per mile run have been as follows :

| | |
|---|---|
| Middlesex Railroad | 10 81-100 cents. |
| Union Railroad | 4 6-100 " |
| Lynn and Boston Railroad | 3 66-100 " |
| South Boston Railroad | 4 45-100 " |
| Metropolitan Railroad | 7 66-100 " |
| Highland Railroad | 4 82-100 " |

The average number of passengers per round trip have been as follows :

| | |
|---|---|
| Middlesex Railroad | 38 75-100 |
| Union Railroad | 38 50-100 |
| Lynn and Boston Railroad | 35 96-100 |
| South Boston Railroad | 38 40-100 |
| Metropolitan Railroad | 38 75-100 |
| Highland Railroad | 41 20-100 |

### Redemption of Five-Twenty Bonds.

The Secretary of the Treasury has issued the thirty-seventh call for the redemption of five-twenty bonds of 1865, May and November.

The call is for $10,000,000, of which $7,000,000 are coupon bonds and $3,000,000 registered bonds. The principal and accrued interest will be paid at the Treasury on and after the 10th of April next, and the interest on the bonds will cease on that day. The following are the descriptions of the bonds :

Coupon Bonds—$100, Nos. 17,001 to 21,350, inclusive; $500, Nos. 22,101 to 26,700, inclusive ; $1,000, Nos. 53,301 to 62,400, inclusive. Total, $7,000,000.

Registered Bonds—$50, Nos. 201 to 300, inclusive ; $100, Nos. 3,451 to 4,500, inclusive ; $500, Nos. 2,751 to 3,250, inclusive ; $1,000, Nos. $10,-001 to to 12,000, inclusive ; $5,000, Nos. 4,151 to 4,750, inclusive ; $10,000, Nos. 5,151 to 8,200, inclusive. Total, $3,000,000.

☞ The directors of the Salem and Lowell Railroad Company elected on the 2d inst. are : Wm. E. Livingston, Samuel S. Richardson, Addison Putnam, Alden B. Buttrick, Robert H. Butcher, Atwell F. Right and George Runnels. W. E. Livingston was chosen President, and F. H. Nourse, Secretary and Treasurer. C. E. A. Bartlett was elected trustee for the bondholders, to fill a vacancy.

☞ The directors of the Keene and Greenfield (N. H.) Railroad Company have contracted with Kenrick & Kiernan of Boston for the completion of the road. The contract stipulates that it shall be ready for the public on the 1st of December next. Bonds have been given and work will be resumed as soon as the weather permits.

### Philadelphia and Reading Railroad.

The annual meeting of the stockholders of the Philadelphia and Reading Railroad Company was held in Philadelphia on the 8th inst. From the Report of the Managers which was presented we learn that the gross receipts for the fiscal year ending November 30, 1876, were : from passengers, $2,433,685 ; from merchandise, $2,949,501 ; from coal, $6,708,682 ; from mail $54,484 ; from miscellaneous, $81,159—total, $12,227,511. The gross expenses were $8,510,350, and the net profits, $3,717,161. Compared with the previous year the gross receipts show a decrease of $433,416, the gross expenses an increase of $380,191, and the net profits a decrease of $813,607.

The number of passengers carried in 1876 was 10,936,157, (equal to 1,331,949 through passengers), against 6,938,129 (equal to 823,182 through passengers) in 1875. Tons of merchandise carried in 1876, 2,498,276, against 2,720,208 in 1875. Tons of coal carried in 1876, 4,622,916, against 4,362,971 in 1875.

There was an increase in the receipts from passengers of $570,916, and from mail of $441 ; but there was a decrease in the receipts from merchandise of $76,507, from coal of $928,017, and from miscellaneous of $249—making the total decrease in receipts, as stated above, $433,416.

The receipts over cost of working the road were $3,717,160 76 ; profit on steam colliers, $197,026 54—total, $3,914,187 30. From which deduct loss on the business of the canals, debit balance of interest account, drawbacks, etc., amounting in the aggregate to $801,751 41—leaving the sum of $3,112,435 89.

The amount to credit of reserved fund, 1875, was $999,517 46, of which $934,077 55 was disbursed in payments of dividends on common and preferred stock, and the tax thereon, in January, 1876, and $59,201 17 in payment of dividend on preferred stock, including tax, in July, 1876—leaving $6,238 74, which added to above sum of $3,112,435 89, makes a total of $3,118,674 63. The amount required to provide for the payment of interest and sinking funds is $4,474,383 21—showing a deficiency of $1,355,708 58.

☞ Since the passage of the act of April 17 1876, authorizing the issue of subsidiary silver coins, there has been issued from the U. S. Treasury in these coins to the close of business on the 30th of December 1876, $25 720,781. Of this amount, $15,548,844 were issued to redeem fractional currency, and $10,171,937 to meet currency obligations.

☞ In 1876 the vessels belonging to or trading with ports in the United States reported totally lost and missing was 449, as follows : 23 steamers, 41 ships, 82 barks, 58 brigs and 244 schooners. Estimated value $7,890,000. The totals for 1875 footed up 373 vessels lost ; value $7,612,000.

☞ The new narrow gauge railroad company to build the Cumberland and Lonaconing road has been incorporated, and the proper papers placed on file in the Circuit Court of Allegany County, Md.

☞ A certificate of incorporation of the Wabash Railway Company of Ohio, Capital stock $2,000,000, by John W. Ellis and others, has been filed with the Secretary of State of Ohio.

# FISK & HATCH,

## Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, on COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

## FISK & HATCH.

### North Pennsylvania Railroad.

From the report of this company, which was presented at the annual meeting of the stockholders held in Philadelphia on the 8th inst., we learn that the gross receipts of the main line, the Delaware River and Doylestown branches, during the year ending October 31, 1876, were $1,675,865 91. Of the total amount, $796,941 65 was from passengers ; $282,903 48 from coal ; $11,967 67 from pig iron ; $272,524 12 from local and $247,212 05 from through freight ; $18,577 96 from lumber, and $45,738 98 from mails, &c.

The gross expenses were $889,346 78, leaving $786,519 13 as the net earning for the year, out of which was paid $460,115 24 for interest on bonded debt, ground rents, &c., leaving to profit and loss account $326,403 89, or a fraction over eight per cent. on the capital stock.

The total number of passengers carried was 1,-660,084, being an increase of 592,590 over the year 1875.

The following officers were elected :

President.—Franklin A. Comly.

Directors.—John Jordan, Jr., J. Gillingham Fell, Wm. C. Ludwig, Ellwood Shannon, Edward C. Knight, Alfred Hunt, Thos. Smith, Arlo Pardee, James H. Stevenson, Jacob Riegel, Richard J. Dobbins, Charles A. Sparks.

☞ At the annual meeting of the Chippewa Falls and Western Railroad Company held at their office in Chippewa Falls, Wis., on the 2d inst., a board of directors was elected with Thad. C. Pound as President, W. P. Bartlett Vice President, and L. C. Stanley Secretary and General Manager. The road is represented as doing a good and profitable business.

☞ The following gentlemen have been appointed a committee to represent the First Mortgage bondholders of the Kansas Pacific Railroad : Louis H. Meyer, Chairman ; J. de Neufville, Corresponding Secretary ; A. H. Holmes, Recording Secretary, and Messrs. A. Lichtenstein, C. F. Woerishoffer, A. Rutten, G. P. Lowery, R. M. Shoemaker, and Horace White.

☞ During the year 1876 the exports of petroleum from Philadelphia to foreign ports amounted to 65,504,274 gallons.

### The Narrow Gauge Railway on the Centennial Grounds.

One of the most popular institutions at the Centennial Exhibition was the Narrow Gauge Railway, which made a circuit of the grounds, and carried passengers at a low rate of fare from building to building, or gave them a view of the entire grounds by riding the whole length of the line.

Early in the history of the Centennial the West End City Passenger Railway Company entered into a contract with the Centennial authorities to build and operate a narrow gauge railway within the enclosure, the motive power to be steam. In consideration of the right thus obtained the company agreed to pay to the Centennial Board of Finance ten per cent of their gross receipts for the concession. In accordance with this contract the road was built. It was about three and a half miles long, with double track the entire distance, making about seven miles of track.

The rails were of iron and weighed 45 lbs. to the yard; the ties were of sawed yellow pine, 4 by 6 inches, and were laid at a distance of two feet from centre to centre. The road bed was graded and drained but not ballasted. The route commenced at the east end of the Main Building, westward along the avenue of the Republic, past Memorial Hall, the Department of Public Comfort and Judges' Hall to Belmont avenue, thence northwestwardly, past the Government Building, the Horticultural Grounds and the Women's Pavilion, to a point near the Belmont entrance, where it turned to the east, making a sweep around Agricultural Hall and passing the Butter and Cheese Building, the Brewers' Building and the Wagon Building, back again across Belmont avenue and around the western portion of the grounds, passing the various State buildings, the Spanish Government Building, the Glass Works, the Sawmill, making another sweep, nearly circular, in the southwestern corner of the grounds, passing up between the Campbell Press Building and the west end of Machinery Hall, past the Catholic Total Abstinence Societies' Fountain to the Avenue of the Republic and along the entire length of the Machinery Hall and Main Building to the starting point. In the course of this circuit the road ran close to every building in the grounds.

There were seventeen stations on the line, so located as to land passengers at the nearest points to buildings of special interest. The cost of building the road was $7,200 per mile. The average expense of operating was $550 per day for wages, fuel, material, wear and tear, repairs, etc. The number of employes varied from 175 to 185 men. The company had in use eight locomotives and thirty six cars. These were divided into eight trains, each of which made sixteen trips daily, making 128 trains around the grounds a day, or a train about once every five minutes during the hours the Exhibition was kept open. The cars seated 112 persons each, but on crowded days have carried as many as 170 each, and the average number of passengers carried daily was about 21,000. As high as 40,000 and as low as 15,000 have been carried in a single day.

The cars were built by and leased from the Jackson & Sharp Company, of Wilmington, Delaware. The trucks and platforms were very strongly built, the intention being to use them for freight cars after the Exhibition closed. They had open sides and a light roof, the seats running crosswise and back to back. They were fitted with patent couplings and Westinghouse air brakes, operated by the engineer. The cars cost $1,200 each.

There were eight locomotives used, all of them being hired by the company, two of them, the Mason engine, built at Taunton, Mass., and the Brooks engine, from Dunkirk, New York, being exhibits. The Mason engine had no forward trucks, the entire weight of the engine being on the driving wheels, thus securing increased traction. Two of the remaining engines were built at the Baldwin Locomotive Works, Philadelphia; one by W. H. Bailey & Co., of Canandaigua, N. Y.; two by Shellenberger & Co., of McKeesport, Pa., and one by the Lehigh Valley Iron Company. They were valued on an average at $6,000 each.

The trains made the entire circuit of the grounds, 3½ miles, in 35 minutes, including stoppages. They commenced running at eight o'clock in the morning and quit at seven in the evening. The engine house, where the locomotives were put up for the night, was in the southwest corner of the grounds, back of the sawmill buildings.

The road was built by Mr. Wm. Wharton, Jr., for the West End Passenger Railway Company. The iron used was of the finest quality, and the road was provided with the Wharton Patent Safety Switch at all turnouts. The General Manager was Mr. R. W. Flower, the Vice President of the company, who devoted his entire time to overseeing the running of the trains. Mr. J. R. Muffly was Secretary and Treasurer.

The following is a statement of the number of passengers and gross earnings from the 15th day of May to the 11th day of November, 1876:

| | Passg's who pd. fare. | Passg's carried free. | Total Passengers. | Gross earnings. |
|---|---|---|---|---|
| May ..... | 118,441 | 6,922 | 125,363 | $5,921 55 |
| June ..... | 463,444 | 10,326 | 473,770 | 23,172 20 |
| July ..... | 413,121 | 11,165 | 424,286 | 20,656 05 |
| August .... | 533,419 | 12,526 | 545,945 | 26,670 95 |
| September . | 956,984 | 11,683 | 968,667 | 46,854 18 |
| October ... | 944,275 | 10,548 | 954,823 | 47,213 75 |
| November.. | 321,392 | 4,646 | 326,038 | 15,806 60 |
| Totals . | 3,751,076 | 67,816 | 3,818,892 | $187,295 28 |

The fare charged was five cents for adults, and three cents for children.

### Massachusetts Railroads.

The Governor of Massachusetts in his Annual Message to the Legislature says that "for the first time, it is believed, since the construction of the railroad system of the State was begun, nearly half a century ago, the building of railroads in Massachusetts practically ceased during the last year. A few miles of additional or connecting track were built by old corporations, but no new enterprise was inaugurated. Since the financial panic of 1873, the decrease in this respect has been marked and regular. During that year no less than 130 miles of road were built, and a much larger amount was in course of construction; the next year the number fell off to 41; in 1875 it was but 33, and in 1876 it was practically nothing. In view of the too rapid railroad construction of former years, this cannot be regarded as a misfortune, as it apparently put a stop to unprofitable investment of capital. Massachusetts is, indeed, now better supplied with railroad facilities than any other State of the Union, and than most districts of equal size in Europe. Belgium, for example, has a mile of railroad to every 5.1 square miles of territory, and to each 2250 of its inhabitants; while in Massachusetts there is a mile of railroad to every 4.28 square miles of territory, and to each 900 of the population.

"The railroad system of the State now includes 1837 miles of track within its limits, and represents a total permanent investment of $110,000,000, exclusive of the cost of the Hoosac Tunnel. On this system, during the last year, a net income was reported of only 5.6 per cent, showing that the capital invested in railroads, at present at least, is not unduly profitable. During the past year the total earnings of the system fell off 4.85 per cent. from those of 1875, and over 11 per cent. from those of 1873. While, however, the gross income of the corporations fell off in 1876 over $1,500,000 from that of 1875, the greater economy exercised reduced the loss of net income to $100,000. As compared with 1873, the railroads of Massachusetts in 1876 moved nearly thirteen million more tons of freight one mile, and received $3,283,815 54 less for doing it.

"Under authority of an act of the last Legislature the Board of Railroad Commissioners has prepared a system under which the accounts of all the railroad corporations of the State are hereafter to be kept on a uniform plan and under the same general rules. This much needed reform went into effect on the first of October last; and it is intended that the books of these corporations shall in future be practically kept under public supervision. An effort has also been made to secure the adoption of the same system of accounts and returns in all the States adjoining Massachusetts, but with what result remains to be seen. The Commissioners of these States, except Rhode Island have agreed upon the system, and have united in recommending its adoption by their various Legislatures. There is certainly no general measure of reform relating to the railroads of the country now under discussion of equal importance with this, and the adoption of a common system of accounts would go very far toward preventing the recurrence of many scandals and abuses connected with the railroad development of the last few years."

### Philadelphia and Reading Railroad.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held in Philadelphia January 8th, 1877, the following resolutions were adopted:

1. Resolved, That the report of the Board of Managers be, and the same is hereby approved, accepted and adopted, and that it be, together with all the accompanying reports, exhibits, accounts, maps and plans, printed in pamphlet form as usual for distribution among the stockholders.

2. Resolved, That the issue of the Ten Million Income Mortgage Loan, referred to in the report of the Managers, be approved, and that the proceeds of such loan, if, in the opinion of the Managers, the same, or any part thereof should be sold, shall be exclusively applied to the liquidation of the floating debt.

3. Resolved, That the means already taken, and suggested in the report, for the funding or liquidation of the floating debt of the company be and the same are hereby approved; and that for this, as well as for all purposes, the powers and authorities previously conferred upon the Board of Managers by resolutions passed at prior annual meetings be and the same are hereby continued.

4. Resolved, That a list of the Stockholders of the Company be prepared semi-annually, every January and July, to be kept at the office of the Company, in Philadelphia, for the inspection of the Stockholders.

The following gentlemen were unanimously elected to serve the ensuing year:

President—Franklin B. Gowan.

Managers—H. Pratt McKean, A. E. Borie, J. B. Lippincott, John Ashhurst, Isaac Hinckley, Henry Lewis.

Treasurer—Samuel Bradford.

Secretary—David J. Brown.

☞ The Dayton and Southeastern Railroad extends from Dayton to Chillicothe, Ohio, a distance of 80.9 miles. The intermediate distances are: from Dayton to Xenia, 18.4 miles; Xenia to Jamestown, 12 miles; Jamestown to Washington, 18.3 miles; Washington to Frankfort, 17.6 miles; Frankfort to Chillicothe, 14.6 miles.

### The Coal Trade.

The total tonnage for the week ending on the 30th ultimo, as reported by all the companies, amounted to 85,319 tons, against 77,993 tons in corresponding week last year, an increase of 7326 tons. The total amount of anthracite mined for the year is 18,350,950 tons, against 19,880,082 for same period last year, a decrease of 1,529,132 tons. The quantity of bituminous coal sent to market for the week was 20,580 tons, against 22,568 tons for corresponding week last year, a decrease of 1988 tons. The whole bituminous tonnage from the beginning of the coal year is 3,650,163 tons, against 3,894 694 tons in corresponding time last year, a decrease of 244,531 tons. The total tonnage of all kinds of coal for the week is 105,899 tons, against 100,561 to corresponding date last year, an increase of 5,338 tons, and the total tonnage for the coal year is 22,001,113 tons, against 23,774,776 tons to same date last year, a decrease of 1,775,666 tons Shipments from Port Richmond are virtually at an end, the river being very effectually choked with ice. The receipts at Perth Amboy for the week ending on the 30th ultimo were 15,653 tons, the shipments 18,492 tons, leaving a stock on hand of 99,371 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 102,061 tons, of which 81,871 were coal and 20,190 tons coke. The total carried this year is 4,551,822 tons, of which 3,695,430 were coal and 746,833 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Jan.* 8.

### Poughkeepsie Bridge Co.

At the annual meeting of this company, held at Poughkeepsie on the 3d inst., Mr. Innis, the Treasurer, said that $86,000 of the first installment of ter per centum had been paid in, leaving $14,000 outstanding, and that he knew of no reason for expecting that there would be difficulty in collecting the balance. Mr. Rust of the American Bridge Company said that the contracting company, of which he is President, was pushing forward the preliminary work with all diligence, and would be ready on the opening of spring to make vigorous progress on the structure itself. The first caisson is now completed, ready for launching and the others are in progress of construction. All the preparations of the company are made with the expectation of getting all four of the piers in the channel up to at least twenty feet above high water before the close of navigation next fall.

### Precaution with Locomotives.

The recent railroad accident at Ashtabula, Ohio, is creating some apprehension as to danger on other railroads which are compelled to use two locomotives, as was the case at Ashtabula. The Baltimore Sun says that the Baltimore and Ohio railroad officers have adopted a wise precaution in this regard. In such weather as is now prevalent they have, of course, to use two locomotives at certain sections of the road, but whenever a train thus drawn reaches a bridge, the front engine is detached and crosses the bridge alone, the other engine following with the train of cars.

☞ Certificates of incorporation of the Ohio and West Virginia Railway Bridge Co., capital stock $500,000 in shares of $50 each; and of the Ohio and West Virginia Ferry Co., capital stock $50,000, in shares of $50 each, have been filed with the Secretary of State of Ohio by Peter J. Kegan and others.

# THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

## ELECTRIC BATTERY.

**Price Only $6.**

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

HENRY C. HOUGHTON, M. D.
HENRY D. PAINE, M. D.

A LIBERAL DISCOUNT TO THE TRADE.

VETTER & OEHMEN, 369 Bowery, bet. 4th & 5th Sts., N. Y.

## ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.
SAMUEL RAYNOR & CO.,

## American Railroad Journal.

New York, Saturday, January 20, 1877.

### Erie Railway.

The reports of the Receiver of the Erie Railway Company for the months of October and November were filed in the County Clerk's office on the 11th inst. The receipts during the month of October, including $408,943 09 balance from previous month, and also including $111,145 86 from the issue of certificates of indebtedness, amounted to $2,619,889 41; the expenditures, including $26,750 for the purchase of cars, and $7,054 52 for payments on the company's coal lands property, amounted to $2,200,239 93—leaving a balance October 31, 1876, of $419,649 48. Including this balance, and $24,375 24 from the issue of certificates, the receipts during the month of November were $2,475,617 99; the expenditures, including $26,519 75 on old account, $22,327 30 on coal lands, and $26,895 83 for cars, amounted to $1,892,039 93—leaving a balance on hand November 30, 1876, of $583,578 06. The amount of certificates outstanding at that date was $1,088,497 58. The arrearages of pay due to the officers, employes, laborers, etc., have all been paid, and the men are hereafter to be paid regularly.

### Root's Spiral Riveted Pipe.

We would call attention to the advertisement in our columns of this issue, covering a new article in the way of spiral formed tubing now being introduced on the market by the Abendroth & Root Manufacturing Co., of New York, who claim many advantages for it over ordinary hand-made riveted or heavier class of pipe, especially when intended for distant shipment, combining, as it is claimed, great strength together with lightness.

As the cost of freight on tubing, when it is shipped to distant and interior districts often exceeds the original cost of the goods, a class of pipe of this description has long been needed and must be of moment to those who are interested in the use of pipe for irrigating and general purposes.

As this form of tubing comes lower in price than either seamless or cast iron, it will doubtless come into general use. When intended for pressure purposes, each link is carefully tested by hydraulic pressure of 150 pounds, and warranted perfectly tight.

Various styles of this spiral pipe are manufactured by these parties, and specially adapted for use as stove, smoke, ventilating and general piping purposes.

☞ The Woodstock (Vt.) Sentinel says that arrangements have been completed for the immediate prosecution of work on the New Brunswick and New Brunswick and Canada Railroads and, in a couple of months or so, it is likely the irons will be laid and the connection completed.

### Port au Prince Railroad Co.

The Government of Hayti has at last taken the first steps towards internal improvements, as will appear from the advertising notice on the opposite page. From the complete absence of any means of transportation and locomotion, there is not the slightest doubt that this new enterprise will be successful, as the people are anxious for it and will hail its inauguration with enthusiasm.

Certain local advantages, which are sure to increase considerably as soon as means of travel are provided, recommend this enterprise to the special attention of capitalists, investors and in fact any one looking out for good investments.

A pamphlet containing all the particulars in reference to this enterprise can be had by application to the agents.

### Champion Belt Hook.

The peculiar formation of this hook precludes its dislodgment by any movement of the belt and, involving as it does, a double hitch or bearing at each of the attached ends of the belt, renders its tearing out an impossibility. With the aid of a punch designed for the purpose (which is furnished at a price not exceeding that of the common tool), its application is exceedingly quick and easy. The rapidity with which it can be applied and, when required to shorten the belt or for any other purpose, detached, are economical points in time and money of great importance. It has been tested for seven (7) years, among others by many of the leading manufacturers of the country, and the demand for it is constantly increasing.

☞ The secretary of the Indiana division of the Baltimore, Pittsburg and Chicago railroad, and the secretary of the Ohio division of the Baltimore, Pittsburg and Chicago railroad, separate corporations having the same track between Chicago Junction to a point in Lake county, Indiana, filed articles of corporation between the two companies at Indianapolis on the 26th of December, 1876. The new name will be the Baltimore and

Ohio and Chicago Railroad Company. Capital stock $1,200,000, divided into 24,000 shares of $50 each, the stockholders in each of the old companies to be stockholders in the new.

### Philadelphia and Reading Railroad.

At the Annual Meeting of the Stockholders of this Company, held in Philadelphia on the 8th inst., the following Report was presented:

*To the Stockholders of the Philadelphia and Reading Railroad Company:*

The Managers submit the following Report of the receipts and expenditures for the year ending November 30th, 1876, together with the Treasurer's general balance sheet, exhibiting the financial condition of the company at that date.

The following tabular statement in detail for each branch of traffic shows the comparative results of the year's business:

| | |
|---|---|
| **1875.** | |
| Travel, 6,988,129, equal to 828,182 through passengers | $1,862,769 |
| Mdse., 2,720,207 16-20 tons | 3,026,008 |
| Coal, 4,362,971 10-20 tons | 7,636,699 |
| Mail | 54,043 |
| Miscellaneous | 81,408 |
| Gross receipts | $12,660,927 |
| Gross expenses | 8,130,159 |
| Net profits | $4,530,768 |
| **1876.** | |
| Travel, 10,936,157, equal to 1,331,949 through passengers | $2,433,685 |
| Mdse., 2,493,276 10-20 tons | 2,949 501 |
| Coal, 4,622,916 tons | 6,708,682 |
| Mail | 54,484 |
| Miscellaneous | 81,159 |
| Gross receipts | $12,227,511 |
| Gross expenses | 8,510,350 |
| Net profits | $3,717,161 |

| | | | Per Ct. |
|---|---|---|---|
| Travel | Increase, | $570,916 | = 30 6-10 |
| Merchandise | Decrease, | 76,507 | = 2 5-10 |
| Coal | Decrease, | 928,017 | = 12 2-10 |
| Mail | Increase, | 441 | = 8-10 |
| Miscellaneous | Decrease, | 249 | = 3-10 |
| Gross receipts | Decrease, | $433,416 | = 3 4-10 |
| Gross expenses | Increase, | 380,191 | = 4 7-10 |
| Net profits | Decrease, | $813,607 | = 18 |

Gross expenses, including renewal funds, rents of lateral roads, taxes, etc., in the

Year 1875, were 64 2-10 per ct. of gross receipts.
" 1876, were 69 6-10 " "

The receipts and expenses, per passenger and per ton, including renewal fund, rents of laterals, taxes, etc., and based upon coal tonnage of main line and branches only, have been as follows:

| | | | |
|---|---|---|---|
| **1875.** | | | |
| Per passenger. | Cost, $0 19 4-10 | Rec'd, | $0 26 8-10 |
| Mdse., per ton. | " 71 7-10 | " | 1 11 2-10 |
| Coal, per ton.. | " 1 10 8-10 | " | 1 75 |
| **1876.** | | | |
| Per passenger. | Cost, $0 16 2-10 | Rec'd, | $0 22 3-10 |
| Mdse., per ton. | " 79 4-10 | " | 1 18 3-10 |
| Coal, per ton.. | " 1 02 9-10 | " | 1 45 1-10 |

Including renewal fund, rents of laterals, taxes, etc., and based upon entire coal tonnage of the company on Main Line, branches and laterals:

| | | | |
|---|---|---|---|
| **1875.** | | | |
| Per passenger. | Cost, $0 19 4-10 | Rec'd, | $0 26 8-10 |
| Mdse., per ton. | " 71 7-10 | " | 1 11 2-10 |
| Coal, per ton.. | " 87 8-10 | " | 1 38 7-10 |
| **1876.** | | | |
| Per passenger. | Cost, $0 16 2-10 | Rec'd, | $0 22 3-10 |
| Mdse., per ton. | " 79 4-10 | " | 1 18 3-10 |
| Coal, per ton.. | " 86 | " | 1 19 9-10 |

The above statements embrace all expenditures of the company, except interest on the funded debt, and include rents of leased railways, renewal fund, taxes and premium on gold and exchange. Excluding all charges other than the proper working expenses of the road, the cost would be as follows:

I. Based upon the coal tonnage of the Main Line and branches only:

| | | | |
|---|---|---|---|
| **1875.** | | | |
| Per passenger. | Cost, $0 15 3-10 | Rec'd, | $0 26 8-10 |
| Mdse., per ton. | " 53 1-10 | " | 1 11 2-10 |
| Coal, per ton.. | " 81 4-10 | " | 1 75 |
| **1876.** | | | |
| Per passenger. | Cost, $0 11 9-10 | Rec'd, | $0 22 3-10 |
| Mdse., per ton. | " 56 3-10 | " | 1 18 3-10 |
| Coal, per ton.. | " 74 1-10 | " | 1 45 1-10 |

II. Based upon the entire coal tonnage of the company, including laterals:

| | | | |
|---|---|---|---|
| **1875.** | | | |
| Per passenger. | Cost, $0 15 3-20 | Rec'd, | $0 26 8-10 |
| Mdse., per ton. | " 53 1-10 | " | 1 11 2-10 |
| Coal, per ton.. | " 64 5-10 | " | 1 38 7-10 |
| **1876.** | | | |
| Per passenger. | Cost, $0 11 9-10 | Rec'd, | $0 22 3-10 |
| Mdse., per ton. | " 56 3-10 | " | 1 18 3-10 |
| Coal, per ton.. | " 61 2-10 | " | 1 19 9-10 |

As condensed from the transportation and income account, the result of the year's business may be stated as follows:

| | | |
|---|---|---|
| Receipts over cost of working the road | | $3,717,160 76 |
| Profit on steam colliers | | 197,026 54 |
| | | $3,914,187 30 |
| From which deduct— | | |
| Loss upon the business of the Schuylkill Canal | $242,473 96 | |
| Loss upon the business of the Schuylkill Canal Transportation Line | 4,879 81 | |
| Loss upon the business of the Susquehanna Canal | 163,096 52 | |
| Debit balance of interest account | 279,051 40 | |
| Drawbacks on traffic of 1875, sundry bad debts incurred in previous years, and loss on the line of Richmond Coal Barges — less credit balance of Richmond shipping expenses | 112,750 22 | |
| | | 801,751 41 |
| | | $3,112,435 89 |
| Amount to credit of reserved fund, 1875 | $999,517 46 | |
| Deduct— | | |
| Dividend, January, 1876, on common and preferred stock, 2½ per cent, on $34,278,075 28 | $856,951 08 | |
| State tax on dividend | 77,125 67 | |
| | 934,077 55 | |
| | $65,439 91 | |
| Less dividend paid in cash on the 25th of July, 1876, on the preferred stock, 3½ per cent on $1,551,800 | $54,313 00 | |
| State tax on dividend | 4,888 17 | |
| | 59,201 17 | |
| | | 6,238 74 |
| | | $3,118,674 68 |
| From which deduct— | | |
| Interest on bonded debt | $3,857,069 00 | |
| Interest on bonds and mortgages | 113,618 68 | |
| Sinking Fund consolidated mortgage loan, 1871-1911 | 226,830 00 | |
| Sinking Fund improvement mortgage loan, 1873-1897 | 224,000 00 | |
| Sinking Fund general mortgage loan, 1874-1908 | $214,000 00 | |
| Less am't of Sinking fund received from P. & R. C. and Iron Co. in 1876, 3,186,904 15-20 T. at 5 cts. | 159,345 24 | |
| | $54,654 76 | |
| Less bal. of Sink fd. received from P. & R. C. and Iron Co. in 1875 | 2,689 23 | |
| | 51,965 53 | |
| | | 4,474,383 21 |
| Debit balance, charged to profit and loss | | $1,355,708 58 |

It will be seen from the above statements that the net profits of the company for the year just closed, have been insufficient to meet the fixed charges, and that after deducting the losses upon the canals, and providing for interest and sinking funds, there is a deficiency of $1,355,708 58. It is but right to say that this result is not alone due to the great depression in business and the depreciation of values, but that it was caused to a very great extent by the unfair workings of the association of coal producing and transporting companies by which this company, in the months of June, July and August, was practically deprived of its proper share of coal tonnage, and was, for the time being, unable to protect itself. Up to the 1st of June, notwithstanding the depression of business, the net profits were quite satisfactory, and gave every indication that the result of the year's traffic would not only be sufficient to meet all fixed charges, but leave something to the credit of net income, and in the face of the most unexampled reduction of rates of tolls and transportation following the disruption of the coal association, the result of the last three months' traffic has demonstrated that, when left to itself to secure tonnage, the company's unexampled facilities and equipment will always enable it to earn enough to meet all of its fixed charges. The effect upon the business of the company of the cause above mentioned will be referred to in more detail hereafter in connection with the operations of the Coal and Iron Co., and it will be enough here to say that in the three months of June, July and August, at customary rates of charges and fair prices for coal, the entire net profits from railway traffic amounted to but $700,051 74, or very much less than half of what was realized from the same source of income in the three following months, when the rate of transportation had been reduced from thirty to fifty per cent, and the price of coal had fallen about $1 75 per ton,

The following table shows the comparative traffic for the last three years:

| | 1874. | 1875. | 1876. |
|---|---|---|---|
| Number of passengers carried | 6,964,869 | 6,988,129 | 10,936,157 |
| Number of tons of coal, 2240 pounds | 6,848,812 | 5,505,455 | 5,595,207 |
| Number of tons of mdse., 2000 pounds | 3,098,831 | 2,720,208 | 2,493,277 |
| Number of tons of company's material, 2000 pounds | 493,591 | 581,984 | 432,222 |
| Total tonnage of company, 2000 pounds, including weight of passengers and company's materials | 11,336,261 | 10,099,040 | 10,236,326 |

The great increase in the number of passengers carried is due to the travel to and from the Centennial Exhibition, held in Fairmount Park, in the city of Philadelphia, to accommodate which a new passenger station was erected in the Park, a large number of passenger cars and some locomotives built, and various connections made between the several lines of the company in the vicinity of the Exhibition grounds, all of which constructions and improvements are fully referred to and described in the reports of the Chief Engineer and General Superintendent herewith submitted. During the term of the Exhibition 3,295,120 passengers were carried to and from the new station without accident to any resulting from the fault of the company, or the neglect of its employes.

There is but little of any particular interest to report as to the several branch lines of railways and canals. The loss upon the canals is shown by the transportation and income account. The loss upon the Catawissa branch for the year was $122,647 66, against a loss of $157,061 14 for the previous season, but this loss, which is charged to expenses, was more than made up by the earnings of the main line from the traffic thrown upon it by the Catawissa branch. The traffic of the Perkiomen Railroad has increased, and the new line of railroad from Lancaster to Quarryville has fully justified the expectations regarding it and proved to be a valuable acquisition for the Reading and Columbia Railroad Co. The profit from the working of the Germantown and Norristown branch has been larger than ever before realized, the number of passengers carried being 6,846,193, against 4,299,480 the previous year, almost the entire increase, however, being due to the travel to and from the Centennial Exhibition, a large proportion of which was moved upon that line.

The express business has resulted in a net profit of $62,229 40, against $61,591 50 for the year 1875. The constant increase in the value of this business to the company in the face of the most active opposition and competition from the Adams Express Co. has been most gratifying, and, after so many years of thorough trial, the result obtained may be considered as demonstrating the fact that railroad companies can in most cases derive more money from transacting their own express business than by farming out to a separate company the right to control their most profitable traffic.

The following table shows the result of the working of the line of steam colliers owned by the company in comparison with that of previous years:

| Tons coal carried. | Total Receipts. | Total Expenses. | Net Profit. | Average rate of freight received per ton. |
|---|---|---|---|---|
| 1872..127,275 | $355,460 03 | $237,818 26 | $117,641 77 | $2 62 |
| 1873..135,673 | 309,296 33 | 202,111 04 | 107,185 29 | 2 52 |
| 1874..217,340 | 300,636 26 | 294,045 41 | 6,590 85 | 1 29 |
| 1875..345,145 | 491,039 50 | 418,479 61 | 72,559 89 | 1 15 |
| 1876..490,116 | 657,901 12 | 460,874 58 | 197,026 54 | 1 06 |

Included in the item of total expenses of 1876 is the sum of $73,800 for insurance fund, which is now in credit $213,117 54.

The demands of the company for new rails not being sufficient to keep the rolling mill in active operation during the entire year, that property has been leased to the Philadelphia and Reading Coal and Iron Co., who will hereafter control its operations in order to sell to others the surplus product not required by the Railroad Co.

The annexed statement, in continuation of similar ones previously published, will show the life of the iron rails heretofore manufactured by the company:

| | YEARS. | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | 1868. | 1869. | 1870. | 1871. | 1872. | 1873. | 1874. | 1875. | 1876. | Total. |
| | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. |
| Product | 8,971 | 17,037 | 17,557 | 19,113 | 20,043 | 18,948 | 15,916 | 11,417 | 12,971 | 141,973 |
| Worn out 1868. | 5 | .... | .... | .... | .... | .... | .... | .... | .... | 5 |
| Worn out 1869. | 175 | 2½ | .... | .... | .... | .... | .... | .... | .... | 177½ |
| Worn out 1870. | 904 | 164½ | 1½ | .... | .... | .... | .... | .... | .... | 1,070 |
| Worn out 1871 | 1,418 | 614 | 240 | 34 | .... | .... | .... | .... | .... | 2,276½ |
| Worn out 1872. | 1,067 | 897½ | 494 | 97½ | 34 | .... | .... | .... | .... | 2,559½ |
| Worn out 1873. | 522½ | 1,138½ | 325 | 459½ | 153½ | 8½ | .... | .... | .... | 3,102 |
| Worn out 1874. | 235½ | 594 | 597½ | 388 | 866½ | 92½ | 2 | .... | .... | 2,276½ |
| Worn out 1875. | 205½ | 647½ | 794½ | 595½ | 774½ | 486 | 133 | 41 | .... | 3,643½ |
| Worn out 1876. | 276½ | 788½ | 956½ | 887½ | 984½ | 1,042½ | 594½ | 160 | 31 | 5,623 |
| Total worn out. | 4,809½ | 4,846½ | 3,899½ | 2,981½ | 2,282½ | 1,624½ | 724½ | 160 | 31 | 20,785½ |
| Per cent | 53.5 | 28.5 | 22.2 | 12.5 | 11.3 | 8.5 | 4.6 | 1.4 | 0.3 | 14.6 |

Including the sinking funds of the year, the total amounts heretofore charged income account for the various sinking funds of the company, and for which no increase of capital has been made, is $1,700,442 98, which has been either expended or is yet held, as shown in the annexed table:

| | | |
|---|---|---|
| Held for liquidation of loan of $134,400, due in 1877 | | $166,070 45 |
| Applied to purchase of bonds of old loans of 1870 and 1871, before the maturity thereof | | 10,800 00 |
| Applied to purchase of $610,000 Consolidated Mortgage bonds | | 635,302 55 |
| Held for purchase of Consolidated Mortgage bonds | | 200,304 45 |
| Applied to payment of $578,000 Improvement Mortgage bonds | | 578,000 00 |
| Held for payment of Improvement Mortgage bonds, drawn for sinking fund and not yet presented | | 58,000 00 |
| Applied to payment of $280,000 General Mortgage bonds | $280,000 00 | |
| Held for payment of General Mortgage bonds, drawn for sinking fund and not yet presented | 34,000 00 | |
| | $314,000 00 | |
| Less amount received from P. & R. C. & I. Co | 262,034 47 | |
| | | 51,765 53 |
| | | $1,700,442 98 |

Having thus briefly referred to the various details of the year's business, it becomes necessary to call the attention of the stockholders to the subject which at this juncture doubtless causes them the greatest solicitude, viz: the financial condition of the company, aggravated by a large floating debt and heavy charges for interest and sinking funds, and fully to consider and properly measure the ability of the company to provide for its floating debt, and to meet, out of its future earnings, the fixed annual charges upon its property.

As nearly $50,000,000 of the money raised by the company during the last five years has been used by the Philadelphia and Reading Coal and Iron Company, and as upon a cessation of dividends many stockholders may be disposed to criticise the policy which has resulted in the absorption of the profits of the Railway Company by the annual interest charges upon the money borrowed to purchase and develop coal lands, it is but proper first to review the causes, which in the opinion of the managers, made the purchase of coal lands and the organization of the Philadelphia and Reading Coal and Iron Co. a necessity, and then, after explaining the operations of the latter Co., to show the relations which each occupies towards the other and towards the public, and the ability of both to meet their fixed charges and hold their estates intact until returning prosperity makes them more productive to their owners.

The anthracite district of Pennsylvania is embraced in three principal coal fields and the detached Lehigh basins, and contains about 470 square miles. The Schuylkill or lower coal field was first opened and developed and has depended principally upon the lines of this company for an outlet to market. As the second or Mahanoy coal field was opened, the lines owned or controlled by the company were gradually extended into it, so that, at the close of the late war, the Mahanoy and Schuylkill coal fields depended principally upon the Philadelphia and Reading Railroad Co. for transportation; the detached Lehigh basins upon the Lehigh Valley Railroad and the Lehigh Navigation Co., while the Northern or Wyoming coal region was principally owned or controlled by the three large coal mining and transporting companies of New York, each of which united under one charter the power to own lands, mine coal, and transport and sell the product of their own lands. The demand caused by the war very greatly increased the productive capacity of all the coal regions, but especially that of the Wyoming or upper coal field, for the transportation of the product of which the Lehigh Valley Railroad Co. and the Lehigh Navigation Co. gradually entered into competition with the three New York companies.

Had the policy of permitting railroad companies to become the owners of lands and miners and merchants of coal not been inaugurated by the Commonwealth of Pennsylvania, the Reading Railroad Co. might never have been obliged to resort to the acquisition of coal lands. The regions it drained were nearest to tide water, its railroad possessed the great advantage of good alignment and favorable grades, and in any competition on terms of equality with other regions the Schuylkill coal field and the Reading Railroad could have maintained their full share of coal tonnage. During the war, when the demand was so great that every miner could sell his entire product, there appeared to be no cause for unfavorable comparison, and this company, in common with others, made large profits out of the business of transporting coal; but when the demand of the war ceased it was soon discovered the control of most of the coal markets of the country could be taken by those companies which, owning, mining, transporting and selling their own coal, united all the profits of the business, as against the product of a region where tenants paid rent to a landlord for the privilege of mining, and only reached the consumer through the hands of a factor. But, in addition to the disadvantage resulting from the different systems of mining, the territory which has been considered as properly tributary to this company and to develop which its railroads were

constructed, was being encroached upon and absorbed by rival companies, who extended their lines and purchased coal lands for the purpose of diverting tonnage to their own roads. The Lehigh Valley Railroad Co. had purchased controlling interests in large estates near Ashland, and becoming the owners of the Quakake Railroad, extended the latter through the entire northern section of the Mahanoy coal fields as far as Mount Carmel, where a junction was effected with the railway system of the Pennsylvania Railroad Co., who, through the Northern Central Railroad, entered the same coal field from the west, and in the neighborhood of Shamokin had acquired large interests in coal property. The same company, through its ownership in the Northern Central Railroad Co., had obtained control of the Summit Branch Railroad Co. and of the Lykens Valley coal region, which forms the western extremity of the northern fork of the southern coal field.

In addition to these, the Lehigh Valley Railroad Co., the Delaware, Lackawanna and Western Railroad Co., and the Central Railroad of New Jersey, then in friendly alliance, had united to locate and construct a line of railway entering the southern coal field at Tamaqua and extending westward to the centre of the region, and were actually engaged in preliminary examinations preparatory to purchasing coal lands to supply the new line with tonnage. The capital and debt of the Philadelphia and Reading Railroad Co. at this time were over $36,000,000, the safety of all of which depended upon coal tonnage, and, in addition to this amount of invested capital, the company was paying an annual rental equal to interest upon Ten Millions of Dollars upon leased lines of branch railroads located within the coal fields.

Imminent as was the danger to the business and capital of the company, from the aggressions of other lines, and the consequent absorption of the lands which produced the tonnage from which its profits were to be derived, there was, however, another and equally serious cause which, in the course of a few years, would have made it an absolute necessity for the company to acquire the control and management of coal lands, for the purpose of securing tonnage for its lines.

No one at all conversant with the history of mining in Pennsylvania could have failed to notice that the result of the two different systems of corporation and individual mining was so greatly in favor of the former that any transportation company, dependent for its tonnage upon the product of the latter, must be left far behind in the struggle for traffic.

In the upper or Wyoming coal fields, where large companies, with abundant capital, owned the land and worked their own mines, the system of mining was carried to the highest perfection, and economical results obtained which were unknown in the Schuylkill region, where the lands were divided into small holdings, and worked almost entirely by tenants, whose only object was to secure, during the terms of their leases, as large a profit as possible, without regard to the condition in which they left the property of the landowner at the expiration of their tenantcy. It therefore followed that some of the best lands of the lower coal fields were almost absolutely destroyed and rendered unproductive by a system of mining that could not have prevailed had the owner of the land himself been interested in the working of the mine. In addition to this, as it was practically impossible for the great number of individual miners to form any organization for self protection, the Schuylkill region became not only the hot bed of Trades-unionism, but the resort of a secret association, which, for many years, controlled and terrorized the entire laboring population. The facility with which the price of labor was raised and controlled by means of strikes, too often, it is feared, connived at by some of the coal operators themselves, with a view of securing higher prices for their product, led to a series of turnouts, which, in many cases, for months deprived the company of any coal tonnage, and resulted in the establishment of a social system in the coal regions fraught with the greatest possible danger to every interest connected with the production or transportation of coal, and which, if it had not been eradicated, would have ultimately given the control of all property and of every interest of value to a secret association, such as desolated some of the best portions of Ireland during the reign of ribbonmen and other kindred societies.

Perhaps no better comparison of the result of individual mining by tenants and that of large corporations can be drawn than is furnished by the statistics of the increase of production and population in the Schuylkill and Wyoming regions during the twenty years in which the principal coal mining companies grew into existence. The production of Schuylkill coal in 1850 was 1,782,936 tons, against 827,823 tons in the Wyoming region. In 1870 the Schuylkill region produced 3,853,016 tons, or an increase of 116 per cent.; while in the same year the production of the Wyoming region had grown to 7,825,128 tons, or an increase of 833 per cent., and while the population of Schuylkill county in the same twenty years had increased but 91 per cent., that of Luzerne county, in which the Wyoming region is situated, had increased nearly 187 per cent. Indeed the productive capacity of the regions developed by corporations had grown so large that at the close of the war the entire demand for anthracite coal in the United States could have been supplied without the out-put of a single ton from the region which supplied the Reading Railroad with tonnage; and there could have been but one end to a competition for the control of the markets between the product offered by the corporations who united all the profits of landlord, miner, transporter and merchant, and that on which the landlord first required a royalty, the tenant a profit as the miner, the railroad company some compensation for transportation, and which eventually only reached the consumer through the hands of a factor or middleman, who levied upon the business, as his share of the profits, a sum which, in times of active competition, would alone have sufficed the corporation.

To those entrusted with the management of the property of the company, and who were responsible to the stockholders for the faithful performance of their trusts, there seemed no other way to extricate the company from the dangers which threatened it than to become purchasers of coal lands. And this policy once adopted, it became necessary not only to buy sufficient to supply the present tonnage, but to acquire such a control of lands in the first and second coal fields as practically to render abortive the attempts of any other transportation company to secure sufficient property in either to warrant the construction of a rival line of railroad, as it was undoubtedly better to pay interest upon the large amount of property not required for present uses, than to suffer the greater loss resulting from a division of the merchandise and passenger business of the company, which would inevitably have followed the construction of a rival line of railway connecting the seaboard cities with the coal fields now controlled by the company.

The Philadelphia and Reading Coal and Iron Co. was, therefore, organized and supplied with means to acquire such an ownership of the lands of the two lower coal fields as effectually to secure the tonnage for the Reading Railroad.

It was at first supposed that, by improving and exercising a rigid system of inspection over the collieries the product might be mined by tenants paying a royalty to the company, but the experience of one year proved this hope to be delusive, and it became necessary to obtain control of the collieries, as well as of the lands, and to place the property in such a condition for efficient working as would enable the company to produce coal at such a price as to compete with the product of other regions in the principal markets of the country. It is almost impossible for any one not thoroughly conversant with the subject fully to appreciate the magnitude of the task thus undertaken. The entire social condition and business relations of two great coal regions had to be changed and overturned. The whole system of mining at 100 collieries, whose workings embraced nearly 200 miles of underground openings had to be revolutionized and half of the collieries themselves remodelled and improved so as to introduce changes which would result in the more economical production of coal, and save the body of the lands from the destruction which had followed the wasteful and extravagant system of tenant mining. A landed estate of 250 square miles had to be taken from the control of an irresponsible trades union, and its inhabitants rescued from the dominion of an oath-bound association of murderers which for years had held the life and property of every one engaged in any industrial pursuit subject to a secret tribunal, whose infamous decrees were carried into effect by the assassin and the incendiary. After more than four years of the most earnest and unremitting labor the company has been entirely successful in reclaiming its property. The Labor Unions have been practically dissolved, and it is truly believed that the great majority of miners and laborers of the coal fields have been changed from enemies into friends and adherents of the company. The secret association of Molly Maguires has been broken up and every prominent leader of that infamous association, who is not a fugitive from justice, is to day either under sentence and awaiting execution in prison, at penal servitude, or held in custody for future trial. In addition to all this the entire system of mining has been changed. Many unproductive collieries have been abandoned, new ones built to take their places, and others so changed and improved, that it is confidently believed there is now no coal property in the State in better order for economical working than that owned by the company. Much of the cost of this work had to be charged to ordinary working expenses, but, in addition to the interest upon the cost of the property, the entire loss of the Coal and Iron Co. from the period of its creation until December 31, 1875, was but $297,443 59; and this amount, together with the interest upon the cost of the lands up to December 31, 1875, and the commissions and discounts upon the loans issued by the Railroad Co. to secure the money to purchase them, has been charged to the capital account of coal lands on the books of the Coal and Iron Co.

The increased value of the estate, due to the result of the operations of the company, may be best judged by the fact that the cost of mining coal per ton has been gradually reduced from $2 51 in 1873, to $2 44 8-10 in 1874, $1 86 7-10 in 1875, and $1 35 4-10 in 1876, and it is expected that during the coming year the cost will not greatly exceed $1 per ton, a rate which was reached during each of the last three months of the past year.

Annexed to this report will be found the balance sheet of the Coal and Iron Co., as of November 30, 1876, together with the report of the Chief Engineer of that company and several tables of statistics and valuable maps and plans, to which the stockholders are referred. There will also be found a detailed statement of the business of that company for the eleven months ending November 30, 1876, that period having been selected for closing the books, so as to correspond with the date to which the accounts of the Railroad Co. are made up, and hereafter the yearly workings of the Coal and Iron Co. will be presented to the stockholders of the Railroad Co. at their annual meeting.

It will be seen that the loss in the year's business is $203,642 59, after charging off for depreciation of the stock of coal on hand at the dissolution of the Coal Association the very large sum of $931,745 45. This loss in the year's business of $203,642 59 is increased to the sum of $653,359 03, the amount shown upon the balance sheet by the following items:

| | |
|---|---|
| Bad debts, charged off, &c. .... .... | $138,391 36 |
| Depreciation of various property and stock of iron on hand, and loss on contracts for manufacture of iron.. | 311,325 08 |

The unfair working of the association of coal

mining and transporting companies during the year, by which the tonnage of the Coal and Iron Co. was accumulated at high prices, until the dissolution of the association, and then sold at a depreciation of over $930,000, will account for the bad result of the year's business, and the same cause is not likely again to produce such an unfortunate result.

It is probably known to most of the stockholders that, about four years ago, an association was formed by representatives of the various anthracite regions, the object of which was to secure a remunerative price for coal, and prevent the ruinous effects of overproduction. The per centage of the total production which each region was to furnish was determined, and a board of control selected to establish prices, to which all were bound to adhere. When the productive capacity was so much greater than the demand, there seemed to be no better plan than to establish the proportion which each region was to furnish of the amount actually required by the market, and if absolutely good faith had been maintained by all of the parties, the ruinously low prices at which coal is now selling might have been avoided.

This company had frequent cause to complain in previous years of violations of the spirit of the agreement, but during the summer of the past year the great overproduction by one of the companies persisted in, after repeated promises and pledges to comply with its engagements, left no doubt upon the minds of the representatives of some of the other regions that the object of the offending company was to increase its tonnage by professing to agree to terms with which it never intended to comply, and, after three or four months of unavailing negotiation and attempts at compromise, the association itself was dissolved, and each company thrown into active competition for the market. No better commentary upon the working of the association can be made than to say, that while faithfully keeping all of its obligations to the other members, this company, during the three years and nine months of the existence of the compact, received 797,237 tons less than the proportion of the entire actual shipments to which it was entitled under the terms of the agreement, and the great injury resulting from the workings of the association during the year is best explained by the following table, showing the fluctuations in the business of both companies; during the three months immediately preceding, and the same period immediately following, the dissolution of the agreement between the associated companies:

FOR JUNE, JULY AND AUGUST.

| | |
|---|---|
| Profit from railroad traffic | $700,051 74 |
| Profit from other business | 26,444 98 |
| | $726,496 72 |
| Deduct— | |
| Loss on Coal and Iron Co. | $487,047 54 |
| Loss on Canal and Barge Lines | 114,462 70 |
| | 601,510 24 |
| Total profit of both companies | $124,986 48 |

FOR SEPTEMBER, OCTOBER AND NOVEMBER.

| | |
|---|---|
| Profit from railroad traffic | $1,537,877 21 |
| Profit from canals, colliers and barges and other business | 226,180 96 |
| Profit of railroad company | $1,764,068 07 |
| Profit of Coal and Iron Co | 168,364 63 |
| Total profit of both companies | $1,932,432 70 |

And this amount of $1,932,432 70, as the profits of three months of active competition at low rates and prices, is obtained after charging off $140,978 65 for depreciation of stock and materials at the end of the year.

A reference to the balance sheets of the two companies will show that on the 30th of November the interest held by the railroad company in the Coal and Iron Co. is represented as follows:

| | |
|---|---|
| 1. By the entire capital stock of the Coal and Iron Co. | $8,000,000 00 |
| 2. By the $30,000,000 Bond and Mortgage of the Coal and Iron Co., now held by the trustees of the General Mortgage loan—first for the Consolidated Mortgage and second for the General Mortgage, say | $30,000,000 00 |
| Less reduced by sinking fund | 262,034 87 |
| | 29,737,965 52 |
| 3. By a new mortgage of $10,000,000 | 10,000,000 00 |
| 4. By an open book debt of | 980,040 98 |
| Making a total of | $48,718,006 51 |

This increase of capital stock of $7,000,000, and the new mortgage of $10,000,000, were recently made to liquidate to that extent the open indebtedness of the Coal and Iron Co. to the Reading Railroad Co., which indebtedness had been greatly increased during the past year by the assumption of the floating debt of the former by the latter company. As the great bulk of the indebtedness of the Coal and Iron Co. is to the Railroad Co., and as in the absence of any profit to justify it no interest need be paid upon it, the only annual charge which the Coal and Iron Co. must bear at all times is the interest due to the public.

The entire amount of indebtedness due by the Coal and Iron Co. to the public is as follows:

| | |
|---|---|
| Mortgage bonds on coal lands, guaranteed by the Philadelphia and Reading Railroad Co. | $13,192,500 00 |
| Other mortgages | 804,541 68 |
| Debenture bonds, guaranteed by the Philadelphia and Reading Railroad Co | 1,731,000 00 |
| | $15,728,041 68 |

and the annual interest charge upon the above is now $989,575. A mere royalty of about 33 cents per ton upon the coal taken from the lands during the last year would supply enough to meet this interest, and it is confidently believed that a sum less than 30 cents per ton as rent or royalty of the coal which will be taken from the estate during the coming year will furnish sufficient to meet all the interest which the company is obliged to pay to the public. With the improvements already made upon the property, and the facilities thereby obtained for economical mining, the managers feel that, even if the business of mining coal during the coming season is as ruinous as it has been during the past year, and the prices as low as those which have prevailed during the last three months, a sum sufficient to pay the interest charges of the Coal and Iron Co. can be made out of the receipts from tenants, and out of a fixed sum saved from the proceeds of each ton mined by the company as representing a moderate royalty.

It must be borne in mind that a very small proportion of the entire estate of the Coal and Iron Co. is as yet improved, but even though so large a proportion is now unproductive, it is believed that at any price for coal which would justify individual capital engaging in the business of mining, the Coal and Iron Co. could earn and pay the interest upon its entire debt and capital, and if the railroad company was in the receipt of but six per cent upon its investment in the Coal and Iron Co., the aggregate of such sum would exceed eight per cent upon its entire capital stock.

The entire annual fixed charges of the railroad company are now as follows:

| | |
|---|---|
| Interest on bonded debt | $4,161,749 |
| Interest on bonds and mortgages | 113,618 |
| Sinking funds for 1877 | $674,000 |
| To be provided by the Coal and Iron Co., say | 170,000 |
| | 504,000 |
| Interest on floating debt, say | 500,000 |
| Total | $5,279,367 |

In the above statement the interest is calculated at its face value, no account being taken of the premium on gold or the cost of exchange necessary to pay the interest in Europe, as both of these items are always charged to the expenses of the company, and the result in net profits shown by the books is a net profit made after paying such charges. In like manner, as the rents of leased lines are always charged against the receipts of the road and deducted from gross earnings before the profit and loss account is struck, they are not included in the above statement. The question, therefore, is whether, in the present depressed condition of business, the receipts of the railroad company will be sufficient, after paying all expenses and providing for renewal fund, premium on gold and exchange, and rents of leased lines, to pay the annual fixed charges for interest and sinking funds, amounting as above to $5,279,367.

The fact that in the last three months the railroad company, after payment of premium on gold and exchange, and all rents upon leased lines of railways and canals, and deducting all losses in business, and depreciation of materials, realized, notwithstanding the exceptionally low rates of transportation, a net profit, all of which was strictly applicable to interest and sinking funds, of $1,764,068 07, would clearly indicate that in the most unfavorable condition of affairs the net profits may be relied upon as sufficient to meet those charges, and with the strict economy now enforced and about to be continued in all the departments of the company, the managers have no doubt of the ability of the company to earn sufficient to meet its fixed charges. Unfortunately, however, the ability to meet such charges is not all that, in the present condition of the company, is necessary to assure stockholders that their property is secure, and the large floating debt must, until funded or finally paid off, be always regarded with apprehension.

With the exception of the amount required to provide for the deficiency in the profits of the railroad company for the past year, nearly the entire amount of the floating debt of the company was incurred for the Coal and Iron Co., and has only been assumed by the railroad company during the past year in consequence of the inability of the former company to provide for it, and the necessity of making some arrangements with the holders for its extension.

It was never intended to increase the floating debt beyond the amount of the unissued $5,000,000 of general mortgage bonds which were relied upon to provide the means of paying it, but the unexpected losses of both companies during the past year, which could not reasonably have been anticipated, not only required an increase of debt sufficient to meet them, but have unfortunately so affected the credit and depreciated the value of the securities of the company, that until there is some restoration of confidence and an actual demonstration of the ability of the company in the worst times to meet its fixed charges, but little hope can be had of any relief from the proceeds of the sale of the remnant of the general mortgage bonds.

The entire amount of floating debt of both companies, as it will exist after providing for all obligations of the company maturing prior to April 1st, 1877, is $8,272,359 33. In this amount there is included $375,000 of notes of the company not yet issued, but the proceeds of which are required during the winter, and there is also included an item of of $150,000 of bills receivable, discounted for the company, but which the original debtors may not be able to pay at maturity, though its payment is abundantly secured by good collaterals.

The entire floating debt, therefore, of both companies as of January 8, 1877, is $7,747,359 33, but for the reasons above given, the amount must be taken as $8,272,359 33. This latter amount does not, of course, embrace the current monthly indebtedness for wages, &c., as the amounts due to the companies from their current monthly business are very much more than sufficient to meet

all such sums. Indeed, in the case of the Coal and Iron Co., the debts due to the company and value of coal and iron on hand are generally from two to three millions of dollars in excess of any current business indebtedness, but as that amount of floating capital will always be required in the business of the company, but little use can be made of such assets for the reduction of the floating debt. Of the told amount of floating debt, some $4,500,000 is secured by the general mortgage bonds at 90 per cent., and the remainder is secured by iron and such other collateral securities as would, in almost any condition of the money market, enable the company to realize the amount now advanced upon them. While no difficulty, therefore, is apprehended in carrying the floating debt, it is evident that the most earnest efforts of the managers must be directed to its liquidation.

If the remaining $5,000,000 of the general mortgage loan could be sold at fair prices, the proceeds would relieve the company of so much of the floating debt that the remainder could gradually be paid by the proceeds of the sale of iron and such stocks and bonds as could, at any reasonably fair price, be parted with without any loss to the business of the company; but as there may be, for some time to come, a difficulty in disposing of the general mortgage bonds, it has been thought proper by the managers to provide an additional mortgage upon the property to secure bonds to the extent of $10,000,000, which could at the proper time be made use of to retire the floating debt. None of these bonds have as yet been used in any other manner than as collateral for temporary loans, nor will any of them ever be sold, except to provide means for paying the floating debt. Should any favorable time arise for the funding of the debt by means of these bonds, which will be known as the Income Mortgage Bonds, their payment will further be secured by a pledge of a large amount of the property and securities of the company not now embraced in existing mortgages, and much of which has been used as collateral security for the present temporary loans.

As it must be evident that no dividends can be paid so long as any floating debt exists, and as the new bonds will not be sold except to pay that debt, it is provided in the mortgage that no dividends shall be declared so long as any of the new bonds are outstanding and unprovided for.

The earnest efforts of the managers will be devoted to the question of the payment of the floating debt. In the first place, the most rigid economy will be exercised in every department of both companies. No money will be expended for new work, improvements or equipments which will not be provided for by the renewal fund, and whenever a fair price can be obtained, all property and securities of both companies, that can be parted with without injury to either, will be sold and the proceeds thereof, as well as all surplus earnings, applied to the liquidation of the floating debt.

If the $5,000,000 general mortgage bonds can be sold and some $3,000,000 of other property and securities disposed of, the entire debt could be obliterated and dividends could be resumed whenever the earnings of the company would justify them, but if a resort must be made to the new income mortgage bonds it must be evident that, no matter what the earnings of the company may be, no dividends should be made until all of the bonds are paid either by surplus earnings or by proceeds of property and securities sold. The earning power of the railroad company, it is believed, is alone sufficient to make the property of that company ample to protect the general mortgage bonds, without any security from the mortgage of the Coal and Iron Co.'s lands, and when the question of intrinsic value of the property is considered, it may be gratifying to the stockholders to know that the sums appearing upon the balance sheet of the Railroad Co. are much less than the real value of the property they are intended to represent. It is believed that the railroads of the company represented at $26,318,377 53 could not be built and the valuable rights of way secured at present for less than $37,208,800—the depots charged at $4,194,711 39 could not be built for less than $5,197,676, according to the estimates made by the Chief Engineer of the company. The real estate of the company which cost $7,688,344 25 at the present depressed prices, is worth, according to a careful valuation, $10 716,346 92, and the rolling stock which appears upon the balance sheet at $9,355,442 24 could not be replaced at the present low values for less than $11,391,334, making a surplus valuation of the four principal items of nearly seventeen millions of dollars.

The intrinsic value of the coal lands it is almost impossible to name. No such estate has ever been created, nor would it ever be possible hereafter to acquire one of similar magnitude, and the future value of a body of lands containing over a third of all the anthracite coal known to exist in the country, and connected by a railroad of less than a hundred miles in length, with a populous manufacturing city at tide water, cannot be overestimated.

With estates of such magnitude and value, it will require but the first dawn of returning prosperity to extricate the company from its embarrassments, and, with a revival of manufacturing industry, and a recovery of the general business of the country from the prostration which succeeded the panic of 1873, the stockholders will be repaid by future revenue for any present interruption of dividends.

A carefully constructed map, showing all the lines of railway owned or controlled by the company, has been prepared, and will be found bound with the printed copy of this report, for the information of the shareholders. As frequent allusion has lately been made in the public press to the guarantees, endorsed by the company, upon the bonds of iron and other manufacturing establishments along the line of its road, it is but proper to state that the entire amount of such guarantees, in addition to the guarantees of the bonds of the Coal and Iron Co., is $3,182,000, all of which were secured by first mortgages upon property worth at least double the amount of the bonds. It is believed that except in one case of a guaranty of $350,000, no loss whatever will eventually be sustained by the company, and it is certain that any loss which may possibly be incurred will be much more than made up by the increased profits resulting from the business thrown upon its lines by the various industrial establishments which the credit of the company has either created or sustained.

It is but proper to say before concluding, that there is no truth whatever in the report originally printed by a sensational journal of the city of New York, and extensively circulated in Europe, that a large sum of the money of the company had been lost in an endeavor to sustain the market value of its stock. Not one dollar of the money or property of the company has been used or jeopardized in any such transaction, and however much the policy of the company may be made the subject of fair criticism, the stockholders can rely with implicit confidence that none of their money has ever been or will ever be used in any manner or for any object not sanctioned by law and justified by the strictest code of morality. Another unfounded report which had better be corrected places the control of the share capital of the company in England, and has induced the belief in many minds that the policy of the company has been dictated by English shareholders. Of the entire capital stock of the company 376,991 shares are now held by 6,590 stockholders in America, and 308,672 shares are owned by 811 shareholders in Europe, and it is but proper to state that, so far from any attempt to control the policy of the company, the majority of foreign holders have very generally placed their proxies subject to the disposition of the Managers, to be used only in aid of such a policy as may meet the approval of their American associates.

In conclusion, while the Managers cannot point with certainty to the resumption of dividends at any given time, and are sincere in their conviction that none should be made so long as any floating debt exists, they feel it to be their duty to advise the stockholders to hold on to their property rather than to part with it at its present market prices.

By order of the Board of Managers.

FRANKLIN B. GOWEN, President,

Philadelphia, January 8, 1877.

### The Government and the Land-Grant Railroads.

The United States Supreme Court has decided that land grant railroads are not bound to transport the troops and property of the United States free of charge, by reason of that fact; that they are only to allow the government the free use of their tracks in return for the grants, and that they are each entitled to compensation for all such transportation they have performed, excepting the carrying of the mails, subject to a fair deduction for the use of their several roads.

The general course of legislation on the subject of railroads is reviewed at length, and the conclusion is that it demonstrates the fact that in the early history of railroads it was very generally supposed that there could be public highways in fact as well as in name. In view of this fact it is thought that the conclusion is not to be resisted, when construing a legislative declaration to the effect that a particular railroad shall be a public highway, that the meaning is that it shall be open to the use of the public with their own vehicles; and that when Congress, in granting lands in aid of a such a road, declared that it should be and remain a public highway for the use of government, it only meant that the government should have this right to use the road, but not that it should have the right to require its transportation to be performed by the railroad company; and that when the right to use the road is granted "free from all toll or other charge for the transportation of any property or troops of the United States," it only means that the government shall not be subject to any toll for such use of the road.

This decision is in the cases of the Lake Superior and Mississippi, and the Atchison, Topeka and Santa Fe Railroad companies, which have been some time under advisement. This reverses the judgment of the Court of Claims.

Justice Bradley delivered the opinion.

Dissenting:—Justices Clifford, Miller, Davis and Swayne; Justice Miller writing the opinion.

### Hanover and York (Penna.) Railroad.

From the report of the President of this company we learn that the gross earnings for eleven months of 1876 were $55,400 36, the expenses for the same period $39,144 12, and the net earnings $16,256 24. The road is 18 miles in length, and has been operated by the Pennsylvania Railroad Company but eighteen months; and its business exhibit is considered very good in view of the general depression of business, particularly in the iron trade, a revival of which will largely increase the freight earnings of the road. The floating debt, due April 1, 1877, is $37,400. The stock and bonded indebtedness is $357,200, of which $47,139 04 has been paid for a controlling interest in the Littlestown Railroad Company, which investment has not been remunerative, the road having been almost entirely reconstructed, and the interest due December 1 on its $40,000 seven per cent. first mortgage bonds has not been met, but the coupons allowed to go to protest.

# RAILROAD EARNINGS—MONTHLY.

# American Railroad Journal.

**Saturday, January 20, 1877.**

### Financial and Commercial Affairs.

The market for railroad shares has been much less buoyant—in fact, somewhat depressed—during the past week. The heavy fall of snow, throughout the North and West, has continued to greatly impede the movement of trains—reducing earnings, and adding to the cost of operation; and, partly from the same cause, it has not been found practicable to carry into effect the proposed further advance in freights over the great trunk roads. Arising from the latter circumstance, came a report that a complete disagreement had occurred, and that another "railroad war," would soon begin. The effect of all these influences has been, however, rather to check an advance, than to cause a decline. Speculative interest has, besides, been strongest in the Western Union Telegraph shares. The shares of the coal roads have declined, and it is now said that a combination to support prices of coal has never been seriously proposed or entertained. The anticipation of the JOURNAL, that the colder weather and the lower prices would greatly increase the consumption seems to be borne out in the later exhibits. The shipments for the week ending Jan. 6th were 55 per cent larger than for the corresponding week last year. The Ohio River and its tributaries have been swollen to a great flood of waters by the melting snows, and the railroads in that valley are in danger of receiving serious injury, while the resumption of steamboat navigation will divert a portion of their business.

The bank statement for last week was more favorable. There was a partial check to the un-

wieldy accumulation of gold, and an increase of nearly two millions in legal lenders, by which the effective reserve was increased nearly one per cent. Money has consequently been cheaper, at 5@6 per cent on call, and first-class bills are discounted at the same rates.

Gold has been active and higher, advancing to 107 on exciting political intelligence from New Orleans. There was also some reduction in the cost of carrying, and it attracted some speculation "on its merits." The close on Wednesday was at 106¼. The silver bill, which recently passed the lower House of Congress, has been brought forward in the Senate, so amended that silver is put on a par with "Greenbacks" as a legal tender, and its passage, which seems probable, would therefore be a measure of "inflation." Exchange has been rather more steady at $4 82½@4 83½ for prime 60-day bills. Exports show a large increase, and for the week ending Jan. 17th were valued at $6,497,867 against $5,050,091 for the corresponding week last year; and $17,488,816 since Jan. 1st, against $14,231,815 for the corresponding period last year.

Government bonds were active and advancing, but showed some reaction, closing on Wednesday, as follows:

United States currency sixes, 122⅛@123; do. 6s, 1881, registered, 114¼@114½; do. coupon, 114½@114⅝; do. 1865, registered, 109⅜@109⅝; do. coupon, 109¼@109½; do. new, registered, 110⅜@110⅞; do. coupon, 110⅝@110¾; do. 1867, registered, 113⅜@113½; do. coupon, 113¼@113½; do. 1868, registered, 116@116¼; do. coupon, 116@116¼; do. ten-forties, registered, 113@113⅜; do. coupon, 113⅜@113⅝; do. five twenties, 1881, registered, 111@111⅛; do. coupon 112⅛@112⅜; do. four and one-halfs, 1891, registered, 108@108⅛.

General trade is moderate, but the speculation for a rise in staples of domestic produce has been checked, and more disposition is shown to press them to consumption and export.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

*New York.*—Milwaukee and St. Paul 2d mort., 92; South Pacific R. R. of Mo., bonds, 74; Missouri, Kansas and Texas S. F. assented, 58¼; Chesapeake and Ohio 1st mort., coupon on, 26⅜; Central Pacific State Aid bonds, 104½; Cleveland and Toledo S. F., 107¼; Canada Southern 1st mort., coupon on, 56; Dubuque and Sioux City 7s, 2d div., 105; Galena and Chicago 1st mort., 109¼; Belleville and Southern Ills. 1st mort., 85; Cedar Falls and Minnesota 1st mort., 85; Chicago and Northwestern Interest bonds, 108; Kalamazoo and White Pigeon 1st mort., 85; Toledo and Wabash Equipment bonds, 22; New York Central 6s, sub. bonds, 101½; Toledo, Peoria and Wasaw 2d mort., 35; Second Avenue R. R., ex div., 68; Wabash Railway Purchasing Co. Receipts, 6; Pennsylvania Coal, 221; Maryland Coal, 10; Missouri 6s, long bonds, 104½; do. 6s, 1878, 100⅜; do. 6s, Funding, 1894-'95, 105; do. 6s, Asylum 104; North Carolina 6s, old, Jan. and July, 22½; do. Fund Act 1866, 16; do. 6s, special tax, 1st class, 4½; do. 2d class, 4¼; do. 3d class, 4; Louisiana 7s, consol., 54½; Virginia 6s, consol., ex mat. coupon, 66¾; do. 6s, consol., 2d series, 38; do. 6s, def., 7; Missouri 6s, H. and St. J. issue, 1887, 105; New York State 7s, Bounty Loan, coupon, 101.; Tennessee 6s, new, 43½; do. old, 45; Brooklyn 6s, W. L., 107. The latest quotations are: Illinois Central, 59@59¾; Pacific Mail 24@24¼; Western Union Telegraph, 75⅝@75¾; Atlantic and Pacific Tel., 16½@17¼; Quicksilver Mining, 14¾@15¾; do. pref., 20@22; Mariposa Land and Mining, 6½@7½; do. pref., 7@8½; Adams Exp., 102@102½; American Exp., 57¾@58; U. S. Express, 56½@58; Wells-Fargo Express, 84½@85¼; Chicago and Alton, 99@100; Cleveland and Pittsburg, 90½@91; Chicago and Northwestern, 86⅜@86¾; do. pref., 56@56⅝; Chicago, Rock Island and Pacific, 100¾@101⅛; Chicago, Milwaukee and St. Paul, 18½@18⅝; do. pref., 49⅜@49½; Cleveland, Columbus, Cincinnati and Indianapolis, 87@88; Columbus, Chicago and Indiana Central, 31¼@31½; Delaware, Lackawanna and Western, 75@75½; Erie, 9⅜@9¾; Hannibal and St Joseph, 12¾@13; do. pref., 26@26½; Lake Shore and Michigan Southern, 54⅞@55; Michigan Central, 48⅛@48¼; New York and Harlem, 138½@140; N. ---

☞ Messrs. Fisk & Hatch, Bankers, and dealers in Government Securities, No. 5 Nassau St., this city, have issued a second edition of their "Memoranda concerning Government Bonds for the information of Investors:" revised and corrected to January 15, 1877. This book is intended for gratuitous distribution, and contains in a convenient form, full information in regard to the various issues of Government bonds now outstanding, a list of the bonds "called in for redemption," and upon which interest has ceased, probabilities as to the length of time the different issues will run before being called in, and full directions as to buying, selling, and transferring bonds, collecting interest, etc.

### Lehigh Valley Railroad.

At the annual meeting of the stockholders of this company held in Philadelphia on the 16th inst., the report of the directors for the fiscal year ending November 30, 1876, was read, from which we gather the following facts and figures as to the business of the past year and the company's present financial situation. This road, it is known, is mainly a coal carrier, and extends from Perth Amboy, N. J., to Wilkesbarre, 161 miles. Of this distance 60 miles are in New Jersey, the remaining distance in Pennsylvania. The company also owns branch roads of the aggregate length of 130⅔ miles, and works 9⅔ miles of leased roads.

Its coal tonnage for the fiscal year ending November 30, 1876, was 3,987,018 tons, which is 653,546 tons greater than in 1875.

The income the past year from all sources, including interest from investments, amounted to $8,037,247 20, from which sum operating expenses, $3,842,750 04, being deducted, leaves as net income $4,194,497 16, against $4,055,205 71 of net income in 1875, an increase of $139,291 45.

The capital account of the company at the close of the last fiscal year stood: preferred and common stock, $27,228,920; funded debt, $24,186,000; and floating debt, $460,208 14—total liabilities, capital and debt, $51,875,128 14. This shows an increase on the capital account of last year of $2,653,830, which increase is represented by expenditures for equipment, $885,438; Easton and Amboy Railroad, $1,044,170; on account of change of gauge of Erie Railway, $675,000; redemption of Morris Canal bonds, $573,000; purchase of additional interest in Geneva, Ithaca and Sayre Railroad, $121,206, and advances for construction purposes to Pennsylvania and New York Canal and Railroad, $200,000 aggregating $3,498,815; exceeding the increased capital account by $844,985.

Since the last annual meeting the company have declared two quarterly dividends of 2½ per cent each, and two of 2 per cent each, making 9 per cent for the year. The mortgage debt of the Morris Canal, $785,000, has been paid off within the year and canceled; out of funds realized from a new mortgage on the canal for a million. The company's sterling loan has been reduced $4,682,000. This is the company's only gold loan.

The Easton and Amboy Road, has from its construction, been operated by the main line, and last year there were carried over it 881,459 tons coal. The double track has been completed throughout and large additional facilities furnished. This extension across New Jersey is wholly owned by the Lehigh Valley Railroad Company, and cost, with its appurtenances, $9,544,038.

The Lehigh Valley also owns a majority of the common stock, besides $3,977,400 of the preferred stock of the Pennsylvania and New York Canal and Railroad, a most valuable outlet and feeder to its main line.

The purchase, under foreclosure of mortgage, of the Ithaca and Athens and the Geneva and Ithaca Railroads, as northern connections for the outlet of the tonnage of the Lehigh Valley Railroad, are considered valuable acquisitions, worth greatly more than the sale price. The two companies, as reorganized into one, represent a capital stock of $850,000 ($693,400 of which belongs to the Lehigh Valley), subject to a 7 per cent gold debt of $600,000. The whole length of this road is 75 miles.

The amount of coal shipped from lands of the Lehigh Valley Railroad Company for 1876 was 1,613,795 tons, a portion of which was sent to market through routes other than their own. The report acknowledges what is too generally known, that "the mining and selling of coal has been comparatively unremunerative" during the greater part of 1876, and concludes with the satisfactory declaration that neither the lands owned by the Lehigh Valley Railroad Company nor those owned by the Lehigh Coal Company "are subject to any bonded or other debt."

The following officers were elected for the year 1877:

President—Asa Packer.

Directors—Charles Hartshorne, Wm. W. Longstreth, J. Gillingham Fell, Wm. H. Gatzmer, David Thomas, Ashbel Welch, Wm. L Conyghan, Arlo Pardee, Wm. A. Ingham, Joseph Wharton, Geo. B. Markle, Robert H. Sayre.

The new chosen Board elected Mr. John Fanshawe Secretary, and Mr. Lloyd Chamberlain Treasurer.

### Union Pacific Railroad.

The gross earnings of the Union Pacific Railroad for November, 1876, were $1,236 487 47, the expenses $438,607 47, and the net earnings $797,880; for November, 1875, the gross earnings were $1,087,592 88, the expenses $475,052 88, and the net earnings $562,540—showing an increase in gross earnings of $198,894 59, with a decrease in expenses of $36,445 41, making the increase in net earnings $235,340.

For the eleven months ending November 30, 1876, the gross earnings were $11,891,873 25, the expenses $5,013,016 74, and the net earnings $5,878,856 51; for the eleven months ending November 30, 1875, the gross earnings were $11,090,680 63, the expenses $5,114,294 20, and the net earnings $5,976,886 43—showing an increase in gross earnings of $801,192 62, with a decrease in expenses of $101,277 46, making the increase in net earnings $902,470 08.

### Five Per Cent Funded Loan of 1881.

Under the provisions of the act to enable the Secretary of the Treasury to pay the judgments of the commissioners of Alabama claims the Secretary of the Treasury gives notice that sealed proposals will be received at the Treasury Department until 12 o'clock noon on the 22d instant, and opened immediately thereafter for the sale of five per cent coupon or registered bonds of the funded loan of 1881 authorized by the acts of July 14, 1870, and January 20, 1871, bearing interest payable quarterly from February 1, 1877, in lots of not less than $100,000 to the total amount of $307,000. These bonds will be sold for gold, and payment therefor must be made within three days after the acceptance by the department of the bid. Each bid must be accompanied by a gold deposit of two per cent of the amount thereof, and no bid at less than par in coin will be considered.

☞ The exports from Richmond, Va., for the year 1876 amounted to $5,046,666, against $2,254,609 in 1875. The imports for 1876 were $244,755, against $568,969 in 1875.

Office of FISK & HATCH, 5 Nassau St.
New York, Jan. 16th, 1877.

The demand for Government Bonds for investment is now more general and widespread, among all classes, than at any previous period for a long time. To meet the numerous inquiries from intending investors for information on the subject, we have published, for gratuitous distribution, a new and revised edition of our "Memoranda Concerning Government Bonds," copies of which may be had upon application.

☞ Holders of the Five-Twenties recently called in, maturing April 10th, who desire to re-invest the proceeds, can receive their full value in cash, or in exchange for other Government Bonds, at our office.

FISK & HATCH.

### Cumberland Coal Trade.

The product of the coal mines in the Cumberland region during the year 1876 aggregated 1,800,755 tons 4 cwt., being a decrease of 467,974 tons 1 cwt., as compared with the product of 1875. The shipments by the Chesapeake and Ohio Canal during the year were 682,618 tons 9 cwt., a decrease of 245,821 tons 7 cwt., as compared with the preceding year. The shipments by the Baltimore and Ohio Railroad were 1,036,268 tons 8 cwt., a decrease of 198,249 tons 19 cwt., as compared with 1875; and the shipments by the Pennsylvania Railroad were 131,873 tons 7 cwt., a decrease of 28,350 tons 1 cwt. The product of the several coal companies for the year is as follows:

| | Tons. |
|---|---|
| Consolidation | 342,198.11 |
| New Central | 240,269.04 |
| George's Creek Coal and Iron | 197,065.19 |
| Atlantic and George's Creek | 146,097.08 |
| Borden Mining | 143,147.07 |
| American | 127,758.18 |
| Virginia | 102,371.07 |
| Hampshire and Baltimore | 92,945.09 |
| Maryland | 76,237.03 |
| Swanton | 66,862.15 |
| Franklin | 64,011.18 |
| George's Creek Mining | 61,884.00 |
| Potomac | 58,120.10 |
| Blaen Avon | 48,228.09 |
| Piedmont | 35,988.19 |
| New Reading | 1,605.10 |
| George's Creek Valley | 1,059.93 |
| Total | 1,800,755.04 |

### Illinois Central Railroad.

During the month of December, 1876, 680 acres of land were sold for $4,985. The cash collected on land contracts was $14,564 62. The traffic on the main line in Illinois was $397,619 12, against $508,391 97 in December, 1875. The traffic of the Iowa lines, (leased at 35 per cent of gross receipts) was $105,521 58, against $171,042 08 in December, 1875. A dividend of $2 per share will be paid February 1st.

☞ Mr. B. F. Ayer has been appointed General Solicitor of the Illinois Central Railroad Company vice Mr. George Trumbull, resigned.

☞ Hon. Edwin Walden has been elected President, and Mr. E. H. Whorf Superintendent of the Boston, Revere Beach and Lynn Railroad.

### The Coal Trade.

The coal tonnage for the week ending on the 8th inst, as reported by the several carrying companies, amounted to 188,008 tons, against 156,555 tons in corresponding week last year, a decrease of 18,847 tons. The total amount of anthracite mined for the coal year is 1,217,127 tons, against 791,550 for same period last year, an increase of 425,568 tons. The quantity of bituminous coal sent to market for the week was 22,633 tons, against 28,806 tons for corresponding week last year, a deceease of 6173 tons. The whole bituminous tonnage from the beginning of the coal year is 58,211 tons, against 68,833 tons in corresponding time last year, a decrease of 10,622 tons. The total tonnage of all kinds of coal for the week is 160,641 tons, against 185,861 to corresponding date last year, a decrease of 24,720 tons, and the total tonnage for the coal year is 1,275,338 tons, against 860,392 tons to same date last year, an increase of 414,946 tons. Shipments from Port Richmond are virtually at an end, the river being very effectually choked with ice. The receipts at Perth Amboy for the week ending on the 6th instant were 6938 tons, the shipments 6012 tons, leaving a stock on hand of 100,498 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 106,285 tons, of which 85,002 tons were coal, and 21,283 tons coke. The total carried this year is 4,657,607 tons, of which 3,780,432 were coal, and 767,616 coke. This total embraces all the coal carried over the road east and west.—Phila. Ledger, Jan. 15th.

☞ The officers of the Scioto Valley Railroad Company, recently elected, are: E. T. Mithoff, President; Geo. D. Chapman, General Manager; J. B. Hall, Financial Agent; F. C Sessions, Treasurer, and C. O. Hunter, Secretary. It is stated that as soon as subscriptions are paid, the road will be pushed on to Portsmouth, and that the coal branch will certainly be built.

☞ The officers of the Granite Railway Co., recently elected, are: President, John C. Pratt, Vice President, John D. Parker; Clerk and Treasurer, George Lewis.

☞ Get a WAKEFIELD EARTH CLOSET at No. 25 New Church St., N. York. Send for circular.

# THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

## ELECTRIC BATTERY.

**Price Only $6.**

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

HENRY C. HOUGHTON, M. D.
HENRY D. PAINE, M. D.

A LIBERAL DISCOUNT TO THE TRADE.

**VETTER & OEHMEN, 369 Bowery, bet. 4th & 5th Sts., N. Y.**

## ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

**New York, Saturday, January 27, 1877.**

### Chesapeake and Ohio Railroad.

From the report of Gen. W. C. Wickham, Receiver, presented at the annual meeting of the company recently held in Richmond, we learn that the gross earnings of the road for the year ending September 30, 1876, were $1,599,512 55, the operating expenses $1,243,035 95, and the net earnings $356,476 60—showing an increase in gross earnings, as compared with the previous year, of $139,323 63, an increase in operating expenses of $130,715 25, and an increase in net earnings of $8,608 37. There was a decrease in the passenger business during the year owing, in a great measure, to the Centennial Exhibition, which drew off many people who have heretofore visited the springs on the line of the road. The tonnage for the year amounted to 415,462, an increase of 55,893 tons. The increase in receipts from freight traffic amounted to $184,079. Included in the operating expenses for the year 1876 there is charged the sum of $88,068 53, expended in new rails, fastening ties, and relaying certain portions of the road. Had this amount been charged to construction account, the net earnings would show a corresponding increase. The affairs of the company are in good condition. Since Gen. Wickham was appointed receiver, all labor bills have been paid in full, and no receiver's certificates are outstanding at the present time. The reorganization of the company is in a fair way of consummation and will be effected early in the present year. When this is done the directors will at once proceed to complete a western connection for the road, which will place it in a position to earn the interest on the bonded debt on a moderate revival of business. The plan of reorganization has already received the assent of a large majority of the parties in interest, and the directors wish all who have not yet acceded to the same to do so immediately and make the proceedings unanimous.

The following directors were elected for the ensuing year: C. P. Huntington, A. A. Low, Lloyd Aspinwall, David Stewart, Jonas G. Clark, A. S. Hatch, William Whitewright, and John Castree of New York; Pliny Fisk of New Jersey, John Echols and William C. Wickham of Virginia.

### Probable Duration of Government Bonds.

In answer to the almost universal inquiry of investors, as to the probable time for which the different issues of Government Bonds may be expected to run, Messrs. Fisk & Hatch, in their "Memoranda concerning Government Bonds," recently issued, submit as the suggestions of their best judgment at the present time, the following probabilities:

The negotiation of the $500,000,000 of Five Per Cent. Bonds of 1881, which was considered a successful negotiation throughout, and to have proceeded with as much rapidity as could reasonably be expected, occupied about five years.

It is probable that the negotiation of the remaining $240,000,000 of the Four and a-Half Per Cent Bonds, and the calling in and redemption of a like amount of Five-Twenties, supposing the negotiation to be fairly successful, may be accomplished in from two to three years.

Meanwhile, a revival in the general business and industries of the country, increased activity in the money market, and the consequent reduction in the amount of idle capital now seeking investment at a low rate of interest, financial or political disturbances in Europe, or other causes, may operate at different times during the progress of the negotiation to check or prolong it, and to postpone the results for longer periods than we have here assumed.

It may, therefore, be assumed as probable, that the Old Sixty-Fives will draw interest for from three months (the time for which those recently called in must be allowed to run) to eighteen months.

That the New Sixty Fives will run for from one and-a-half to three years, and the last $50,000,000 considerably longer.

That the Sixty-Sevens and Sixty-Eights, which cannot be called in until a negotiation of Bonds bearing four per cent. interest can be made, will run for from five to seven years.

That the Sixes of 1881 will run for a like period.

That the Fives of 1881 will run for from fifteen to twenty years.

That the Ten-Forties will run for from twenty to twenty-eight years.

The Currency Sixes cannot be called in until maturity, as they are payable at fixed periods from 1895 to 1899.

It is not probable that, with the constant improvement in the national credit, there will be any future legislation authorizing the issue of Bonds bearing a higher rate of interest than four per cent. or that there will therefore be any further funding or calling in of Bonds, beyond the $300,000,000 already authorized at four and-a-half per cent., until Four Per Cent. Bonds can be sold.

When the whole amount of Four and-a Half per Cent. Bonds authorized have been sold, and a corresponding amount of Five-Twenties called in, $50,000,000 of the New Sixty-Fives, and all of the Five-Twenties of 1867 and 1868, will still remain outstanding.

☞ Mr. G. A. Nicolls has been elected President, Mr. Howard Hancock Secretary, and Mr. John Welch Treasurer of the Allentown Railroad Co., East Pennsylvania Railroad Co., Reading and Columbia Railroad Co., East Mahanoy Railroad Co. and Chester and Delaware River Railroad Co.—all of which roads are leased or controlled by the Philadelphia and Reading Railroad Com-

pany. The Boards of Directors were also largely composed of the same gentlemen in each case.

### Baltimore and Ohio and Chicago R. R.

At a meeting of the stockholders of the Baltimore and Ohio and Chicago Railroad Company, held at Chicago Junction on the 9th inst., the following persons were elected Directors: W. C. Quincy, Newark, O.; William Keyser, Baltimore, Md.; George R. Dennis, Frederick, Md.; A. D. Smith, Columbus, O.; W. C. Holgate, Defiance, O.; David Lee, Zanesville, O.; Washington Cowen, Garrett, Ind.; and S. I. Anthony, Valparaiso, Ind. The Directors organized by electing W. C. Quincy President, and E. C. Winstanly Secretary and Treasurer.

The new company was formed by consolidating the Ohio and Indiana organizations of the Baltimore, Pittsburg and Chicago Railway company. The Illinois portion of the line will also be consolidated with the new company as soon as appropriate legislation can be had. The present law of both Ohio and Illinois requires a majority of the Directors to reside in each State.

### Pennsylvania and New York Canal & Railroad Co.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 8th inst., the following were elected: President, R. H. Sayre; Directors, Asa Packer, W. W. Longstreet, Charles Hartshorne, J. J. Taylor, G. R. Linderman, Robert Lockhart, V. E. Piollett, R. A. Packer, J. H. Swoyer, J. W. Hollenback, W. B. Sayre, and E. P. Wilbur.

The report of the President, which was presented, shows the amount received from the transportation of coal to have been $942,572 48 gross, and $351,556 16 net; freight, $387,329 78 gross, and $117,580 51 net; passenger, express, and mail, $318,502 88 gross, $117,566 71 net; for the canal only $548 15 gross, while the expenses were $1,443 50; on miscellaneous accounts, $22,301 05 gross, and making a total of $1,678,254 84 gross, $608,109 08 net, after deducting $1,070,145 26 expenses.

This shows an increase in the gross earnings of $197,213 47, and in the net earnings of $69,231 08. There has been paid during the year $20,000 for interest on bonds, leaving $398,109 08 applicable for taxes, dividends, etc., and it is proposed to declare a dividend of $350,000, or 10 per cent. on the preferred stock outstanding in 1874.

After referring to the gratifying increase in the receipts for freight, he remarks that the passenger travel has been double that of any preceding year since the opening of the line; a fact due greatly to the Centennial Exhibition. The double track has been gradually extended, and now is 44.5 miles, making a total of 202.05 miles of track, an increase the past year of 15.43 miles. Several wooden bridges have been removed and stone or iron bridges substituted, and it is recommended that the remaining wooden bridges should be replaced by more permanent structures. The purchase of the Geneva, Ithaca, and Athens Railroad gives a connection at Ithaca with the Erie Canal through Cayuga lake, and with the New York Central Railroad at Geneva.

In the report is embodied the statistics of the freight and travel. The coal carried in 1876 was 1,165,952 tons, an increase over 1875 of 82,688 tons, and was derived from the Wyoming, Hazleton, Beaver Meadow, Mahanoy, and Sullivan anthracite regions. The bituminous coal aggregated 361,607 tons, an increase over 1875 of 26,416 tons, and derived from the Barclay, Towanda Coal Company, Fall Creek Coal Company, Schroder Coal Company, and Northern Central Railway Gas Coal Company.

Exclusive of coal, the freight carried in 1876 was 358,632.23 tons, or an increase over the year previous of 75,752.93 tons. But the average rate for transportation has been reduced from 1.63 cents per ton per mile in 1875 to 1.32 cents per ton per mile in 1876, and gross receipts increased from last year 5.03 per cent. The number of passengers carried during the year was 333,785, an increase of 131,878.

The small receipts from the canal were owing to the use of but a small part, in the city of Wilkes-Barre.

### Fitchburg Railroad.

The receipts and expenditures of this road for the years ending September 30, 1875 and 1876 have been as follows:

| Receipts: | 1875. | 1876. |
|---|---|---|
| From passengers | $696,066 76 | $622,529 98 |
| " freight | 909,629 18 | 1,045,780 18 |
| " express | 80,926 81 | 29,463 87 |
| " mails | 31,125 66 | 21,832 81 |
| " rent of roads | | 101,175 45 |
| " rent of property | 28,888 80 | 26,187 28 |
| " premium on stock | 23,887 50 | 12,084 12 |
| " premium on N. L. N. R. R. bonds | | 402 14 |
| | $1,720,524 71 | $1,859,465 33 |
| Expenditures: | | |
| Repairs of road | $198,211 09 | $182,846 51 |

| Taxes, insurance, etc. | 113,916 19 | 100,991 72 |
| Telegraph expenses | 2,975 02 | 4,021 08 |
| General salaries, office, law and other exp. | 43,965 40 | 39,178 17 |
| Rents | 87,884 50 | 207,805 00 |
| Interest | 18,314 64 | 87,571 97 |
| Water | 8,551 42 | 8,672 40 |
| Use of freight cars | | 86,152 97 |
| | $1,432,700 70 | $1,575,215 40 |
| Net earnings | $287,824 01 | $284,239 93 |

The company have 58 locomotives, 60 tenders, 72 passenger, 21 mail and baggage, 940 eight wheel and 221 four wheel merchandise, and 91 gravel and coal cars, and 9 snow plows. Number of miles run by passenger trains 527,804; by freight trains, 631,881; by other trains, 15,088—total, 1,174,773. Length of main road operated, 143 miles. Length of double track road, belonging to the company, 50.68 miles; length of Watertown Branch Railroad, belonging to the company, 6.60 miles; length of Lancaster and Sterling Branch Railroad, belonging to the company, 12.42 miles; length of Peterboro' and Shirley Railroad, belonging to the company, 23.62 miles; length of side and other tracks, belonging to the company, 42.64 miles—total length of tracks belonging to the company, 186.84. Length of Vermont and Massachusetts Railroad, leased for 999 years, 80.11 miles; length of side tracks on Vermont and Massachusetts Railroad, 16.32 miles. Total length of tracks operated, 261.76 miles. Total number of passengers carried, 2,293,727; do. carried one mile, 29,537,753. Number of tons carried, 887,859; do. carried one mile, 41,692,039. There has been a decrease in the number of passengers carried of 242,839, in the number carried one mile of 2,454,588, and in the income therefrom of $73,536 78. The total number of tons carried has increased 161,093, the number carried one mile has increased 19,660,195, and the gross income therefrom has increased $136,151. The report says:

The whole property of the company is in excellent condition, and, irrespective of all additions made, has considerably improved during the year in consequence of having been kept in thoroughly good order and repair.

In repairs of track (exclusive of all extensions), we have relaid over thirty miles with iron and steel rails, having used for that purpose 1,890 tons of new iron, and 1,481 tons of new steel rails.

As indicated by our last report, our improvements have been continued. Our terminal facilities at Boston have been increased, by constructing about one and one-third acres of new wharf over tide-water, (a part of the area having been purchased of the Commonwealth of Massachusetts for that purpose,) by adding 2,545 feet of track in our freight yard, and by constructing an extension of our inward freight house, measuring 360 feet in length by 39 feet in width.

On the road between Boston and Fitchburg, new side tracks have been laid down at Lake Walden, Union Market, Belmont, Tube Works, Ice Scales, Squire's, Bleachery, Cambridge and at Baker's Mills, in all 4,375 feet.

On the Vermont and Massachusetts division of our road we have nearly completed a new freight yard at Fitchburg, and have laid 8,740 feet of new tracks thereon.

The third bridge above Fitchburg has been rebuilt for two tracks, and nearly all the others strengthened and improved.

Three and one-half miles of road bed for second track have been graded between Fitchburg and Ashburnham, and twenty seven hundred feet of second track laid.

A very desirable improvement has been effected by the construction of one and thirty-six hundredths miles of new road at Ashburnham. This entirely removes the annoyance to passengers of reversing the seats and changing the direction of the cars, and also enables us to operate the road in a more economical and satisfactory manner.

Additional side tracks have been graded and laid as follows: Ashburnham, 8,000 feet; Baldwinville, 3,968 feet; Royalston, 1,686 feet; Montague, 2,187 feet; Ordway's Mills, 923 feet; Templeton, 632 feet; Wendell, 1,002 feet; Athol, 242 feet; making in all a distance of two and fifty-eight hundredths miles.

At Athol, Baldwinville and Erving, the waterworks have been greatly enlarged and improved. Many other improvements have also been made, and a considerable amount of work has been done in reducing and improving the grade of the road in various places.

Considerable expenditures will be necessary, during the coming year, for a second track over a part of the Vermont and Massachusetts Railroad, for an increased equipment, and for other purposes.

We are fully aware that many railroad corporations have developed their roads during the past few years altogether too much for their own benefit, upon an expected but not realized increase of traffic. Our case however, is different, and our

additions are made with the certainty of a large and constantly increasing business seeking our line.

The decrease in the number of passengers carried and the receipts therefrom, is due to the general decline in travel, and to the diversion of passengers to visit the exhibition at Philadelphia,—our road being almost entirely off the line of such travel; also to the fact that in April, 1875, many thousand people passed over our road to visit Concord on the occasion of the centennial celebration.

The local tonnage and receipts have diminished; but the increased quantity of through freight has not only made up the deficiency, but considerably increased the total freight tonnage and receipts.

The entire gross earnings from passengers, freights, U. S. mails, express business and rent of property, compared with the like earnings of 1875, have increased $49,156 41. A large comparative decrease has also been made in the operating expenses; the total miles run have increased 177,680, or nearly 18 per cent, while the expenditures have increased only $3,336 87.

Rents and interest paid during the year have increased $38,002 38; making a total increase in expenditure of $41,339 25.

The net earnings, exclusive of all premiums, are $7,817 16 in excess of the same earnings last year, and considering the great and long-continued depression of all kinds of business, and the entire or partial stoppage of the factories upon our line, which has greatly diminished our most profitable business, the results of the year we believe must be satisfactory, and increase your confidence in the strength and value of your investment.

The Shawmut Elevator Company have erected a storage and transfer elevator upon Constitution Wharf in Boston, with a capacity of one hundred thousand bushels, which is connected with our road by the Union Freight Railway, and our company has agreed to give the said Elevator Company, a certain part of the western grain for export which comes over the line.

The Hoosac Tunnel, and Troy and Greenfield Railroad, have been so far completed that the State has taken possession of the same, and our passenger trains commenced running regularly through the Tunnel to North Adams on the 10th of July last, and on the 17th of the same month through connections were made for all points West, via the New York Central Railroad.

The track of the State road is laid mostly with steel rails, and is now generally in fine order and condition.

It was feared at first that our passengers might be disturbed by smoke in passing through the Tunnel; but experience has shown it to be entirely free from smoke, dust or any annoyance whatever.

We have transported during the year, 72,714 passengers and 217,963 tons of freight over the Troy and Greenfield Railroad, and have paid the State and contractor tolls for the use of the road, on passenger business, $25,525 12, on freight business, $59,542 48, amounting to $85,067 60. The total gross receipts from the freight business over the whole line from North Adams to Boston have amounted, including tolls, to $268,824 32.

Exclusive of freight east of the Tunnel, we have carried through the Tunnel 176,719 tons of east bound, and 18,071 tons of west bound freight, or in all, 193,790 tons; of which 82,189 tons were to and from Buffalo, Suspension Bridge, and points east of those places, and the remaining 111,601 were Western freight, so called.

To perform this additional business we have run many thousand miles with freight trains, and with any reasonable transportation charges it would have been quite profitable; the extremely low rates however, which have prevailed for western business during the last six months have not rendered it desirable; still, taking the whole business together, it has not materially affected our net income.

With proper freight charges and the additonal business which must come over this line, we are confident that you will soon realize a proper return on the large outlays which have been made on account of the Tunnel line.

### Brattleboro' and Whitehall Railroad.

At an adjourned meeting of the proposed Brattleboro' and Whitehall Railroad, held in Brattleboro', Vt., on the 17th inst., S. M. Waite, President of the West River Railroad Corporation, presided, prefacing his remarks with a personal contribution of $3000. He was confident that the remaining $47,000 which Brattleboro' was asked to subscribe would be forthcoming.

B. D. Harris one of the principal advocates of the contemplated project, explained many advantages to be derived from such a route, giving statistics carefully compiled by Civil Engineer Haven of Rochester, who had made a preliminary survey. He stated that the road could be built for $1,389,000 and equipped for about $15,000 per mile being one-half less than the cost of a standard gauge. The distance of the proposed route is 87½ miles, which, if prolonged to Boston over what is known as Col. Crocker's projected line, would make the shortest route between the lakes and the seaboard, saving between 80 and 90 miles from Whitehall to Boston, besides opening one of the richest granite quarries in New England.

Judges Stoddard and Howard of Townsend expressed their opinions that their town would be found among the first to bond in aid of the road which was absolutely necessary for their resuscitation and to check the downward tendency of their industries.

Messrs. Butler and Holton of Jamaica, Martin of Londonderry, Read of Pawlet, Taylor of Ropert, Greer of Newfare and Osgood of Brookline said that their towns would undoubtedly confirm and ratify a previous vote in aid of a proposed road to Jamaica under the charter of seven years ago.

Prominent citizens of Brattleboro' spoke in favor of the road and a committee was chosen consisting of C. K. Field, E. Crosby, Charles A. Davenport, S. M. Waite and C. F. Thompson to solicit subscriptions in aid of the same, and report to a meeting to be held at the Brooks House February 1, when it is hoped that a permanent organization will be formed.

### Philadelphia and Reading Railroad.

The offices of first and second vice president and general superintendent of this company have been discontinued by order of the president. Mr. John E. Wooten, who has for several years filled the office of general superintendent on the line of the road, will hereafter be the general manager, with his office at the general office of the company in Philadelphia, where and to whom all departments except those of the treasurer and chief engineer will report. There is to be a superintendent of transportation, to have charge of all train service on the main line and branches. Mr. T. C. Zulick is appointed superintendent of canals. The chief engineer will discontinue the office of principal assistant engineer and the general roadway office at Pottstown, and divide the territory of the company into five residencies, each under the charge of a resident engineer. Transportation and roadway paymasters' offices will be annexed to the treasurer's department. These movements and changes are all in the line of greater economy of management, as suggested in the annual report of the managers.

### Ohio and Mississippi Railroad.

A dispatch to the Baltimore Sun from Indianapolis states that: "Daniel Torrance and John King, jr., receivers of the Ohio and Mississippi Railroad, filed their first report in Judge Gresham's court on the 16th inst. The report covers the period since their appointment, from November 18th to December 31st, inclusive, from which it appears that the total receipts of the road in that time were $545,869 72. It further appears from the report that all debts contracted for labor prior to their appointment have already been paid. It is understood that within a few days application will be made to Judge Gresham for permission to declare a dividend of 25 per cent upon all supply bills contracted prior to the appointment of King and Torrance out of the surplus earnings in their hands after defraying operating expenses. They have issued a circular to that class of creditors to present their claims to the court for payment. The net receipts under the present management, notwithstanding heavy outlays for repairs, will show a very favorable result. In connection with several prominent creditors of the company it was learned that the present management is satisfactory to them, and that they are not in sympathy with the movement of stockholders to change the receivership."

☞ The directors of the New York, New Haven and Hartford Railroad Company, recently elected, are: William D. Bishop, Edward M. Reed, Wilson G. Hunt, George N. Miller, Chester W. Chapin, A. R. Van Nest, Henry C. Robinson, E. H. Trowbridge, Nathaniel Wheeler, C. M. Pond, Augustus Schell, George H. Watrous, W. H. Vanderbilt.

☞ A. F. Smith, of Norwich, Conn., has been elected President, G. L. Perkins Treasurer, and Edward T. Clapp Secretary of the Norwich and Worcester Railroad Company. The directors are: A. F. Smith, John F. Slater, F. H. Dewey, Geo. W. Gill, Chas. W. Smith, Edward L. Davis, Robert Bayard, and Wm. F. Weld.

### Finances of Maine.

According to the Annual Message of the Governor of Maine to the Legislature, the receipts of the Treasury for the year 1877 amount to $1,810,-605 49; the expenditures for the year were $1,-293,277 06; balance in treasury Dec. 31, 1876, $394,422 27. The public debt has been reduced by the payment of $29,000 of matured bonds and the addition of $114,681 to the sinking fund. The State debt less the sinking fund amounts to $5,-129,107. Gov. Connor suggests that the issue of bonds at a lower rate of interest to redeem the bonds of 1880 at maturity be postponed for two years;

In relation to the railroads of the State it is suggested that the companies be required by law to keep their accounts as recommended by the Railroad Commissioners of New England. Twenty miles of new road have been opened within the year—eight miles by the extension of the Bangor and Piscataquis Railroad to Blanchard, and twelve miles by the Aroostook branch of the New Brunswick road from the State line through Fort Fairfield to Caribou village.

### Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of December, were:

ENTERED FOR CONSUMPTION.

| | 1875. | 1876. |
|---|---|---|
| Manufactures of wool... | $476,763 | $499,962 |
| " cotton.. | 471,153 | 838,824 |
| " silk .... | 636,267 | 916,184 |
| " flax .... | 269,540 | 421,248 |

| Total entered at the port. | $3,341,244 | $4,174,429 |

The imports of foreign dry goods at New York for each month of the years 1875 and 1876, were as follows:

| | 1875. | 1876. |
|---|---|---|
| January.. .... .... .... | $8,939,914 | $8,000,537 |
| February..... .... .... | 12,710,963 | 13,228,859 |
| March .... .... .... .... | 14 918,888 | 9,508,934 |
| April .... .... .... .... | 7,504,691 | 6,115,507 |
| May .... .... .... .... | 5,943,328 | 3,561,175 |
| June..... .... .... .... | 5.963,772 | 3,829,485 |
| July..... .... .... .... | 6,991,740 | 5,092,436 |
| August .... .... .... .. | 14,091,640 | 9,582,237 |
| September .... .... .... | 8,264,468 | 6,478,999 |
| October.... .... .... .. | 5,795,141 | 5,327,377 |
| November.... .... .... | 5,330,236 | 5,871,188 |
| December.... .... .... | 3,341,244 | 4,174,429 |
| Total.... .... .... | $99,816,025 | $80,716,163 |

The following will show the relative proportion of the different classes of fabrics:

| | 1875. | 1876. |
|---|---|---|
| Manufactures of wool... | $20,724,062 | $21,978,068 |
| " cotton. | 21,057,960 | 16,659,631 |
| " silk ... | 25,959,430 | 23,087,289 |
| " flax ... | 13,458,699 | 11,697,283 |
| Miscellaneous dry goods | 8,615,874 | 7,313,943 |
| Total, as above. .... | $99,816,025 | $80,716,162 |

The value of foreign dry goods entered directly for consumption at the port of New York, is as follows:

| | 1875. | 1876. |
|---|---|---|
| January... .... .... .... | $6,073,669 | $5,498,182 |
| February.. .... .... .... | 10,015.836 | 9,321,134 |
| March.... .... .... .... | 10,715,353 | 6,722,425 |
| April .... .... .... .... | 5,525,829 | 4,059,972 |
| May .... .... .... .... | 4,349,426 | 2,592,827 |
| June.. .... .... .... .... | 3,928,745 | 2,813,221 |
| July .... .... .... .... | 4,110,595 | 3,494,779 |
| August ... .... .... .... | 10,032,989 | 6,533,273 |
| September .... .... .... | 5,992 334 | 4,664,259 |
| October... .... .... .... | 4,128,327 | 4,686,897 |
| November .... .... .... | 3,595,863 | 3,990,092 |
| December. .... .... .... | 2,124,795 | 2,996,681 |
| Total. .... .... .... | $70,593,762 | $56,778,692 |

The valve of foreign dry goods entered for warehousing at the port of New York, is as follows:

| | 1875. | 1876. |
|---|---|---|
| January... .... .... .... | $2,866,245 | $2,502,355 |
| February.. .... .... .... | 2,695,127 | 3,907,725 |
| March.... .... .... .... | 4,233,535 | 2,786,509 |
| April. .... .... .... .... | 1,978,862 | 2,055,535 |
| May . .... .... .... .... | 1,593,602 | 968,348 |
| June.. .... .... .... .... | 2,025,027 | 1,016,264 |
| July . .... .... .... .... | 2,881,144 | 1,597,657 |
| August ... .... .... .... | 4,058,651 | 2,998,964 |
| September .... .... .... | 2,272,134 | 1,809,740 |
| October... .... .... .... | 1,666,814 | 1,240,480 |

| December. .... .... .... | 1,216,449 | 1,177,798 |
| Total. .... .... .... | $29,222,268 | $28,942,471 |

The value of foreign dry goods withdrawn from warehouse at the port of New York, is as follows:

| | 1875. | 1876. |
|---|---|---|
| January... .... .... .... | $2 775,186 | $2,179,466 |
| February . .... .... .... | 4,135,624 | 3,630.459 |
| March.... .... .... .... | 3,344,518 | 2,822,862 |
| April. .... .... .... .... | 2,467,108 | 2,344,458 |
| May .. .... .... .... .... | 1,604,020 | 1,674,040 |
| June.. .... .... .... .... | 1,347,878 | 1,430,345 |
| July . .... .... .... .... | 2,000,169 | 965.636 |
| August ... .... .... .... | 3,932,469 | 3,137,255 |
| September .... .... .... | 2,943,995 | 2,706,059 |
| October. .... .... .... .... | 1,937,603 | 1,522,357 |
| November .... .... .... | 1,564,815 | 1,144,008 |
| December. .... .... .... | 853,387 | 1,049,433 |
| Total. .... .... .... | $28,906,752 | $24,606,323 |

The total imports of foreign dry goods at New York from 1849, compare as follows:

| Year. | Invoiced value. | Year. | Invoiced value. |
|---|---|---|---|
| 1849 .... | $44,486,571 | 1863.... | $67,274,547 |
| 1850 .... | 60,106 375 | 1864.... | 71,589,752 |
| 1851 .... | 62,846,731 | 1865.... | 91,965,138 |
| 1852 .... | 61,654,144 | 1866.... | 126.222,855 |
| 1853 .... | 93,704,211 | 1867.... | 86,263,643 |
| 1854 .... | 80,842,986 | 1868.... | 80 905,834 |
| 1855 .... | 64,974,062 | 1869.... | 94,726,417 |
| 1856 .... | 93,362,893 | 1870.... | 109,498,523 |
| 1857 .... | 90,534,129 | 1871.... | 132,480,777 |
| 1858 .... | 60,154,509 | 1872.... | 136,831,612 |
| 1859 .... | 113,152,624 | 1873.... | 114,160,465 |
| 1860 .... | 108 927,100 | 1874.... | 106,520,453 |
| 1861 .... | 43,636 689 | 1875.... | 99,816,025 |
| 1862 .... | 56,121,227 | 1876.... | 80,716,163 |

☞ The Levis and Kennebec Railroad has closed for the winter, the traffic being insufficient to warrant the expense of keeping the road clear.

### Canal Propulsion.

There has been fitted up in the basement of the Produce Exchange in this city a miniature canal basin filled with water, where the inventor of a motor recently exhibited to a committee from the Produce Exchange and the Cheap Transportation Association a model of a canal-boat fitted up with a motor, which he styles "direct propulsion." The invention is unlike anything that has ever been proposed on this subject, and does not work in the water but on land. The bow of the "Canaller" is fitted with an engine, occupying on a large boat a space of about six square feet. From the engine shaft project two universal joints, carried in trunnions which allow the attachment to be raised or lowered and turned in every direction. A flat, punched rail is laid on the banks of the canal, and on the end of the shaft a pinion wheel, supplied with cogs, is fastened, the cogs fitting in the rack of the rails. At every turn of the shaft the cog "bites" into the rack hole, and in this manner the boat is forced ahead or backward, as it pleases the engineer. A shaft or boom is also fastened at the rear end of the boat, also having a pinion attached to the end, without the cog, however. This is used merely to keep the boat steady and in place, which is about twelve inches from the bank of the canal. A crane, worked with ropes, is attached to the forward shaft, and is used to shift the propelling shaft "in bow" while the boat is passing through locks.

### Pittsburg and Northwestern Railroad.

In a letter from New York received at the Allegheny office of the Pittsburg and Northwestern Railroad, the writer, Secretary Pearce, states that he has closed matters with Messrs. Lowe & Culver, who have signed contracts for building the above road. The above gentlemen will return from New York during the week, with Mr. Pearce, and steps to let contracts will be taken immediately. It is the purpose of these capitalists to build and operate ten miles of the new road before asking for aid in completing the line. Mr. Pearce stated to a representative of this paper, that the managers and owners of the Parkers, Karns City and Butler narrow gauge road promised to extend their existing line down the Connoquenessing valley to Harmony, so soon as the assurance was received that the Pittsburg and Northwestern people would build to the same point.

We also learn of a contract just let to H. B. Weiss, of Weiss & Brittan, who built part of the Pittsburg and Northwestern Railroad. The new narrow gauge begins at Chagrin Falls in Northern Ohio, and runs south to the P., F. W. & C. R. R. at or near Canton, some sixty miles from the beginning. This contract was let by the Painesville, Canton and Bridgeport Railroad (narrow gauge) and it is the intention to push this line to Bridgeport, opposite Wheeling. The contract price in the first instance is between ten and twelve thousand dollars per mile. In fact, the narrow gauge seems the road for the present hard times.—*Pittsburg Chronicle.*

☞ Messrs. H. Burden & Sons, of Troy, N. Y., exhibited at the Centennial Exhibition, Government patterns and swaged pattern horse and mule shoes, and samples of iron bent cold. Mr. Burden has been a prolific inventor, but his greatest achievement was the machine for making horse shoes, patented in 1857, the products of which were exhibited. It was extensively used for the manufacture of horse shoes for the Government during the war. It produces from the iron bar 60 shoes per minute.

### New York Elevated Railroad.

By authority of the Committee on Stock List of the New York Stock Exchange $1,500,000 of the capital stock and $1,730,000 of the first mortgage bonds of the New York Elevated Railroad Company have been admitted on the free list. In their application to the committee the company state that the length of road authorized on Manhattan Island is about twenty-four miles double track, viz: west side, from Battery place to Kingsbridge, thirteen and a half miles; east side, through Battery to Harlem River, via Front, Pearl, Bowery and Third avenue, ten and a half miles. The company also has the right by charter to extend the surface road to Yonkers. The length of road and sidings now completed and being worked is as follows:

| | Miles. |
|---|---|
| Main line from Battery place through Greenwich St. and Ninth Ave. to Sixty-first St., single track | 5 |
| Sidings along the same making a double track | 2 |
| Completed and in operation | 7 |
| South Ferry extension one-quarter of a mile, three tracks, nearly completed, the foundations being all in, and the superstructure on hand, ready for erection | ¾ |
| Substantially completed | 7¾ |

The company have 14 stations, 16 locomotives and 34 passenger cars. The liabilities are:

| | |
|---|---|
| Capital stock paid up | $1,050,000 |
| Bonds sold | 1,000,000 |
| Floating debt | 412,000 |
| To complete the road through the Battery to the South Ferry, estimated | 30,000 |
| Total | $2,442,000 |

The company now propose to issue in addition to what has been heretofore placed, $450,000 of its capital stock, and $730,000 of its bonds, for the purpose of paying its floating indebtedness and for other purposes, making in bonds, including those already sold, $1,730,000, and in stock, $1,500,000. Bonds numbered from 1 to 1,730 inclusive.

### Steel Experiments in Russia.

It is proverbial in Sheffield and other centres of steel production and manipulation, both at home and abroad, that much remains to be learned in relation to the real character of that material. There are, in fact, phenomena and peculiarities observable about it while in process of conversion and refinement which baffle the judgment of the most practiced operators to understand. The same results by no means follow the same modes of treating steel in its gestatory stages, and the best makers freely admit that they cannot guarantee to supply in continuity steel of uniform grain and texture. In the midst of this uncertainty a Russian experimenter on steel has stepped forward with a valuable contribution in reference to it. Mr. Chernoff, the gentleman in question, published lately at St. Petersburg a pamphlet on the whole subject, and Mr. Anderson, of the Erith Iron Works, has ably translated it into English. The author states that "if steel melted in a crucible is constantly kept in violent agitation while cooling—agitation violent enough to keep all its particles in motion—then the cold ingot produced will have a very finely crystallized structure; if, on the other hand, the steel is allowed to cool in perfect quiet, then the resulting casting will consist of large well developed crystals. The appearance of these crystals, and generally the tendency to crystallize under such circumstances, will depend on the purity of the steel." Starting from this remarkable, but apparently well established base, Mr. Chernoff concludes that liquid steel really obeys all the laws which regulate the crystallization of fluids. It is probable that chemists, at least, will agree to the truth of this deduction, for they know that if they wish to obtain crystals from a solution the latter must be kept in perfect quiet. The author of the pamphlet asserts, too, that in the course of his long-continued series of experiments, he has discovered that steel, when heated above a certain temperature, as to a dark cherry red, loses its crystalline structure and becomes amorphous. If, again, from this point it be allowed to cool undisturbed, it will become once more crystalline, unless it be hammered during the evolvement of heat from it, when its fracture will exhibit its amorphous tendencies once more, and present a fine silky texture. We commend these facts of Mr. Chernoff to the notice of the steelmakers generally of this country. From that gentleman's statements it appears that he has devoted many years of studious labor to an elucidation of the numerous occult causes which have rendered steel so difficult a substance to deal with, and it is certain that his exertions have not been misapplied.—*London Echo.*

### Atchison, Topeka and Santa Fe Railroad.

On the 16th of June, 1874, an act of the National Legislature forbade payments to land grant roads for transportation, except on a judgment of the Court of Claims. The Atchison, Topeka and Santa Fe Railroad Company brought suit to recover $69,500 for transportation from April 1, 1874, to April 1875. The suit was allowed to go by default against the company in order to bring it immediately before the Supreme Court of the United States, who have now decided that the land grant roads are not bound to transport the troops and property of the United States free of charge by reason of the land grant—that they are only to allow the free use of their tracks to Government in return for the grants—that they are entitled to compensation for all the transportation they have performed, subject to fair deduction. All mail service is by special contract and does not come within the jurisdiction of the Court. The Railroad is considered a public highway and open to the use of the public in their own vehicles—that the meaning of the law is that the Government shall have the right to use the road, but not that it shall have the right to require its transportation to be performed by the company without compensation. The road has a further claim for $125,000 for transportation since April 1, 1875, which, according to law, must be brought before the Court of Claims, without whose authority nothing can be paid. During the past year the Atchison, Topeka and Santa Fe has fairly and squarely earned all the interest it has paid, besides keeping up the road, so that its condition is in every respect as good or better than it was at the beginning of the last year.—*Boston Journal.*

☞ At the annual meeting of the Poughkeepsie Bridge Co., held in Poughkeepsie, N. Y., on the 12th inst., the following gentlemen were elected directors: A. B. Stone, of New York; H. G. Eastman, of Poughkeepsie; George Innis, of Poughkeepsie; George F. Wilson, of Providence, R. I.; John G. Clark, of Boston, Mass.; Albert Thompson, of Boston, Mass.; Charles L. Perkins, of New York; E. L. Bowles, of New York; William L. Thompson, of New York; Homer Ramsdell, of Newburg, N. Y.; J. H. Appleton, of Springfield, Mass.; F. M. Allyn, of Hartford, Conn.; John F. Winslow of Poughkeepsie.

☞ The St. John (N. B.) News says that the contract for building the railway terminus at the Ballast wharf has been awarded to Mr. J. T. Kennedy, and his sureties have been accepted by the Government. According to agreement the work will cost $174,000.

### Boston, Wrentham and Providence R. R.

At a meeting of gentlemen interested in what has hitherto been known as the Boston and Providence Narrow Gauge Railroad Co., held in Boston on the 19th inst., it was voted to change the name of the company to the Boston, Wrentham and Providence Railroad Company. The engineer gave his estimates for the entire cost of the road, amounting to $865,967 15, including terminal facilities. A committee, consisting of several gentlemen, and including Hon. George F. Verry of Worcester, President, and Charles Rollins of Boston, Vice President, was appointed to aid in obtaining a charter from the Rhode Island Legislature from Valley Falls to Providence. A committee was also appointed to confer with the Mystic Valley Railroad Associates, and parties interested in the Newton and Waltham projected narrow gauge railroads, relative to union terminal facilities, consisting of Charles Rollins, Vice President, Thomas Proctor and Henry Blanchard.

### Duxbury and Cohasset Railroad.

At a meeting of the town committees on the Duxbury and Cohasset Railroad, held in Boston on the 17th inst., after a full discussion of the interests involved, it was voted that H. W. Nelson of Mansfield, H. B. Meglathlin of Duxbury, and George Stearns of New Bedford, be a committee to whom shall be committed the interests of the towns of Mansfield, Duxbury and Plymouth in the Duxbury and Cohasset Railroad Company, and if by them deemed advisable, secure an investigation of the affairs of the Duxbury and Cohasset Railroad by the Railroad Commissioners or by the Legislature, in relation to the letting of the contracts for construction of the road, the manner of operating the road, and its financial condition; and to take such other steps as the interests of the respective towns shall render expedient.

☞ The board of directors of the Philadelphia, Wilmington and Baltimore Railroad Company resolved at their late meeting to pay the tax of one-half of one per cent on the gross receipts of that portion of the road between Baltimore and the Susquehanna river, in accordance with the decision of the Court of Appeals. The tax is levied under the act of 1872, which exempts all other State taxes to the road paying the tax on gross receipts.

☞ Articles of incorporation of the City Railroad Company of Santa Cruz have been filed with the Secretary of State of California. Capital, $10,000, in shares of $1 each. Directors—William Effey, John Werner, George Otto, E. Foster and John Brazer. The principal place of business will be in Santa Cruz.

☞ A dispatch from Portland, Oregon, says that a report is being circulated on good authority that General Sprague, superintendent and managing director of the Pacific Division of the North Pacific Railroad has resigned his position, and that John W. Brazee has been appointed his successor.

☞ The Alabama and Chattanooga Railroad was sold at Mobile, Ala., on the 22d inst. It was bought by Judge Graidney for the holders of receiver's certificates and other claimants on the fund.

# American Railroad Journal.

**Saturday, January 27, 1877.**

### Financial and Commercial Affairs.

A buoyant tone was imparted to the speculation on the Stock Exchange by the report to both houses of Congress, of the joint Electoral Committee, by which assurance seemed to be afforded that the controversy respecting the result of the late Election for President of the United States would reach an early and peaceful conclusion; but it had no very long continuance. Transportation throughout the North and West continues to be greatly impeded by the recent heavy falls of snow, and thus a serious inroad is made upon railroad earnings, while floods and bad roads have a similar effect in the South and West. An article in a Philadelphia paper inveighing very hotly against another "coal combination," and demonstrating its impracticability, contributed to the depression in the shares of the "coal roads." The absence of the usual investment demand has, in conjunction with reduced earnings, caused some weakness in railroad bonds. On Wednesday, prices were generally steady for railroad shares, except the coal roads, which declined sharply under the unfavorable result of the public sales of coal; 200,000 tons being sold at some decline from last month; and rumor assailed the financial position of one of the companies. It is probable, however, that the obstacles to transportation were the chief cause of the low prices of coal.

The Money market has continued to work easy, though very little further decline in rates can be quoted. The bank statement was much the best we have had for some time, the effective legal tender reserve getting another increase of on per

cent. The amount of legal tenders increased over three million dollars. The closing rate for call loans are 5@6 per cent., and first class paper is discounted at about the same rates.

Gold opened on Wednesday at 106¼, and closed at 106, the extremes of the day. The more peaceful advices from Constantinople had a depressing influence. Exports continue large, and for the week ending Jan. 24th were valued at $6,275,186 against $5,610,596 for the corresponding week last year; and $23,818,502 since Jan. 1st, against $19,842,341 for the corresponding period last year. Exchange is firmer, and prime 60-day bills closed at $4 83@$4 84.

Government bonds have been active, considerable effort having been made to stimulate transactions, but the course of prices is irregular, closing on Wednesday, as follows:

United States currency sixes, 123¼@123½; do. 6s, 1881, registered, 114⅛@114⅜; do. coupon, 114⅜@114½; do. 1865, registered, 109⅛@109⅜; do. coupon, 109⅛@109¼; do. new, registered, 110⅝@110⅞; do. coupon, 110⅝@110¾; do. 1867, registered, 113⅝@113⅞; do. coupon, 113⅝@113¾; do. 1868, registered, 117⅛@117½; do. coupon, 117⅛@117½; do. ten-forties, registered, 113⅝@113⅞; do. coupon, 113¾@114; do. five twenties, 1881, registered, 111@111¼; do. coupon 112⅛@112⅜; do. four and one-halfs, 1891, registered, 107⅜@108⅛.

General trade continues comparatively slow, but there is every prospect of an early improvement, when the difficulties to local and railroad transportation shall have been removed. Speculation has continued dull except in Cotton, which is higher.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

**Redemption of Five-Twenty Bonds.**

The Secretary of the Treasury on the 24th inst. issued the thirty-eighth call for the redemption of 5-20 bonds of 1865, May and November. The call is for $10,000,000, of which $7,000,000 are coupon bonds and $3,000,000 registered bonds. The principal and interest will be paid at the Treasury on and after the 24th day of April next, and the interest on the bonds will cease on that day. The following are the descriptions of bonds:

Coupon Bonds—$100, Nos. 21,351 to 25,508, both inclusive; $500, Nos. 26,701 to 31,500, both, inclusive; $1,000, Nos. 62,401 to 70,550, both inclusive.

Registered Bonds—$50, Nos. 301 to 400, both inclusive; $100, Nos. 4,501 to 5,300, both inclusive; $500, Nos. 3,251 to 3,600, both inclusive; $1,000, Nos. 12,001 to 13,350, both inclusive; $5,000, Nos. 4,751 to 5,100, both inclusive; $10,000, Nos. 8,201 to 9,300, both inclusive.

**Boston, Barre and Gardner Railroad.**

The annual report of this corporation shows that the receipts for the year ending Sept. 30, 1876, were $158,476 and the expenses $120,502; surplus $37,978. The largest increase in tonnage has been in connection with the Tunnel line. The road forms 26 miles of this line, and is compelled to adopt the rates established by the other lines to the same competing points, or give up the business. The tariff rates since June have not been paying rates. Low rates from Boston affect equally the business of Worcester, as the rates are the same as from Boston to all Western points. When the tariff rates from Boston are restored from a ruinous to a healthy competition the business from Worcester will again be a paying business. There remains about a quarter of a mile of track to be put down in Winchendon to complete the road.

**Delaware Railroad.**

The gross earnings of this road for the year ending October 31, 1876, were $392,078; operating expenses, $274,355; dividends, being six per cent. on the capital stock, $137,153—leaving a net deficit of $19,530. The sinking fund on the 1st of January, 1876, amounted to $183,559 40. Of this amount $170,000 has been used to pay the bonds loaned by the State of Delaware, and $5,100 to pay the interest due on same. The sinking fund on the 1st of January, 1877, after paying the above amounts and calculating additions made during the year amounted to $26,496 15. S. M. Felton was re-elected president and M. Hayes secretary.

**Central Railroad of New Jersey.**

The subjoined statement of the business of the Central Railroad of New Jersey for the year 1876, which was presented at a recent meeting of the directors, compares with the report for 1875 as follows:

| | 1875. | 1876. |
|---|---|---|
| Gross earnings | $7,411,686 | $7,322,000 |
| Operating expenses | 4,320,997 | 3,684,000 |
| Net earnings | $3,029,689 | $3,638,000 |
| Interest, taxes, and lease of the Lehigh and Susquehanna Railroad and canals | 1,993,063 | 3,167,000 |
| Surplus | $1,097,576 | $471,000 |

☞ A large meeting of the citizens of Frederick county, Va., was held at Winchester on the 15th inst. to take steps looking to the extension of the Martinsburg and Potomac railroad from Martinsburg to Winchester. A committee was appointed to solicit subscriptions to the capital stock of the company, and a resolution was unanimously adopted recommending to the board of supervisors of Frederick county and the common council of Winchester, that a subscription be made of not less than $10,000 per mile from the Berkeley line to the town of Winchester, the amount of such subscription to be expended within the limits of Frederick county.

☞ At a meeting in Philadelphia on the 18th inst., of the persons on whose account the Wilmington and Reading Railroad was recently purchased, a new corporation to operate the road was organized. The name of the road was changed to the Wilmington and Northern Railroad. Robert Frazer was elected President of the new company.

☞ The transfer of the Valley (Va.) Railroad has now been fully completed, and the road placed in the hands of its own company. Every facility was afforded by the Baltimore and Ohio Railroad Co., which furnished the necessary rolling stock, and the change was effected without the delay of a single train. A daily train is run each way from Harrisonburg to Staunton, making regular connections, and accommodation trains, for freight and passengers, run three times a week. President P. P. Pendleton, under whose personal supervision the arrangements were made, says that the prospects are encouraging and the people along the line express themselves as well satisfied with the action of the company.

☞ Messrs. Bradlee & Co., of the Empire Chain Works, made a fine exhibit of heavy chains at the Centennial. They have furnished the Pacific Mail and American Steamship Companies' vessels, and all larger American built ships with cables, and have received an award for ships' cables and crane chains. Among the exhibits was a section of marine railway chain, each link of which weighed 98 pounds. The diameter of the iron was 2¼ inches, and the chain would sustain a weight of 250,000 pounds, and would lift 500,000 pounds. A chain of this description is in use on a railway in Baltimore, and is the largest chain ever made in this country. At the works Bradlee & Co. have a hydraulic testing machine of 125 tons capacity.

☞ At the annual meeting of the Woodstock Railroad Company, held at Woodstock, Vt., on the 10th inst., the old board of directors was re-elected. The income from the road for the year ending Sept. 20, 1876, was $21,994 47. This was the first year the road has run, and the amount received was more than its friends anticipated in the depressed condition of the business of the country. The road is 14 miles in length. Number of passengers carried, 15,288; number of tons of freight transported, 6614.

☞ At a recent meeting of the directors of the Central Vermont Railroad Company at St. Albans, Vt., it was voted to lay their entire line with steel rails. Five thousand tons have already been ordered to lay on the opening of spring. It is intended to make the line second to none in the country for safety and comfort, and yet other improvements are contemplated.

☞ Messrs. Fisher & Norris, of Trenton, N. J., had at the Centennial Exhibition a pyramid of steel-faced anvils and vices, from miniature anvils for watch-makers and jewelers to anvils and blocks of 500 or 600 pounds weight. They also exhibited broken samples, to show the weld of iron and steel.

☞ The Baltimore Sun says that holders of over $4,000,000 of the bonds of the Ohio and Mississippi Railroad Company, in addition to a large amount of the stock, have signed in favor of the retention of Mr. King as one of the two receivers, no matter who may be the other one.

☞ The Cincinnati Southern Railroad lacks only thirty-five miles of being entirely graded from Cincinnati to Chattanooga. A tunnel, 2525 yards long, has just been completed through solid limestone.

Office of FISK & HATCH, 5 Nassau St.,
New York, Jan. 16th, 1877.

The demand for Government Bonds for investment is now more general and widespread, among all classes, than at any previous period for a long time. To meet the numerous inquiries from intending investors for information on the subject, we have published, for gratuituous distribution, a new and revised edition of our "Memoranda Concerning Government Bonds," copies of which may be had upon application.

☞ Holders of the Five-Twenties recently called in, maturing April 10th, who desire to re-invest the proceeds, can receive their full value in cash, or in exchange for other Government Bonds, at our office.

FISK & HATCH.

☞ At the annual meeting of the Bleecker Street and Fulton Ferry Railroad Company held on the 19th inst., the following officers were elected for the ensuing year: Directors, John T. Conover, Jacob Sharp, Ebenezer Beadleston, William M. Shardlow, Thurlow Weed, Sheridan Shook, Lewis May, Thomas B. Kerr, David J. King, Samuel B. H. Vance, Joseph Jacobs, H. Ph. Goldschmidt, and John H. Murphy; Inspectors, Hendereon Moore, Jonathan Jones, and John W. Vandewater.

☞ A dispatch dated Los Angeles, Jan. 12th, says: "Mr. Harris will arrive to night or to-morrow with a train of thirty-one cars containing Chinamen, tools and construction material to push the Southern Pacific Railroad from Indian Wells to the Colorado river. Two thousand men will be to work at the end of the track, which will be laid at the rate of two miles per day."

☞ According to the Message of the Governor, the balance in the State Treasury of Rhode Island April 30, 1876, was $396,185; receipts to Nov. 30, 1876, $259,896; payments, $671,858; amount in the treasury Jan. 4, 1877, $296,442; State bonded debt, $2,568,500; sinking fund, $890,745.

☞ At a recent meeting of the directors of the Baltimore and Ohio Railroad Company, it was resolved that the officers of the company be empowered to negotiate a loan in England of £1,000,000 on the Chicago division of the road.

☞ The corporators of the George's Creek and Cumberland Railroad Company have elected Dr. G. E. Porter president, and Charles Robb secretary and treasurer.

☞ Hon. John Cessna has been elected president of the Bedford and Bridgeport Railroad.

### The Coal Trade.

The total tonnage for the week ending on the 13th instant, as reported by the several carrying companies, amounted to 245,320 tons, against 212,989 tons in corresponding week last year, an increase of 32,331 tons. The total amount of anthracite mined for the coal year is 1,045,659 tons, against 1,048,885 for same period last year, a decrease of 3226 tons. The quantity of bituminous coal sent to market for the week was 22,708 tons, against 28,037 tons for corresponding week last year, an increase of 14,671 tons. The whole bituminous tonnage from the beginning of the coal year is 102,625 tons, against 98,970 tons in corresponding time last year, an increase of 5755 tons. The total tonnage of all kinds of coal for the week is 288,028 tons, against 241,026 to corresponding date last year, an increase of 47,002 to s, and the total tonnage for the coal year is 1,148,284 tons, against 1,145 755 tons to same date last year, an increase of 2529 tons. Shipments from Port Richmond are virtually at an end, the river being very effectually choked with ice. The receipts at Perth Amboy for the week ending on the 13th instant were 16,572 tons, the shipments 6246 tons, leaving a stock on hand of 111,083 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 92,761 tons, of which 74,016 tons were coal, and 18,745 tons coke. The total carried this year is 4,750,368 tons, of which 3,854,448 were coal, and 786,361 coke. This total embraces all the coal carried over the road east and west.—Phila. Ledger, Jan. 22.

☞ Bids for the Geneva Award Bonds, covering the entire amount of $307,000, were opened at the Treasury on the 22d inst. They were three in number, from August Belmont & Co., Drexel & Co. and the First National Bank of New York, and ranged from 104.01½ to 104.13.

☞ The Los Angeles Express says there is a project on foot to build a narrow gauge railroad from Mohave to Inyo county, a distance of 100 miles, costing $1,000,000, or $10,000 a mile.

☞ Interior lines of railway are to be commenced in Japan early this year.

☞ Get a WAKEFIELD EARTH CLOSET at No. 25 New Church St., N. York. Send for circular.

# THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

## ELECTRIC BATTERY.

**Price Only $6.**

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

HENRY C. HOUGHTON, M. D.
HENRY D. PAINE, M. D.

A LIBERAL DISCOUNT TO THE TRADE.

**VETTER & OEHMEN, 369 Bowery, bet. 4th & 5th Sts., N. Y.**

## ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

## American Railroad Journal.

New York, Saturday, February 3, 1877.

### Railroads of Massachusetts.

The Board of Railroad Commissioners in their Eighth Annual Report, just issued, say that for the first time in the history of the State, since the railroad system was inaugurated more than forty years ago, no new railroad enterprise has been commenced during the past year. About twenty miles of additional or connecting track were built by old corporations to complete existing lines. Returns were received from 62 corporations representing the equivalent of nearly 3,836 miles, over 2 830 miles of which is within the borders of the State. The average cost of the standard gauge roads is returned at $58,396 41 per mile and the equipment $6,802 02 per mile; and the cost of the narrow gauge $20,671 62 per mile and $5,543 30 for equipment, the average cost of an equipped road irrespective of gauge is $64,907 18 per mile, varying from $115,457 92 for the Boston and Albany to $12,026 25 for the Martha's Vineyard. These 62 corporations are represented by $169,799,989 30 of securities, of which $118,179,615 03 are in the shape of stock and $51,620,374 27 in different forms of indebtedness. The capital stock has decreased $82,670 87 during the year and the indebtedness $1,784,678 65.

The decrease in indebtedness is only apparent from the fact that materials on hand are for the first time treated as cash, and their appraised value deducted from the gross debt. The total earnings for the year were $31,607,448 32, a falling off of $1,582,037 66 from the previous year, the chief decrease being in the receipts from passengers. Of the year's earnings 44 per cent. were for freights and 46 per cent. for fares. The average sum earned on each mile of main track and branch road operated was $12,508 05, varying from $28,330 per mile on the New York, New Haven and Hartford to $1,737 07 per mile on the Duxbury and Cohasset. The cost of operating was $8,836 40 on each mile of road in use, and consumed 69 per cent. of the gross earnings. The total net income was $9,546,820 80, or 5.6 per cent. on the permanent investment.

The total number of passengers carried was 41,133,229, a decrease from the preceding year of 1,006,442; the number of those traveling on season tickets was 5,918,378, an increase of no less than 844,242 over the preceding year.

The roads moved 48,708,193 more tons of freight one mile last year than during the previous year, and received $581,256 49 less for doing it; and, as compared with 1872-3, they in 1875-6 moved 12,807,876 tons more of freight one mile, and received $3,283,315 54 less for doing it. Of the corporations enumerated 36 paid no dividends, and 26 paid dividends ranging from 1 to 10 per cent., the average on the entire stock of dividend paying roads being 7.5 per cent., or 1 2 per cent. less than the previous year. Four roads paid a 10 per cent. dividend.

As interest, $3,704,698 were paid, and the average rate was in the neighborhood of 7 per cent., being $551,836 more than during the previous year.

The average cost of running a train one mile on passenger service was $0.979 and on freight service $1.064, the average rate on all trains being 8 per cent. less than last year. It appears that 1.754 tons of rolling stock was hauled for each passenger carried and 3.06 tons for every ton of freight. The total mileage of passenger trains was 10,439 856 and of freight trains 9,464,471. The average rate of fare was 2.28 cents per mile and the best estimate that can be made of the average cost of freight is 2.17 cents per mile. The most striking feature of the year's business has again been the extremely low rates at which merchandise has been carried for long distances.

During the year 151 miles of road have been laid with steel rails, making 1,144 out of 3,104 miles or 37 per cent. now laid in steel in the State. The number of telegraph stations has been increased from 498 to 531, or nearly one to every 4.6 miles of road. The rolling stock has been increased about one per cent. and all the standard gauge roads are now equipped with the train brake except the Providence and Worcester and the Boston, Barre and Gardner roads. The number of stations is 1,101, a decrease of 50, and only 2 additional grade crossings are reported. The total number of these is 2,776, and the casualties at them have doubled over what they were during the previous year.

The returns from thirty street railway corporations show a capital stock of $5,664,350 and a debt of $2,832,576 14—an aggregate increase in the former of $68,075, and in the latter of $59,093 61. During the year an aggregate of 1,405,416 round trips were made, amounting to a total mileage of 9,130,952 miles, and 51,861,972 persons were carried, being 10,228,743 more than were carried by the steam roads during the same time, and an increase of 920,196 over the number carried during the previous year. The average amount received for the carriage of each person was 5.76 cents, and the average cost for the carriage of each person was 4.55 cents, leaving an average profit to the company of 1.21 cents on each passenger. One corporation made dividends of 10 per cent, 4 of 9 per cent, 2 of 8 per cent, 4 of 6 per cent, 1 of 4 per cent, 1 of 3 per cent, and 17 made no dividends. The average rate of dividend was 6.04 per cent.

---

☞ Controller Olcott, of this State, commenced on Tuesday, the 30th ult., the payment of $2,000,000 of the Bounty Debt. Bonds, either coupon or registered, to this amount will be redeemed at par and interest to April 7, 1877, the date of matur-

ity, by the Manhattan Company of New York, in the order of their presentation.

## Erie Railway.

EXTRACTS FROM THE REPORT OF THE GENERAL SUPERINTENDENT.

H. J. JEWETT, Esq.,
*President and Receiver Erie Railway Co.*

SIR :—I beg respectfully to submit the following report of the operations of the road for the fiscal year ending September 30th, 1876:

The freight tonnage, for the year ending September 30th, 1876, was 5,792,818 tons, or 267,125 less than for the previous year.

The decrease was altogether in the coal trade, which fell off 544,923 tons; the general business showing an increase of 277,798 tons; and the total of all freight moved one mile, an increase of 23,813,871 ton-miles. The passenger business shows a like result in the decrease of the number of passengers—10,024—and an increase of passenger mileage of 7,677,991 miles.

The working expenses for the year were $447,929 17 less than the preceding year.

### MAINTENANCE OF WAY.

There have been used in the repairs of track during the year 9,464.790 tons of steel rails; 7,523.1470 tons of re-rolled iron rails, and 606,199 cross ties.

When you took charge of the property in July, 1874, there were but 176.25 miles of steel rails in the track. There are now 340.97 miles; an addition of 164.72 miles, or 93.45 per cent. The steel is located as follows:

| Division. | Total Miles Steel, September 30th, 1876. | Miles of Main Track, not including br'ches. | Perc'ntage laid in steel. |
|---|---|---|---|
| Eastern..... | 137.91 | 174.50 | 79.00 |
| Delaware ..... | 111 06 | 165.50 | 67.10 |
| Susquehanna .... | 25.89 | 257.75 | 10.04 |
| Western ..... | 1.76 | 128. | 1.38 |
| Buffalo..... | 64.85 | 130. | 49.50 |
| Rochester..... | ..... | 128.75 | ..... |
| | 340.97 | 984.50 | 34.63 |

The amount of rails of all kinds placed in the track each year, since 1868, is as follows:

| Year. | Number of Tons. |
|---|---|
| 1869 | 34,695.909 |
| 1870 | 26,441.160 |
| 1871 | 23,969.1440 |
| 1872 | 20,174.2069 |
| 1873 | 25,743.1193 |
| 1874 | 13,858.360 |
| 1875 | 19,070.268 |
| 1876 | 16,988.20 |

It will be observed that in the fiscal year ending September 30th, 1874, there were but 13,858.360 tons of rail replaced, or about one-half the usual annual quantity. The deficit had to be made good, as far as possible, in the subsequent two years, in addition to the wear of that time.

The total amount laid in 1875 and 1876, is less than previous years; but your adoption of the use of steel rapidly made the requirements less. The condition of the track is about the same as at the date of last report, except so far as improved by the additional quantity of steel rails. New iron turn tables have been put in at Buffalo, Hornellsville, and Attica, during the year.

Some considerable additions have been made to the drainage. The ballast has not at any time been sufficient in quantity or of approved quality, and is now very much worn and in need of renewal. The track will require for its proper maintenance during the current year 9,400 tons steel rails, 8,500 tons re-rolled iron rails, and 550,000 cross ties.

The quantity of steel above named will be sufficient to complete the main track with continuous steel rails from Jersey City to Susquehanna, a distance of 191½ miles. The propriety of substituting steel for re-rolled iron rails west of Susquehanna is respectfully suggested.

It would tend greatly to the immediate economy and promptness of moving trains if the double track were extended from Canisteo to Adrian, on the Susquehanna Division, a distance of six miles, as it would afford at once relief to the Hornellsville yard, now overtaxed with the terminal work of three divisions.

Also, from Pine Grove to Narrowsburg, six miles, and from Stockport to Lordville, on the Delaware Division, five and three quarter miles.

* * * * * * * *

### THIRD RAIL.

A third rail to form a gauge of 4 feet 8½ inches was laid between West Junction and East Buffalo, and opened for business on the 1st of June last.

The cost of this rail, with the necessary fastenings, frogs, spikes, etc., put down in the track was $1,060,032 18.

This forms a continuous connection via the Lehigh Valley Railroad from Philadelphia and the anthracite coal regions of Pennsylvania to Buffalo and the West. The business on this new line has been good, and bids fair to be permanent and profitable.

### BRADFORD BRANCH.

The development of the oil territory on the line of the Bradford Branch, has so far increased the business on that road that the revenue thereon is now something more than the working expenses.

The business is greater than that of the previous year by 280 per cent., mostly in the last seven months.

There are now down and in progress about 300 wells in the vicinity of the road; most of those completed are producing oil in paying quantities, and promise to be permanent.

Some needed improvements in the way of side tracks and depots are required to accommodate the traffic.

---

The Elmira and State Line Railroad Company have connected their track with our road at Southport Junction, near Elmira. This road affords an additional outlet to the coal from the Blossburg region, and it is expected will afford additional traffic to our line as well as lessen the cost of coal used in our service.

* * * * * * * * *

### MOTIVE POWER.

During the year twenty first class locomotives were purchased of the Brooks' Locomotive Works at a cost of $196,000 and four new locomotives of the Mogul pattern were constructed in the Company's shops at Susquehanna, at a cost of about $44,000. These are the only new locomotives placed in the revenue service on the line of the road since August, 1872, and have not made good the depreciation of the intervening period.

Notwithstanding the addition of twenty-four new locomotives during the year, we have but eight additional numbers, sixteen having been condemned and destroyed. Since the date named (August, 1872), and prior to 1874, six new switching engines had been purchased and are in use in the yards; also three narrow-gauge engines purchased of the New York, Boston and Montreal Railroad, used in switching at Buffalo, and on the Suspension Bridge Branch, and one narrow gauge engine purchased in 1875, for the International Bridge Branch.

Of the four hundred and sixty-nine locomotives owned by the company, one hundred and sixteen are inside connected or crank engines, which are more expensive to keep in repair than the modern patterns. The locomotives embrace eighty-three different varieties, which fact, obviously, largely increases the expense of maintenance, requiring a corresponding amount of special patterns, tools, and materials. Of the forty-five locomotives on the Western Division, thirty-six are of the standard pattern, and the cost of repairs on that division shows 4.41 cents per mile run, while on the whole road, including that division, the cost was 7.05 cents per mile. This economy of repairs is obtained from the uniformity of the engines, and clearly proves the importance of adhering to the standard in all future additions.

The engine houses and stalls are quite insufficient for sheltering the locomotives, and consequently during the winter months the cost of their care is increased.

### CARS.

There have been built during the year, in the company's shops, fifty-nine new passenger cars, and ten new baggage and express cars. Of these forty-three passenger cars, four baggage, and two express cars are additions made to these classes of cars during the year, the entire cost of which has been charged to the expenses.

Of all classes of freight cars, two hundred and eighty-six (fifty of which were four wheeled coal cars) were destroyed.

There were built in the company's shops two hundred and forty seven; purchased, seventy-eight; increasing the total number of freight cars by sixty three.

In the freight car equipment are two hundred and thirty varieties, many of them differing in their essential parts; as, for example, nineteen different journal bearings, fifty-three journal boxes, twenty-seven drawheads, and fifty-two brake shoes. This involves the necessity of carrying a large stock of material at the respective shops, and largely increases the cost of current repairs.

The equipment of box cars is entirely inadequate to the demands of the traffic, and at certain periods of the year the revenue of the company could be increased if we could command additional cars.

This business is not of a character that, so far as this company is concerned, can be distributed over more time, and thus keep the cars more regularly and constantly employed, but is mostly competitive, and is taken by other lines, our proportion being limited by the supply of box cars.

The Rochester Division was during the year placed under the charge of the Superintendent of Buffalo Division, dispensing with the superintendent's office at Avon.

I cannot neglect this opportunity to refer to the necessity that exists for some important modifications of the property of the company. You are struggling to compete for a common business with parallel lines of railway having double tracks of steel rails, an abundant equipment, adequate shops, and convenient depots for the transaction of their business; while you are limited by a single track on a large portion of your road, the shops inconvenient in arrangement and insufficient in capacity, many miles of iron rails that rapidly fail under the heavy traffic, and damage by their imperfections the rolling stock, which is in itself quite inadequate, when all of it is kept in the service. The exceptional gauge is also an element of constant cost, while it also largely tends to limit the amount of the revenue, by limiting the amount of property that will be entrusted to you for transportation while the possibility of transfer exists.

Estimates of the cost of this undertaking have been prepared in detail from time to time, and while the amount of money required is large, it is confidently believed that the return from the investment will be more than ordinarily remunerative.

Very respectfully,
E. S. BOWEN,
General Superintendent.

GENERAL SUPERINTENDENT'S OFFICE,
NEW YORK, Dec. 5, 1876.

---

☞ The Missouri Pacific Railroad Company has entered suit in the Circuit Court of St. Louis county against the Atlantic and Pacific Railroad (now called the St. Louis and San Francisco Railroad) for breach of contract, and asks judgment in the sum of $7,650,000. The suit grows out of the lease of the Missouri Pacific and its branches in June, 1872, to the Atlantic and

Pacific, which, it is claimed by the plaintiff, was unlawfully broken, and the aggregate sum prayed for is made up of several amounts which plaintiff alleges were lost through the act of the defendants and the sale of the Missouri Pacific under decree of the United States Circuit Court last Fall.

### Mississippi and Tennessee Railroad.

The earnings of this road for the years ending September 30, 1875 and 1876 were as follows:

| | 1875. | 1876. |
|---|---|---|
| From passengers | $128,328 42 | $126,168 48 |
| " freight | 312,725 97 | 330,168 28 |
| " express | 5,000 00 | 5,000 00 |
| " mails | 8,000 00 | 6,263 10 |
| " privileges | 1,856 35 | 1,672 24 |
| | $455,910 74 | $469,272 00 |
| Expenses, viz: | | |
| Conducting transp | $63,190 23 | $58,152 78 |
| Motive power | 76,124 82 | 70,756 87 |
| Maintenance of way | 81,391 49 | 76,121 29 |
| Maintenance of cars | 23,871 49 | 22,442 76 |
| | $244,578 03 | $227,473 70 |
| Net earnings | $211,332 71 | $241,798 30 |

Compared with the previous year the gross earnings show an increase of $13,361 26, with a decrease in expenses of $17,104 33, making the increase in net earnings $30,465 59. The operating expenses in 1875 were 53.65 per cent of gross earnings; in 1876 they were 48.48 per cent. There was a decrease in the receipts from passengers of $2,159 99, from mails of $1,736 90, and from privileges of $184 11; while the receipts from freight show an increase of $17,442 26. The increase in freight receipts is stated by the President to be due to the extremely large cotton crop raised along the line of the road last season. There was an increase in the receipts of local cotton at Memphis of 22,990 bales and an increase in shipments from local points to New Orleans of 3,465 bales, also an increase in shipments from Memphis to New Orleans of 8,877 bales, and a decrease from connections of 3,676 bales, thus making a total increase of 31,656 bales. The number of bales of cotton received at Memphis the past year was 69,064, against 49,750 in 1875, an increase of 19 314. The number of bales forwarded to New Orleans from Memphis and local stations was 53,159, against 40,817 in 1875, an increase of 12,342. The total movement of cotton for the year 1876 was 122,223, against 90,567 in 1875, an increase, as stated above, of 31,656.

The equipment of the road consists of 12 locomotives, 11 passenger, 5 baggage and mail, 4 caboose, 80 box, 44 flat, 8 stock, 12 hurdle, 14 hand, and 6 boarding and tool cars.

The mileage of engines has been: on passenger trains, 122,435; on freight trains, 69,166; on switching trains, 17,950; on construction trains, 88,108—total, 287,662; at a cost per mile run for repairs, fuel, wages and stores of 21.78 cents. The The report says:

The company has sustained scarcely any loss from accident and we find our roadway and equipment all in excellent condition. We have bought as little material as possible and have run our trains as economically as prudence would permit.

Our motive power is in better condition than ever before and our rolling stock is in good order. Our passenger and freight equipment, though limited, we consider ample at present.

During the fiscal year just closed 144.30 tons new, and 345.870 tons re-rolled sixty pound fish bar iron has been laid in track at a cost of $14,491 29 or $20 85½ per ton, including freights, fastenings, etc., making 3 357-440 miles.

Our bridges and trestles are in good order, but with so large an amount of perishable material, the expenses for maintaining same in good order cannot be materially decreased.

| | | |
|---|---|---|
| Our funded debt last year was | | $2,265,744 00 |
| Our funded debt now is | | 2,173,074 00 |
| Decrease | | $92,670 00 |
| Our floating debt last year was | | $112,644 75 |
| Our floating debt this year is | | 101,120 03 |
| Decrease | | $11,524 72 |

which is still further reduced by cash on hand $13,637 60, and other assets $78,849 40.

You therefore see, from the earnings of the road, we have kept it in good order, made such improvement and additions as were necessary, have paid promptly all interest on our funded and floating debt; besides having reduced our funded debt $92,670, and our floating debt $11,524 72.

Passenger trains have run 126,923 miles, earning per mile, 99½ cents; freight trains have run 82,631 miles, earning $3 99½. Total train mileage, 209,554 miles. Receipts per mile, $2 24; expenses, $1 08½; net receipts, $1 15½. Receipts per mile of road, $4,692 72.

#### Treasurer's Report.

| | | |
|---|---|---|
| Construction (original cost of road) | | $2,011,197 77 |
| Equipment ( " " ) | | 185,832 84 |
| Reconstruction and equipment | | 759,624 47 |
| Road expenses | | 227,478 70 |
| Coupon interest | | 142 884 00 |
| Interest on Tennessee bonds | | 21,786 54 |
| Salaries | | 5,741 64 |
| Mississippi State taxes | | 6.585 87 |

*Superintendent.*—M. Burke.

☞ Henry A. Whitney, of Boston, has been re elected President, and B. B. Torrey Treasurer of the Providence, Warren and Bristol Railroad.

### Debt of New York City.

The following is an extract from the Reply of the Comptroller to the Assembly Committee

There are three distinct kinds and classes bonds, which require separate consideration in treating of the bonded debt of the city.

1. Bonds payable from taxation or from the sinking fund, known as "The Funded or Permanent Debt."

2. Bonds payable from assessments known as "temporary debt."

3. Bonds issued in anticipation of the collection of taxes known as "revenue bonds."

The following statement exhibits the amount of each class of bonds composing the "bonded debt" of the city of New York on December 31, 1876:

| | | |
|---|---|---|
| Funded Debt, or long bonds— | | |
| Amount payable from sinking fund | $21,439,564 | |
| Amount payable from taxation | 98,191,749 | |
| | | $119,631,313 |
| Temporary debt or assessment bonds —amount payable in whole or in part from assessments for opening and improving streets, avenues and boulevards | | 22,371,400 |
| Revenue bonds payable from taxation | | 6,104,844 |
| Total amount of bonded debt of the city of New York December 31, 1876 | | $148,107,557 |

The securities held by the sinking fund amounted on December 31, 1876, to $28,179,102, of which amount the sum of $21,439,563, as above stated, is pledged for the redemption of the funded debt, leaving an excess of $6,739,539 in the sinking fund for the redemption of the city debt not now appropriated by law to any special object.

Bonds of the first class, or funded debt bonds, are issued in pursuance of special laws, such as the acts authorizing the opening and improvement of Central Park and other public parks and places, the supply of the city with Croton water, the payment of riot damages, the erection of the new County Court House and the Third District Court House, the Museums of Art and Natural History, the Brooklyn Bridge, the docks and many other public works and purposes, a number of which are in force, and still compel further issues of stocks and bonds.

Bonds of the second class, or assessment bonds, are issued to raise money to pay the expense of opening and improving streets, avenues, boulevards, &c., under the direction of the Department of Public Works and the Department of Public Parks.

Bonds of the third class, or revenue bonds, are issued in anticipation of the collection of taxes to provide for the current expenses of the city government and other annual appropriations. They fluctuate in amount, and toward the close of the year for which the taxes are levied they sometimes exceed $20,000,000 outstanding bonds.

☞ The necessary papers were filed at Albany, N. Y., on the 27th ult. in the office of the Secretary of State on behalf of a corporation called the Chambers Street Railroad Company of New York, for the construction of a railroad commencing on South street, at James slip, along James slip to New Chambers street, then to Chambers street and to West street—a total distance of one mile. The names of the incorporators are Peter Charles Smith, W. Anderson, Jacob D. Ackerman, Horace F. Chase and others. The capital stock is put down at $30,000.

☞ In the action of the State of Maine against the Maine Central Railroad Company for the State tax of 1875, the company claiming exemption from the terms of the charter, the full Court has decided in favor of the State. The amount involved up to the present time is $56,000.

### Sunbury and Lewistown Railway.

The Sunbury and Lewistown Railroad Company was one of the roads that went into the hands of a receiver about two years ago, and was sold to the holders of its first mortgage for $551,000 at public sale, and there were given in on account of the purchasers $400,000 on first mortgage bonds, leaving $151,000 to be paid in cash. Unable to meet this payment the bondholders made a pool, and the road being put up again, was sold in March of last year. The amount that was contributed was over $161,000. The auditors, after a careful examination, have authorized the distribution of the surplus, amounting to $10,791, amongst the bondholders in the pool. The name of the new corporation will be the "Sunbury and Lewistown Railway Company."

### Commerce of New York.

We give below, from the *New York Journal of Commerce*, a statement of the Commerce of New York, for 1876, in comparison with that for the five preceding years. The following is a comparative table showing the relative totals imported at New York in each year since 1850:

| Year. | Dutiable. | Free Goods. | Specie. | Total. |
|---|---|---|---|---|
| 1851. | $119,592,264 | $9,719,771 | $2,049,543 | $131,361,578 |
| 1852. | 115,336,052 | 12,105,342 | 2,408,225 | 129,849,619 |
| 1853. | 179,512,412 | 12,156,387 | 2,429,083 | 194,097,652 |
| 1854. | 163,494,984 | 15,768,916 | 2,107,572 | 181,371,472 |
| 1855. | 142,900,661 | 14,103,946 | 855,631 | 157,860,238 |
| 1856. | 193,839,646 | 17,902,578 | 1,814,425 | 213,556,649 |
| 1857. | 196,279,362 | 21,440,794 | 12,898,033 | 230,618,129 |
| 1858. | 128,578,256 | 22,024,691 | 2,264,120 | 152,867,067 |
| 1859. | 213,640,363 | 28,708,732 | 2,816,421 | 245,165,316 |
| 1860. | 201,401,683 | 28,006,447 | 8,852,330 | 238,260,460 |
| 1861. | 95,326,459 | 30,353,918 | 37,088,413 | 162,768,790 |
| 1862. | 149,970,415 | 23,291,625 | 1,390,277 | 174,652,317 |
| 1863. | 174,521,766 | 11,567,000 | 1,525,811 | 187,614,577 |
| 1864. | 204,129,236 | 11,731,902 | 2,265,622 | 218,125,760 |
| 1865. | 212,208,301 | 10,410,837 | 2,123,281 | 224,742,419 |
| 1866. | 284,033,567 | 13,001,588 | 9,578,029 | 306,613,184 |
| 1867. | 238,297,955 | 11,044,181 | 3,306,339 | 252,648,475 |
| 1868. | 232,344,418 | 11,764,027 | 7,035,389 | 251,193,834 |
| 1869. | 275,779,976 | 14,789,235 | 15,788,462 | 306,357,673 |
| 1870. | 289,618,878 | 13,716,500 | 11,864,644 | 315,200,022 |
| 1871. | 349,635,398 | 28,878,294 | 6,348,608 | 384,862,300 |
| 1872. | 369,083,458 | 57,429,020 | 5,594,208 | 432,106,686 |
| 1873. | 293,035,348 | 86,924,877 | 18,605,611 | 398,565,836 |
| 1874. | 278,677,532 | 108,598,631 | 6,407,571 | 393,683,734 |
| 1875. | 235,398,509 | 91,791,853 | 13,438,557 | 340,628,919 |
| 1876. | 202,486,773 | 76,659,977 | 26,217,888 | 305,364,638 |

Under the head of dutiable, in the above table, are included the goods entered directly for consumption which are subjected to duty, and also those entered in bond for warehousing. These, with the free goods and the specie, make the total landed at the port. Including the specie, the imports for 1876 are $35,264,281 below the total for 1875; but deducting the specie in both years, the falling off in merchandise imports for the twelve months amounts to $48,043,612—a decline of nearly one million per week.

The following table will show the classification of imports at New York for the years—

| | 1874. | 1875. | 1876. |
|---|---|---|---|
| Dry goods. | $106,520,458 | $99,816,025 | $80,716,163 |

### Railroads of Maine.

The Railroad Commissioners of Maine, in their report which will be submitted to the Legislature in a few days, state that their inspection of the railroads of the State has been thorough and practical. They declare that all the roads are now safe, with ordinary skill on the part of employes. The roads compare favorably with those of New England and show a marked improvement over past years in every direction, but particularly in a better track.

The total number of miles of railroad in the State is 1006.83, all of which is operated by steam except 6.75 miles in the city of Portland—or about one mile of railroad to 33 square miles of territory and to 644 of population. During the year the Aroostook Valley Railroad has been completed from the State line through Fort Fairfield village to Caribou in the town of Lyndon. This road connects and is managed by the New Brunswick Railroad, which extends up the St. John river from Fredericton. It is designed to connect the New Brunswick road with the New Brunswick and Canada which extends from Woodstock, N. B., to Calais and makes a junction with the European and North American. It only requires the construction of a mile and a half to complete the line, so that passengers can leave Northern Aroostook one morning and be in Boston the next. The road is three and one half feet gauge, and uses the "American Fairlie Engine," made at Taunton, Mass. The Bangor and Piscataquis Railroad has been extended several miles the past year, and now only requires an extension of 18½ miles to reach Moosehead Lake. These are the only extensions. The portions of the Boston and Maine and Eastern Railroads under the supervision of the Maine Commissioners are reported to be in good working condition, and special testimony is borne to the efficient management and excellence of the former. The one railroad which is more important to Maine as a whole than all others is the Maine Central. Of this it is reported that the trunk lines were never in so excellent a condition as at present or more efficiently managed.

The Commissioners estimate that $50,000,000 is invested in railroads in Maine; of this large sum the greater part is dead capital, and they express the opinion that only so far as bonds and mortgages represent a portion of this sum will it ever pay any dividend upon the original cost.

☞ The parties who purchased recently at public sale the Wilmington and Reading Railroad have organized a new corporation, under the name of "The Wilmington and Northern Railroad." The capital stock is fixed at $1 500,000, divided into shares of $50 each. The officers are: President, Robert Frazer. Directors, Matthew Baird, Edward S. Buckley, Lewis Waln Smith, L. Dupont, Charles Barber, Edward Brooke.

☞ The officers of the South Boston Railroad Company, recently elected, are: President, J. B. Crosby; Vice President, Daniel Bradford; Treasurer, H. A. G. Pomeroy; Superintendent, J. C. Jepson; Clerk, Wm. Reed.

☞ G. K. Jewett, Esq., has resigned his position as President and Director of the Bangor and Piscataquis Railroad.
